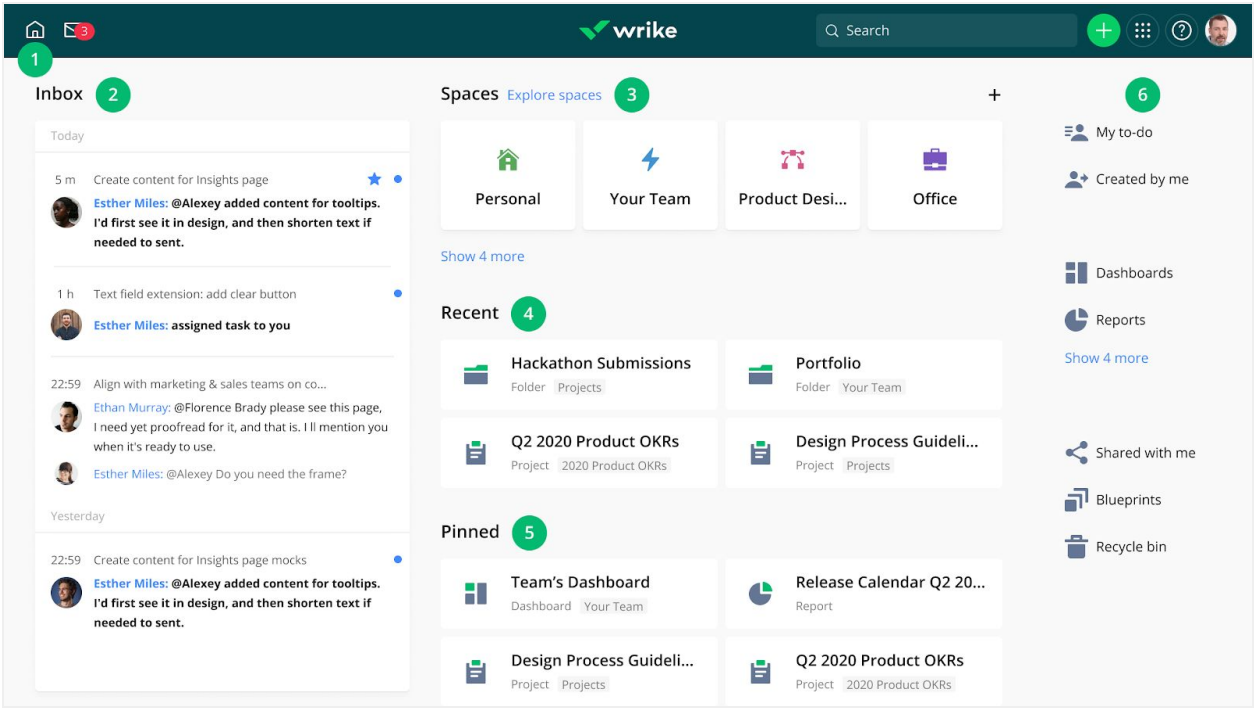
My Home

My Home is the new homepage and lets you quickly and easily access the work that matters most.



[1] To get to your homepage, click the **My Home** icon, which you'll find in any workspace. My Home is also the default landing page when you sign in to Wrike.

[2] **Inbox widget** displays the most recent updates and @mentions to your tasks and projects. You'll find the Inbox icon in any view of Wrike's workspace.

[3] The **Spaces** section displays all Spaces you are part of. You can reorder Space tiles via drag and drop. You can also hide Space tiles by selecting the three-dot icon on the right corner of the tile.

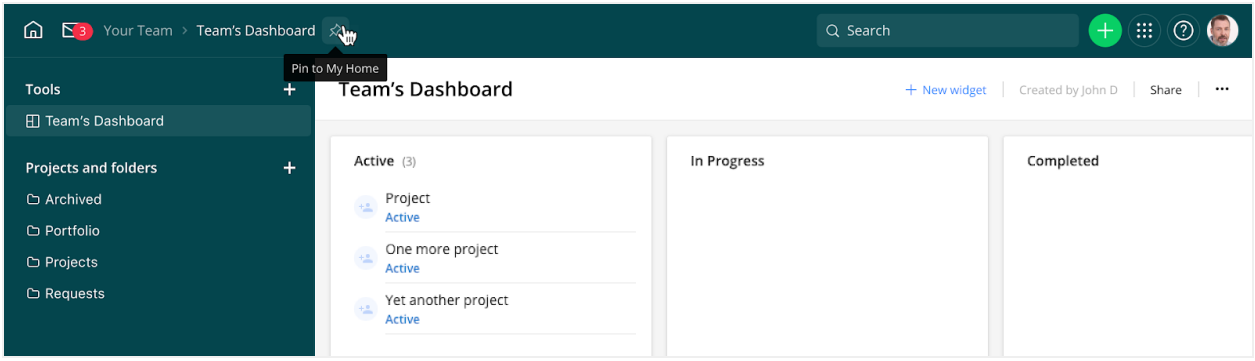
[4] **Recent** contains the projects and folders you last visited.

[5] In the **Pinned** section, you can affix important folders, projects, and tools. You can reorder Pinned tiles via drag and drop.

[6] **Toolbar & Drop-down Menu**, found on the right panel in My Home**,** contains Wrike tools, smart folders, Shared with me, Blueprints, and Recycle bin.

Frequently Asked Questions (FAQ)

How do I pin a project, folder, or tool?
On the top level navigation, you'll see the navigation path. If you're in a project, folder, or tool, you may choose to pin the specific area to your My Home by clicking the pin icon. You may also unpin by clicking the pin icon again, or by unpinning from the Pinned section in My Home.



What can I customize in My Home?
My Home was built to allow users to configure their workspace and better suit their needs and provide a quick and cleaner way to find their most important work. With this in mind, we wanted to ensure users had a way to customize their workspace that was comfortable.

- Sections: Recent, Pinned, and Spaces
    - Reorder Recent, Pinned, and Spaces
    - Tile size: small, large
- Spaces section: Reorder the placement of the tiles with drag-and-drop. Sorting options include alphabetical and custom sorting.
- Pinned section: Reorder the placement of the tiles with drag-and-drop.
- Hide tools in the right panel toolbar.
