2. Introduction

Overview

Invoice Manager Overview

We are excited to introduce Invoice Manager, a new feature available within the procurement portal. With an intuitive, user-friendly interface, efficiently manage the coding and routing of all purchase invoices. Proactively monitor and resolve mismatch queries, ensuring swift and accurate resolution. Streamline manual workflows, automate processes, and accelerate invoice approvals for enhanced efficiency and financial control.

Accessing Invoice Manager

To access Invoice Manager, navigate to the procurement portal and select the relevant menu option. From there, you will be able to manage your Accounts Payable transactions in a streamlined and efficient manner.

Key Features of Invoice Manager

- **Single View:** Invoice Manager provides a single, unified view of all Accounts Payable transactions, making it easier to track and manage your invoices.
- **Built-in Workflow:** The tool includes a built-in workflow feature, allowing you to automate and streamline your Accounts Payable processes.

Setup and Processing

To get started with Invoice Manager, you will need to set up your users to allow access.

Once set up, Invoice Manager will enable you to process your Accounts Payable transactions more efficiently, reducing the risk of errors and improving overall financial management.

Users will need to have access to Accounts Payable Data Entry, invoice mismatch screens and Accounts Payable Enquiry screens.

Getting Started with Invoice Manager

If you have any questions or need assistance with setting up or using Invoice Manager, please don't hesitate to reach out to our support team. We are here to help you get the most out of this powerful tool.

2. Invoice Manager Setup

Firstly, the user must be given access to the Invoice Manager role.

Access the Financials System and follow the menus below.

Menu access: **Main Menu>System Admin>System Wide Controls>Portal Roles**

This is also available from the Combined User setup screen.

Locate the user you require to amend or use the insert action to create a portal role(s) for an existing user.

The **Invoice Manager** role requires selection. One role will need to be defined as default if not already set. The user can change the default when they login into the Procurement Portal.

Navigation

The user can now login to the **Procurement Portal** by selecting the Icon on the One Advanced Platform.

Select the **Invoice Manager** option from the menu option.

The Summary screen is displayed; this gives an overall view of your Accounts Payable Transactions.

Hover the mouse over each status and that will display the number of transactions relating to each.

Each graph has an option to **Export** or **Print**; you can locate these options by selecting the three dots placed on the right side of each graph.

There are Filters that can be used refine your search, these are available for each graph. Select the Filters box to display the search fields.

Requisitions
Invoice Manager
Orders

All Transactions
PO Transactions
Non PO Transactions

All Transactions – display all order related and non-order related transactions

PO Transactions – displays only order related transactions

Non-PO Transactions - display only non-order related transactions

Graphs explained

Awaiting Action

Shows Invoices, credit notes and debit note of all statuses, this is very similar to the list of transactions you would see in the Accounts Payable Enquiry screens. You will see various transactions status here, they are grouped by Order Related transactions and non-order related transactions.

Selecting each status will drill you down to the transactions, where more actions and enquiries are available.

Example of some of the statuses of transactions.

Due – due for payment

Overdue – overdue for payment

Held - due to a mismatch to a purchase order or goods received note

Logged – Log requires the line details to be added

Accepted - – ready to be paid but not yet reached the due date

Mismatched PO

Shows the four different mismatches that can occur in Financials, these invoices have been matched to purchase orders and goods received notes, but an issue has occurred, so these transactions are awaiting further processing.

Value

Price

Quantity

Miscellaneous Charge

For more information on mismatches use the following link.

<https://financials.helpdocs.io/article/o20gh0vf4t-mismatch-types>

Outstanding: Days Aged

Displays outstanding aged transactions by days, this is invoices and credit notes.

Status

Displays transactions with the different statuses.

