WELCOME TO PROGRESS LEARNING
## Information for Parents/Guardians

Greetings! Your child uses the valuable online tool, Progress Learning by USATestprep, at school. They are also able to use this website outside of school from any computer with an internet connection. Progress Learning is fun, easy to use, and provides many features that will help your child succeed. Throughout the year, they will be able to access a variety of tests, practice questions, games, and many other activities designed to keep your child actively learning.

To help your student with this resource:

- Go to **www.usatestprep.com/member-login** (or your child can log in through Clever or Classlink if your school integrates with those services)
- Log in to the site using the school's Account ID and your child's username and password
  - If you have questions about log-in information, please contact your child's school
  - Go to the student account section and add your email address to receive weekly progress reports from USATestprep.

Look for any Assignments from your child's teacher (weekly assignments appear on the student homepage or find all of your student's assignments by clicking on the Assignments menu option on the left side of the page)

Students can monitor their progress by clicking on Practice on the left side of the page and choosing a subject area. USATestprep's color-coded Dot Rank system will indicate strengths and areas for improvement by standard.

If you have questions about using the platform, view the Help Center available in the HELP menu at the top of any page.
