Revision History

Version	Description	Date	By
1.0	On Release	27/7/21	AD

DRS 6.0.0.1 Summary

Release 6.0.0.1 includes a number of important changes since 6.0.0.0.

Purpose of this Document

This document is a detail of the functional changes made to DRS 5 since Release 6.0.0.0. It is intended for use by Advanced staff and our Version 6 Customers who require this detailed level of information when they are upgrading to 6.0.0.1.

Summary

This document describes the functional changes made to DRS since Release 6.0.0.0. The 6.0.0.1 additional changes with their associated JIRA Numbers, where relevant, cover:-

Program	JIRA
DRS On Demand Client and DRS Business Layer	DRS-4866 DRS-4942 DRS-4790 DRS-4869 DRS-4946 DRS-4535 DRS-3965 DRS-4885 DRS-4879 DRS-4797 DRS-4884 DRS-4653 DRS-4992 DRS-4877 DRS-4978 DRS-4820 DRS-4907 DRS-4906 DRS-4874 DRS-4774 DRS-4890 DRS-4847 DRS-4954 DRS-4794 DRS-4892 DRS-4894 DRS-5005
Background Services	DRS-4124
Connector Services	DRS-4952 DRS-4798 DRS-4930 DRS-4795 DRS-4927 DRS-5075 DRS-4957 DRS-3966

	DRS-4880 DRS-4951 DRS-4968
Project Planner	DRS-4977

DRS On Demand Client and DRS Business Layer

When modifying a Worker Ability we should see Ability name and not Ability ID in popup (DRS-4866)

Abilities were previously showing the ID value and not the name in selectable dropdowns. This has been changed to show the Name value of the ability.

When you add all columns to the Bookmark, you get an error when adding 'Display Type' (DRS-4942)

All columns can now be added to the Bookmark screen.

We should use customised vocabulary in element selection (DRS-4790)

All vocabulary elements were not being considered when customised attributes were configured. This has now been resolved.

When creating a recurrent job template, bad symbol for deleting values of an Ability (DRS-4869)

An update has been made to the icon to remove an ability for a recurring job template. This has now been resolved.

In business data of type Date Type - Today default and fixed default doesn't work (DRS-4946)

Date type Business Data Objects were not populating correct defaults on their creations. This has been resolved.

Readable Dates in DRS - Bug? (DRS-4535)

Dates are now shown using a common format on all screens.

The creation of a close list with no values (DRS-3965)

DRS will now require you to add a value to any closed list created before it is saved.

Should order the jobs in Cart (Diary/bookmarks) with something else (DRS-4885)

Jobs in the Bookmark pull-out drawer on the diary will be ordered by Bookmark creation date

After having drag and dropped a job from cart to diary it should be removed from diary (DRS-4879)

Jobs were not being removed from the bookmark list when dragged onto a diary. This has now been resolved.

Can't open a Diary for more than one job from the job list (DRS-4797)

Multiple jobs can now be selected to be viewed from the Jobs List when selecting the Diary option

When Adding a bookmark from diary it should never be added in the bookmarks from diary (ex cart) as the job is planned (DRS-4884)

Only jobs which are at New or Suspended will now show in the pull-out Bookmark drawer on the diary

Modify Planning Shortcuts when not an Administrator (DRS-4653)

The ability to modify Bookmarks when not set as an administrator was lost as the Configuration options was locked out. This has now been resolved.

SMS to Contact should read SMS to Worker on the Worker tab (DRS-4992)

The button on the Worker tab to send a direct SMS will now read 'SMS to Worker'

Delete popup displayed under text message template without selecting any message template (DRS-4877)

The Confirm Delete popup will now only show if a Text Message Template is selected to be deleted.

Diary View from and To Hours don’t work properly in Gantt view (DRS-4978)

The Gannt Diary view wsa not displaying with the correct time settings. This has been resolved.

On Diary refresh (especially in Gantt view) keep the position (DRS-4820)

The Gannt view will now retain the selected position when the refresh button is used.

Gantt view - the first worker start day unavailability is too small (DRS-4907)

The Gantt Diary view has issues displaying the start of day unavailability. This has been resolved.

Gantt view - End of day unavailability's are not displayed (DRS-4906)

The Gantt Diary view has issues displaying the end of day unavailability. This has been resolved.