Accept – ready to be paid but not yet reached the due date

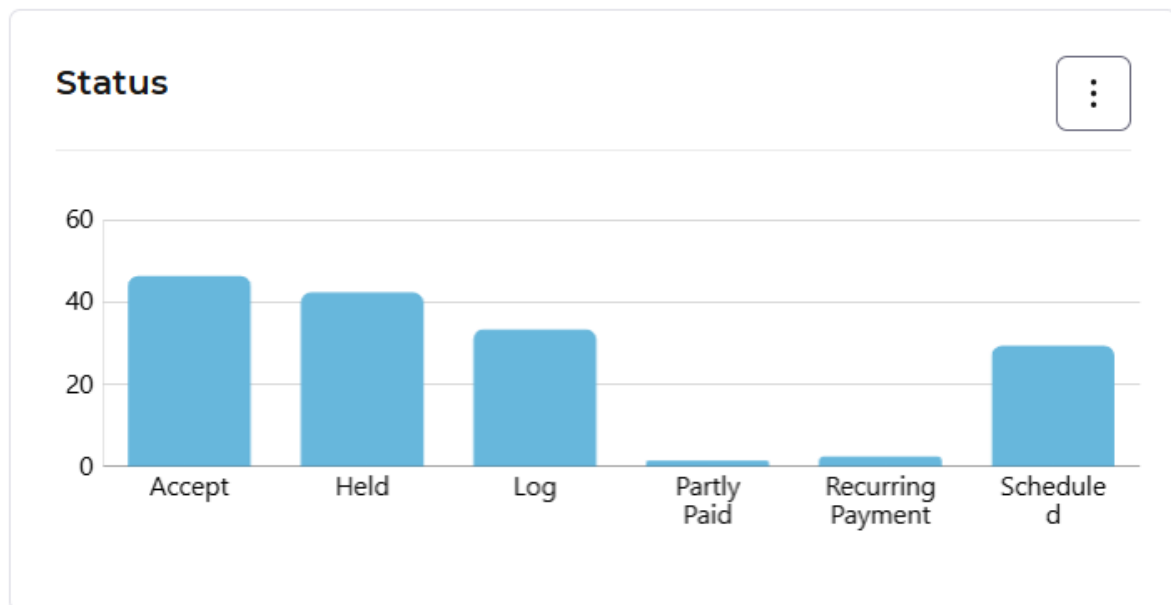

Held - due to a mismatch to a purchase order or goods received note

Log - requires the line details to be added

Partly Paid – invoice has been part paid but still has an outstanding balance

Recurring Payment – invoice has been setup with recurring payment schedule

Scheduled – the invoice is currently on a payment schedule

Throughput

Displays how many transactions have been posted that month. This is just a summary view with the drilldown action is not available.

Processing

Awaiting Action graph

When selecting a bar on the graph a list of transactions is then displayed, depending on the transaction status will depend on what action is available.

If you are using foreign currency a summary will be shown above the transaction list.

[Previous Batch](#) [Next Batch](#)

Note: using the Toggle Column action allows you select and deselect the columns of your choice

Toggle Column

- ☒ Invoice No
- ☒ Order
- ☒ Invoice Date
- ☒ Due Date
- ☐ Entered Date
- ☐ Mismatch Type
- ☒ Overdue Status
- ☐ Dispute
- ☒ Supplier

You can select the **Show User Invoice Only** action, this will only show invoices that have been Assigned to you.

The number of rows per page can be changed by selecting the drop-down menu. The **Previous Batch** and **Next Batch** options alongside the page numbers can also be selected. Selecting **Next Batch** will increase the number of transactions, if the buttons are unavailable then all transactions have been retrieved. The list is built by 100 each time the Next Batch button is selected.

