Establish connection between scanner and ready2order

- 1. switch on the barcode scanner
- 2. go to the settings of your iOS device
- 3. click on Bluetooth
- 4. make sure that the barcode scanner is not yet connected to the device!
- 5. switch Bluetooth off

6. scan the following barcode (you will hear a funny beep). The barcode scanner turns off after scanning.

Factory Defaults	
Factory Reset Configures the CHS to revert all settings to factory defaults. The CHS will power off after scanning this barcode.	#FNB00F0#

7. switch the barcode scanner on again

8. now scan this barcode (you will hear a normal beep)

iOS Mode	
Changes a CHS 7Ci to iOS mode.	#FNB00F40002#
Required for Apple iOS applications developed with SocketScan 10 SDK.	

9. switch the barcode scanner off

10. switch the barcode scanner on

11. activate Bluetooth in your iOS settings: Make sure that you do not see "Socket CHS 7682FF", if this is the case click on the i and ignore the device

- 12. The barcode scanner should appear as socket "Socket CHS 7682FF"
- 13. Select it and an automatic connection should be established
- 14. Restart the ready2order POS app
- 15. Now you can scan!

Note: You cannot scan the barcodes directly from the screen, you must first print them out and scan them from the paper!
