Using Clear Review on Mobile Devices

Clear Review

Setting up Clear Review on mobile devices

Clear Review can be used on any mobile device. There is no app you need to download, it works through your mobile's browser, although it can be added to your device home screen just like an app. **Clear Review is mobile optimised to look and feel just like an app.**

We recommend that you ask your IT team to add the Clear Review URL, or your custom URL if you are a single sign-on customer, as an icon on the home screens of your employee's company mobiles.

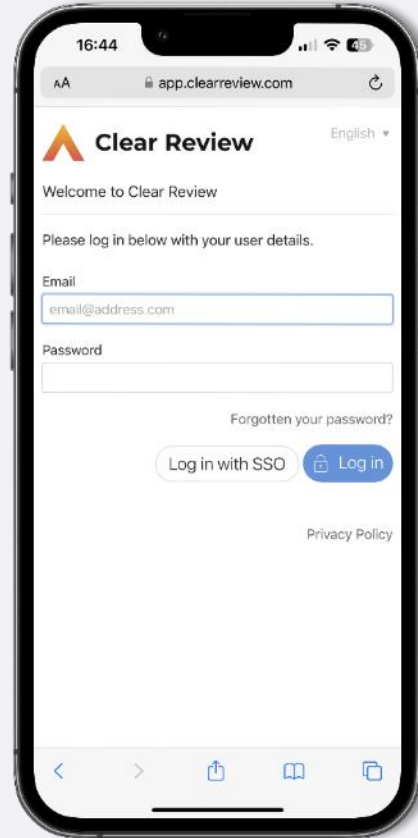

If it's not possible for your IT to add Clear Review to company mobiles centrally, or if your employees use their personal mobiles, the following slides contain instructions that you can provide to your employees explaining how to add Clear Review to their device's home screen