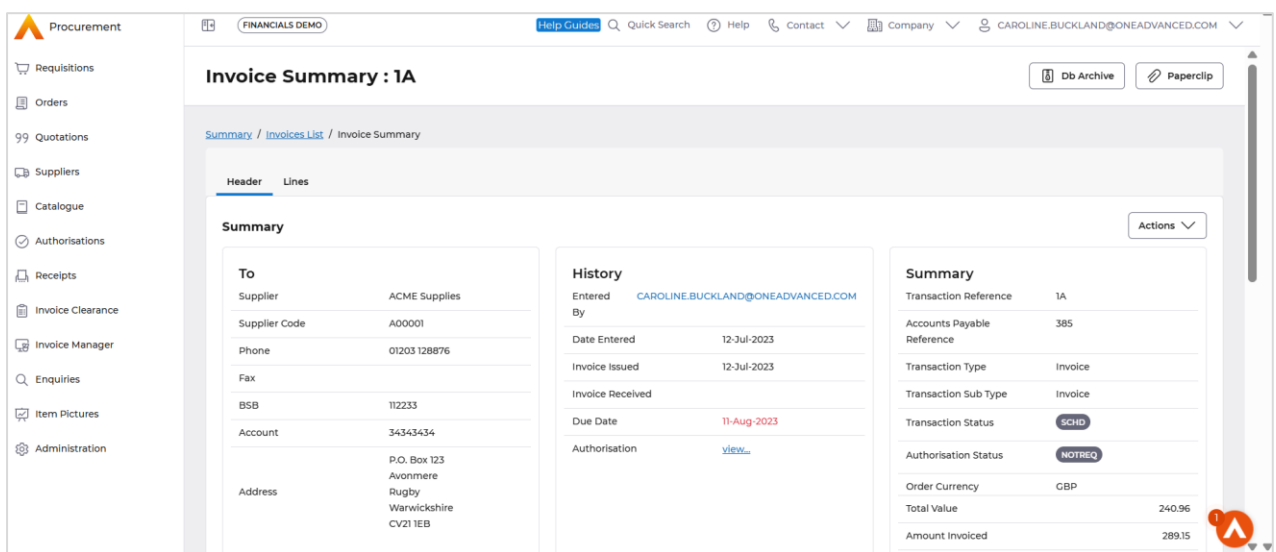

These actions are located at the bottom of the page.

The **Search** field can also be used at the top of the list, with the option of selecting dates.

Scroll to the right of the list to locate the **Actions**, select the 3 dots to see which actions are available.

When selecting the **View invoice** action, this will show you the summary of the Invoice header and lines.

Invoice images and any paperclip attachments can be viewed by selecting the **DB Archive** and **Paperclip** buttons.

The breadcrumb trail can be used to go back to the Invoice list.

Mismatched PO

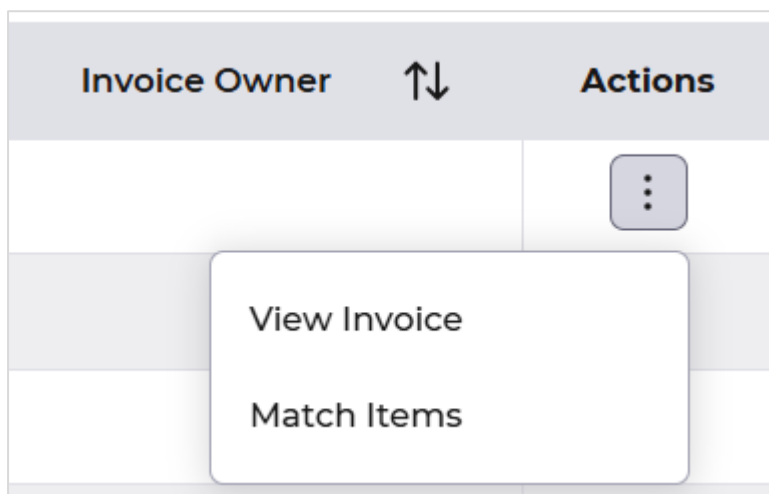

There are four types of mismatches.

Note: more details for the mismatch types can be found here:

<https://financials.helpdocs.io/article/o20gh0vf4t-mismatch-types>

- Value
- Price
- Quantity
- Miscellaneous Charge

Select one of the tiles to locate a list of invoices. When selecting the **Actions** menu two options will be available.

Select the **Match items** action.

There have been no payments made on this transaction.

There are action buttons to the right of the screen that allows the **View Invoice** or **Amend Invoice** action.

Invoice Owner ↑↓	Actions
	View Invoice
	Amend Invoice

Use the **Amend** action.

The Invoice/Credit note is displayed alongside the header information. The header data of the invoice is shown on the right side of the screen - this should be checked for accuracy prior to adding any additional lines.

The screenshot displays the 'oneAdvanced' Procurement Portal interface. The main header shows the company name 'oneAdvanced' and user information 'Caroline Buckland'. The left sidebar contains navigation links: Requisitions, Orders, Questions, Suppliers, Catalogue, Authorisations, Receipts, Invoice Clearance, Enquiries, Item Pictures, and Administration. The main content area is titled 'Non PO Invoice (ST1085614/904)' and includes buttons for 'Cancel Changes', 'Actions', and 'Approve'. Below the title, there's a 'Summary / Invoices List / NON PO Invoice' breadcrumb. The 'Invoice Details' section is divided into three columns. The left column shows a preview of the invoice from 'Purple Telecom' with details like 'Invoice Number: ST1085614', 'Invoice Date: 01 January 2020', and 'Invoice Price: £100.00'. The middle column contains fields for 'Description', 'Supplier', 'Supplier Address', 'Currency', 'GBP', 'Invoice Number', 'Our Reference', and 'PO Number/Originator'. The right column shows 'Net', 'Gross', 'Base', 'Invoice Date', 'Due Date', 'Received Date', 'Dispute Code', and 'Notes'. At the bottom, there's a 'Lines' section with an 'Add Line' button.