Hide unavailable days not working (DRS-4874)

The Hide Unavailable Days option on the diary was not hiding all unavailable days if the unavailability had an overlapping time window. This has been resolved.

'assignment' should not be spelt 'assignement' (DRS-4774)

The label for assignment was misspelt 'assignement'. This has now been resolved.

Strips too large in Diary when displaying multi workers in one week (DRS-4890)

The size of the left strips on the jobs have been set to be more reactive based on the number of workers visible

The 'Update Comments' button should not appear if no Customer comments (DRS-4847)

The Update Comments button was showing on the Customer tab when no options for Customer Comments were available. This has now been resolved.

Editing after selecting Map results in Error (DRS-4954)

There was an issue when selecting other options from within the Map Menu after closing the Map. This has now been resolved and all options are available for selection.

Worker title is not red in some case (DRS-4794)

When a full day unavailability is due to a Personal Unavailability rather than a Working Hours unavailability, the Worker Title will now show in RED

In Diary - Strips text can be outside of strip area (DRS-4892)

When adding text to the left strips, the text was not responsive to the size of the strip and would occasionally be bigger than the strip. This has been resolved.

Diary Strips In Gantt Mode don't take care of temporary abilities (DRS-4894)

When using Gantt mode, left and right strips were not showing correctly with temporary configurations. This has now been resolved.

Add now() as an option on time filtering (DRS-5005)

You can filter for things today by entering d+0 into the date field option.

Background Service

Background Service missing parameters (DRS-4124)

Some parameters were missed on upgrading to 6.0.0.0 for the Background Service. These have now been checked and included.

Connector Services

Error on HASFOLLOWONJOBS column when importing a full csv job export (DRS-4952)

Job Imports were failing when a value was contained within the HASFOLLOWONSJOBS field was populated. This was due to a datatype mismatch. This has now been resolved.

When creating a Diary Bookmark - selected planning view is not the currently used one (DRS-4798)

Selected Planning View will now be the default offered option when saving a diary bookmark.

Best Slot List Issue (DRS-4930)

Some options were duplicated in the Best Slot By Multicriteria list. This has now been resolved.

Changing template doesn't update the Information tab with new information (DRS-4795)

The Information popup was not displaying correctly when Diary configuration was changed. This has now been resolved.

Internal Error is recieved if you select SEND from the menu button (DRS-4927)

The Send function on the menu screen now displays an appropriate message.

Saving a second diary configuration does not save as default (DRS-5075)

There was an issue when updating the default on the planning configuration where the column opt_pc_default_config in table opt_planning_configuration was not being updated to reflect the new default PC. The add and update now both work correctly when setting a new default PC.

We can create an unavailability with a duration of 0 (DRS-4957)

Unavailabilities now require a minimum duation of 1 minute

Ability default value behavior (DRS-3966)

When a Default Value is added to an ability of Business Data item, the possible values will be checked and the value added if it is not included.

Start hour of a drag and dropped job from bookmark to diary is not set as it should be (DRS-4880)

When dragging a job onto the diary from the Bookmark list the assignment start was not set correctly. This has been resolved

Editing a saved Follow On Template doesnt commit (DRS-4951)

When editing existing Follow On templates, changes will now commit as expected

Worker - can t use sector outside of its agency sectors (DRS-4968)

When using the checkbox to allow workers to use Sectors outside of their agency, the permission was not being respected. This has now been resolved.

Project Planner

Address filtering issue on some views (DRS-4977)

Project Planner was not correctly referencing Address details within some views and filter options. This has now been resolved.

Release 6.0.0.1 List of Components

Function	Version
DRS Server (Kernel)	6.3R1.9
Background Service	6.0.0.1
Connector Services	6.0.0.1
Inbound Connector	6.0.0.1
Mobile Gateway	6.0.0.1
Project Planner	6.0.0.1
Utility Service	6.0.0.1
DRS Web Services Gateway	6.0.0.1
Archive/Housekeeping	6.0.0.1
UK Geocoding Postcode Database	02/2021

External Component Versions

Description	Version
Tomcat	9.0.16.0
Tomcat Native	1.2.21.0
Java	Corretto 8.222.10.3
MariaDB	10.3.20.0
php	7.3.3.0
Apache	2.4.38.0
.Net	4.7
SoapUI	5.5.0