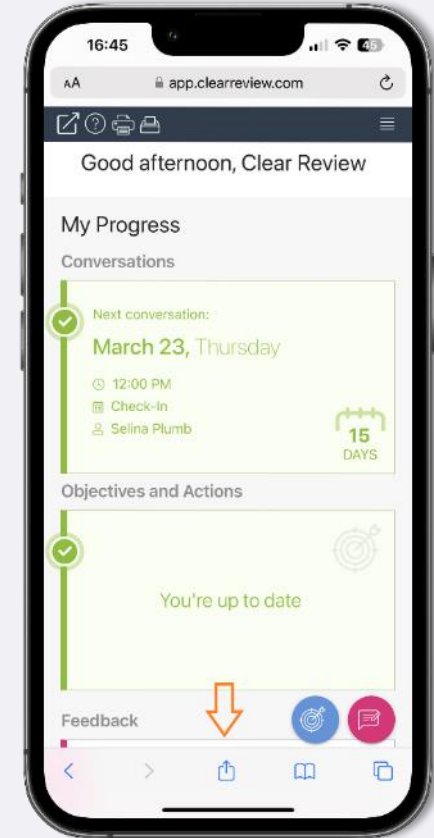

Apple Instructions

1. Navigate to and open your browser

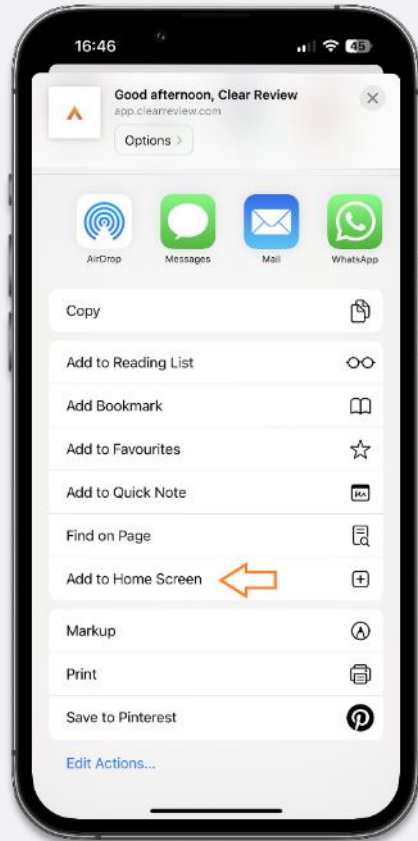

2. Go to app.clearreview.com, or custom URL if using single sign on, and log in

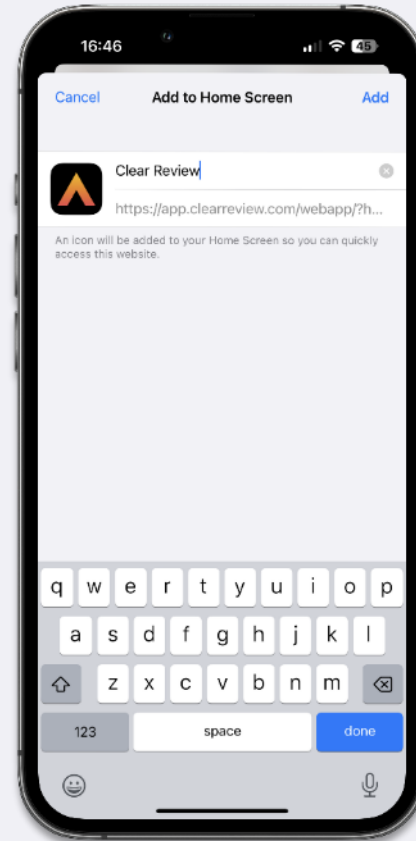

3. Click the 'share' icon at the bottom of the screen

Apple Instructions

4. Select 'Add to Home Screen'

5. Rename shortcut if necessary and press 'add'

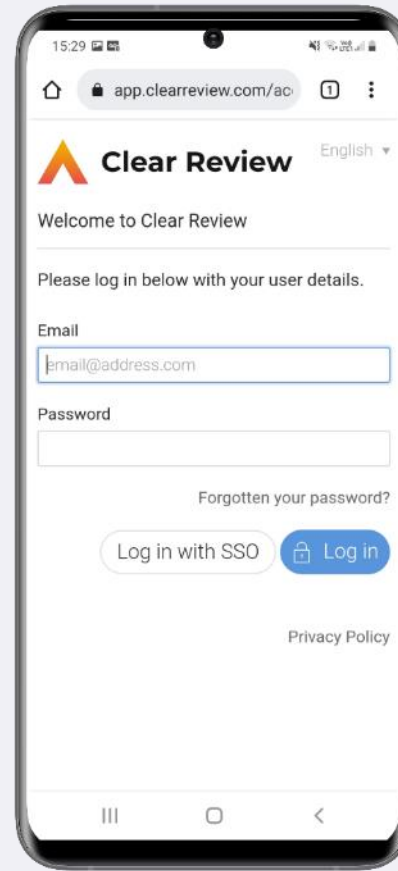

6. Your Clear Review shortcut will now appear on your home screen

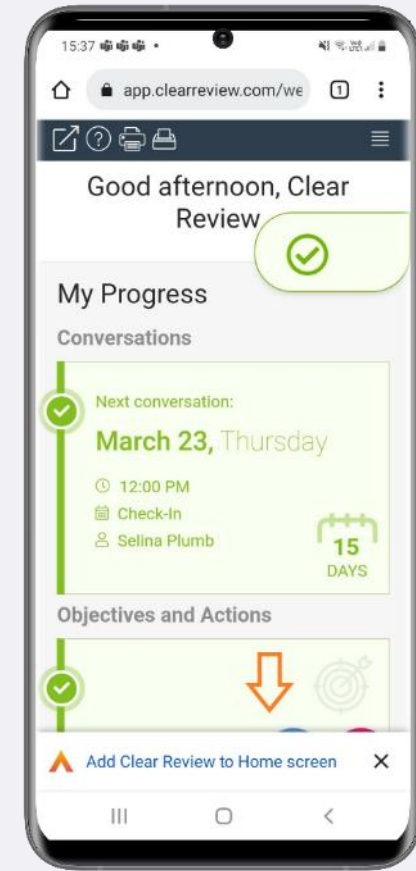

Android Instructions

1. Navigate to and open browser

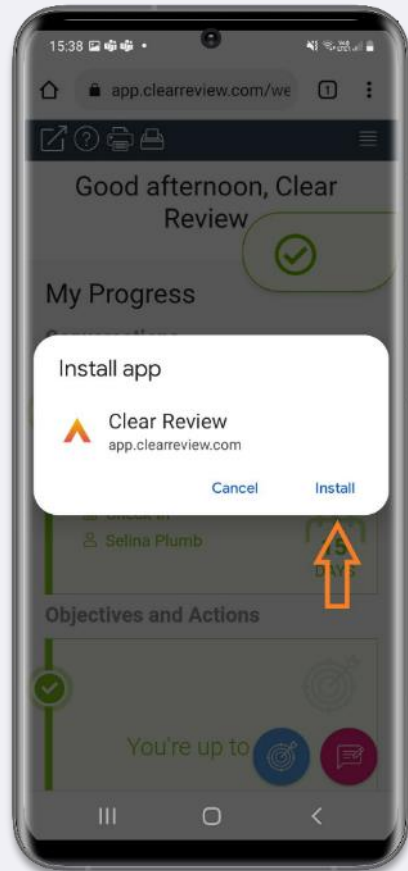

2. Go to app.clearreview.com, or custom URL if using single sign on, and log in

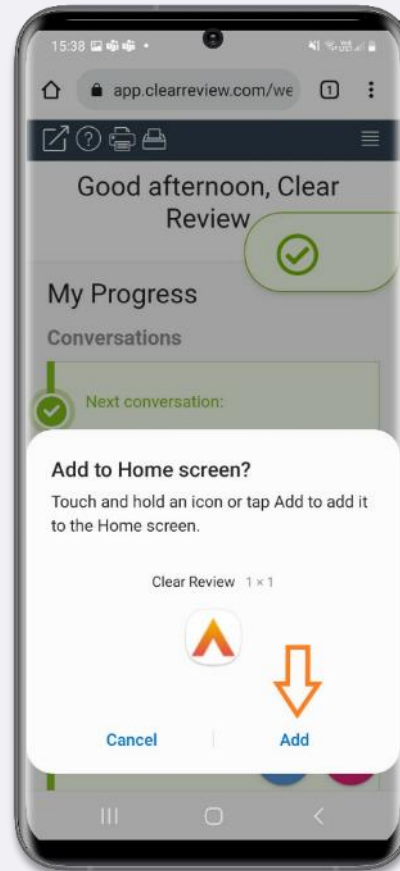

3. Click the pop up to add Clear Review to the home screen

Android Instructions

4. Select 'Install'

5. Select 'Add'

6. Your Clear Review shortcut will now appear on your home screen