When the invoice details have been verified, line details can be added, select the **Add Line** button.

The screenshot shows the 'Lines' section of the Procurement Portal. It features a table with the following columns: GL Account, Invoice Price, Invoice Quantity, Vat Code, and Line description. At the bottom right of the table, there is an 'Add Line' button.

You are required to enter the following fields. You can search for codes by typing the code or description.

- GL Account
- Invoice Price
- Invoice Quantity
- Vat Code
- Line description

A financial code will need to be entered onto the screen in the coding line at the bottom.

The cost centre and account codes are mandatory and need to be entered in every case. Analysis codes are not always required but should be entered if required.

To enter the cost centre, if the code is known it can be manually entered in the cost centre box.

Lines										
#1	Cost Centre	Nominal	Fund	Project	Week	Emp	Proj	Phase	Act	Sub
	2105	5404	X	X X						
	Finance	Telecommunicat	Default	Default						

Once the code is entered, the net amount box will need to be entered, If the whole value of the invoice is to be coded to the same financial code, enter the full value in this box – the Net Amount is shown on the invoice header details above. Quantity's can also be entered.

Where the invoice value is to be split across more than 1 code, enter the value to be allocated to the entered code in the Net Amount field, another row can then be added.

An invoice can contain as many coding rows as required.

Next the VAT code needs to be entered. Please enter this in the VAT code box – a drop-down menu will show the code.

A line description requires and entry.

Invoice Price	Quantity	Net Amount	VAT Code	VAT Amount	Line Description
132	0.0000	132.00	STD	26.40	Call Charges
			Standard		

You have two icons available against each line.

Copy – to copy the line.

Delete to – delete the line.

The **Add Line** action can also be used.

The **Action** button at the top right of the screen allows the following actions.

Save – will update your transaction and send for approval if applicable.

The **Cancel Changes** button can then be used to return to the invoice list.

Forward - on to another user or team, notes can also be added. The select the **Forward** button.

Close

Note: if you assign to a team the history is not shown.

There is also a **Cancel Changes** button and a **Accept** button available from this screen.

Cancel Changes – will not save any data added and will return you back to the transaction list.

Accept - will update the invoice and you will receive an update message. The invoice may require authorisation before it will be paid.

Multi Amend Invoices

If you have several invoices that need to be amended, then select each in turn and use the **'Amend Invoices'** option.

The screenshot shows the 'Amend Invoices' interface. At the top, there's a search bar and a 'Clear' button. Below that, a blue bar indicates '4 rows selected' and contains the 'Amend Invoices' button. The main table has columns: All, Locked, Invoice No, Order, Invoice Date, Due Date, Overdue Status, Supplier, Value, and Status. The table lists several invoices, some of which are marked as 'OVERDUE'. At the bottom, there's a pagination bar showing 'Showing rows 1-10 of 95' and a 'Rows per page' dropdown set to 10.

Once you've processed an invoice, you can use the **'Next Invoice'** action to move on to the next one on the list. This process will continue until all selected invoices have been updated, at which point you'll be returned to the original list.

Held Invoices Processing

The processing of held invoices also allows you to multi select and process.

Held Invoices – multi select to allow the Match Item selection.

The screenshot shows the 'Held Invoices' interface. At the top, there's a search bar and a 'Clear' button. Below that, a blue bar indicates '3 rows selected' and contains the 'Match Items' button. The main table has columns: All, Locked, Invoice No, Order, Invoice Date, Due Date, Overdue Status, Supplier, Value, and Status. The table lists several invoices, some of which are marked as 'OVERDUE'. At the bottom, there's a pagination bar showing 'Showing rows 1-10 of 53' and a 'Rows per page' dropdown set to 10.

The **Next Invoice** action is now available.

