Introduction

Purpose of this document

This document informs BCE users' how to revalue their stock item unit prices providing illustrated worked examples for each of the revalue options.

Stock Revaluation Options

When changing the material cost of a stock item, BCE will prompt the user to take one of the following actions:

Costs Changed

One or more of the costs for this stock item have changed. Would you like to automatically revalue stock items that use this item, mark them to be revalued, do nothing to them or cancel submission?

REVALUE **MARK** **DO NOTHING** or **CANCEL**

For stock items, each of the cost change actions are summarised as follows:

Revalue

Creates transactions of type StockLoss or StockGain depending on whether the material cost value is decreased or increased

Creates transactions of type PurchaseReceipt for goods not yet received

For manufactured stock items, their components having X StockItem with new calculated costs.

Mark

Creates transactions of type StockLoss or StockGain depending on whether the material cost value is decreased or increased

Creates transactions of type PurchaseReceipt for goods not yet received

Set components having X StockItem with flag - *to_be_revalued* to true and does not change any costs.

Do Nothing

Updates the stock items material cost and does nothing to components where this stock is used

Cancel

Closes the 'Costs Changed' dialog box and no action is taken

Example Setup

The manufactured stock items are made up of the following components:

Stock	Type	Components	Material Cost	Total Cost
Tyre	Component Stock Item		10.00	
Rim	Component Stock Item		5.00	
Screw	Component Stock Item		2.00	
Board	Component Stock Item		20.00	
Wheel	Manufactured	1 Tyre 1 Rim 4 Screws		23.00
Skateboard	Manufactured	4 Wheels 1 Board		112.00

Purchase the following stock item components:

Stock	Material Cost	Quantity	Total
Tire	10.00	5	50.00
Rim	5.00	5	25.00
Screw	2.00	20	40.00
Board	20.00	5	100.00

Manufacture the following stock items by creating and completing the following works orders:

Stock	QTY
Wheel	4

Stock	QTY
Skateboard	1

Following the manufacturing process the stock levels will be as follows:

<input type="checkbox"/>	Tire	Tire	1.0	1.0	1.0	Stock Item	0.00	N	
<input type="checkbox"/>	Rim	Rim	1.0	1.0	1.0	Stock Item	0.00	N	
<input type="checkbox"/>	Screw	Screw	4.0	4.0	4.0	Stock Item	0.00	N	
<input type="checkbox"/>	Wheels	Wheels	0.0	0.0	0.0	Stock Item	0.00	N

In summary, 'DO NOTHING' performs the following actions:

- Updates the cost value of the component, creating a transaction for the stock loss or gain

- Does not update the material cost of any existing manufactured items using the revalued component

- For manufactured items using the revalued component, the component cost is updated so newly manufactured items will now use the new component material cost

Mark

Edit stock item 'Screw' and change the material cost from £4.00 to £5.50.

Click on 'UPDATE' and select 'MARK' from the 'Costs Changed' popup. This creates a material stock gain for the component increasing the overall stock value by £6.00 (Qty of 4 * £1.50)

In summary, 'MARK' performs the following actions:

- Updates the cost value of the component, creating a transaction for the stock loss or gain

- Does not immediately update the material cost of any existing manufactured items using the revalued component

- For manufactured items using the revalued component, the component cost is updated so newly manufactured items will now use the new component material cost

- For manufactured items using the revalued component, sets the 'To Be Revalued?' tick box on the stock items 'General' tab. To update marked stock items, this option must now be used in conjunction with the 'Revalue All Manufacturing Items' process.

- Creates transactions of type PurchaseReceipt for any goods not yet received.

Revalue

After changing the material cost for a stock item, the option to 'Mark' a stock item to be revalued sets the 'To Be Revalued?' tick box on the stock items 'General' tab. This then depends on the process 'Revalue All Manufactured Items' to be run to commit the changes to the manufactured items

As an alternative option, 'Revalue' will commit the changes immediately, removing the needs to mark items for update.

Click on 'UPDATE' and select 'REVALUE' from the 'Costs Changed' popup. This creates a material stock gain for the component increasing the overall stock value by £6.00 (Qty of 4 * £1.50) and increases the manufactured value:
