

EDUCATION GALAXY

Training Options

Live Webinar Trainings

Each month, Education Galaxy offers several live training webinars. Topics include getting started, special topics, and deep-dive data webinars. Click [here](#) to view details and register.

All webinars are in the Central Standard Time Zone. Even if you cannot attend the live session, register and we will send you a link to the recording afterward.

Getting Started Webinars

Learn how to get started with Education Galaxy and Liftoff while maximizing student achievement & recovering from learning loss. The training will provide an overview of our student and teacher experiences. You will also learn about the data displayed on the teacher dashboard, how to create classes, manage student settings, differentiate and assign custom assignments, pull reports to monitor student progress, and download implementation resources. Duration: 60 minutes

To register, click on the type of getting started training you are interested in:

Deep Data Dive Webinars

Join us to take a deep dive into the reports for Education Galaxy and Liftoff. We will suggest ways to purposefully use the data to plan instruction, group students, and create differentiated assignments. This will help teachers get the most out of our program and maximize student growth and achievement. Click [here](#) to register. Duration: 60 minutes

Special Topic Webinars

These webinars will focus on combining instructional strategies with the features available in Education Galaxy and/or Liftoff. Seasonal presentations will cover relevant topics throughout the school year. Click [here](#) and select the “Live Special Topic Webinars” tab to register. Duration: 30 minutes

Recorded Trainings Available On-Demand

Education Galaxy offers a library of pre-recorded training and special topic webinars. Click [here](#) and select the “Recorded Webinars” tab to view the library and watch the recorded sessions of your choice.

Self-Paced Certification Courses

These courses offer educators the flexibility to learn independently and understand the full range of features available within the Education Galaxy and Liftoff platforms. The courses contain on-demand training videos and a knowledge check to earn a personalized PD certificate and certified teacher badges. Click [here](#) to view details and get started! Duration: less than 90 minutes.

Help Center

Click [here](#) to access helpful articles and step-by-step instructions for all of the features within our platform. Use the search tool to find the exact topic that you need help with.

The Help Center is also easily accessible from our new Ask Rob feature located in the bottom right corner of your teacher or admin account