Can be entered, if you want to query the invoice. These are pre-defined codes and can be used as a search criterion from the filters option.

When you are in the Amend mode, the header details will display a Dispute Code field.

<div>P00006</div> <div>Supplier Address</div> <div></div> <div>Currency</div> <div>GBP</div> <div>Invoice Number</div> <div>INV6577</div> <div>Our Reference</div> <div>115</div> <div>PO Number/Originator</div> <div></div>	<div>Base</div> <div>0.00</div> <div>Invoice Date</div> <div>17-Feb-2020</div> <div>Due Date</div> <div>18-Mar-2020</div> <div>Received Date</div> <div>30-Mar-2020</div> <div>Dispute Code</div> <div>incorrect</div> <div>D1C</div> <div>incorrect coding</div> <div>Showing 1 of 1 result(s)</div>
---	---

Additionally, add more notes if required by adding the notes – explained in the early section.

Save – save any changes made, this will keep you in the same screen.

The Filter will allow the search for dispute codes.

Show User Invoice Only

To remove a Dispute code, amend the invoice and remove the code.

Note: dispute codes are for memorandum only, they will not stop the invoice being processed.

The order lines are retrieved.

Lines						
Line ⚙	Item code ⚙	Description ⚙	Ordered ⚙	Received ⚙	UOM ⚙	Unit Price
1		Dell Laptop	1.0000	1.0000	EA	200.00
<div>Showing rows 1-1 of 1 Rows per page 10 ▾</div> <div> <input type="button" value="1"/> </div>						

Check the information is correct, if the lines have correctly matched the **Accept** button can be used to process the invoice/credit note.

Receipt Order

If an order related invoice has a mismatch, this could be because of a price, value or not enough receipts are available to match, then the actions button will display two more options.

- Receipt Order
- Amend Order

Advice Note Delivery Note Received Date 07-Aug-2025

#1	Item	Description	Q/S Qty	Q/S Value	Qty Received	Value Received	Units	Value on Order	Delivery Comment	Complete
		Post it no	20.0000	200.00	20.0000		EA	0.00		<input type="checkbox"/>

Clear All Receive Order Line

You will be taken back to the Invoice **Manager Workbench**. A message will be retrieved.

The **Accept** action can be selected. The receipts and invoice will be allocated overnight.

The mismatch process can also be run from the AP Reports menu in Financials.

Once the process has been completed the invoice will be ready to be paid on the due date.

Amend Order action

The **Amend the Order** action can be used, access the lines format to make the changes.

If the Header and Lines values do not match – the **Amend Order** action can be used.

The screenshot shows the 'PO Invoice (PO012162121/1982)' interface. The 'Actions' menu is open, and the 'Amend Order' option is highlighted with a red box. The interface includes a 'Cancel Changes' button and an 'Actions' dropdown menu with options: Save, Forward, Add Note, History, Receipt Order, and Amend Order. The main content area is divided into 'Invoice Details' and 'Summary' sections. The 'Invoice Details' section shows fields for Description, Supplier, Supplier Address, Currency, Invoice Number, Our Reference, PO Number/Originator, and Old PO Number. The 'Summary' section shows fields for Net, Gross, Base, Invoice Date, Due Date, Received Date, Dispute Code, and Note.

Note: the line has been received the invoice price cannot be changed.

Lines										
Line	Item code	Description	Ordered	Received	Invoice Quantity	UOM	Unit Price	Net Amount		
1		Post it notes	20	0	20.0000	EA	20.00000	400.00		

Showing rows 1-1 of 1 Rows per page 10

Amend the price and **Submit Order Amendment**.

The screenshot shows the 'Amend Order : PO01216' interface. The 'Lines' tab is selected, and the 'Order Basket' section is visible. The 'Order Basket' section shows a table with columns: Quantity, Price, and Item Value. The table contains one row with the following values: Quantity: 20.0000, Price: 10.00000, Item Value: 200.00. The 'Status' is 'Outstanding'. The 'Order Total' is 200.00. The 'Submit Order Amendment' button is highlighted in blue.

The message will be retrieved. Your order may require authorisation.

Go back to the Invoice and use the **Amend Invoice** action.

The lines will have been updated.

The **Accept** button can then be selected.

Note: some invoices may have an order amendment and receipt discrepancy, after each amend go back to Amend the invoice until all actions are complete.
