

sphero®
indi™
 Guide de programmation
 pour les débutants

Fais tes premiers pas en STEAM avec indi : le robot d'apprentissage pour enfants le plus instinctif et simple d'utilisation.

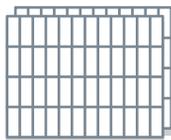

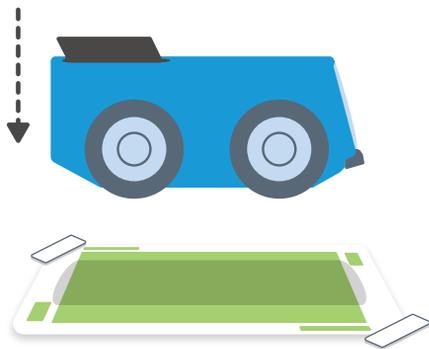

Grâce au capteur de couleur intégré et aux cartes colorées, indi offre une foule de possibilités et stimule la créativité des enfants.

Avec indi, apprends de manière ludique, variée et concrète, tout en développant ton imagination. Crée des labyrinthes personnalisés, résous des casse-têtes et contrôle le volant. Télécharge l'application gratuite Sphero Edu Jr pour aller plus loin et découvrir d'autres options intéressantes.

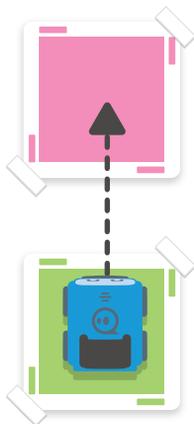

Boucle ta ceinture et embarque avec indi !

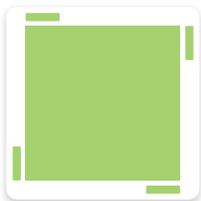

Tu peux utiliser l'adhésif blanc pour maintenir les cartes colorées au sol.

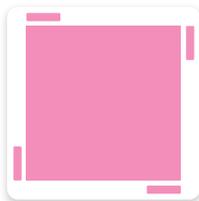

Orienté indi dans le sens de sa destination.

Tourner
à gauche à 90°

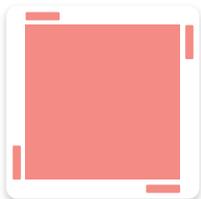

Jaune 

Ralentir

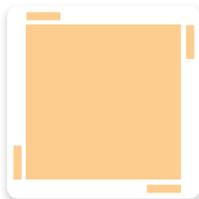

Bleu 

Tourner
à droite à 90°

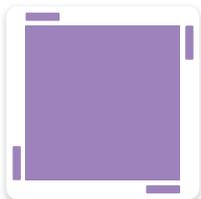

Rouge 

Arrêter

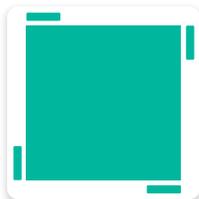

Orange 

Tourner
à gauche à 45°

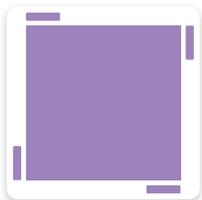

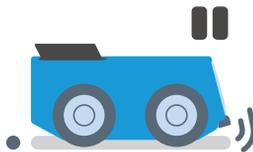

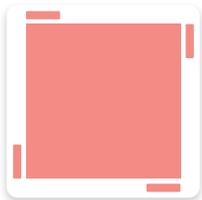

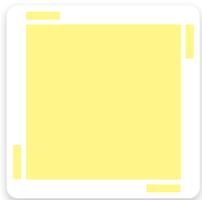

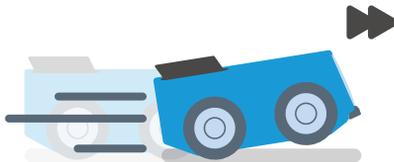

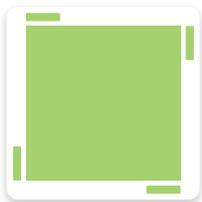

Violet 

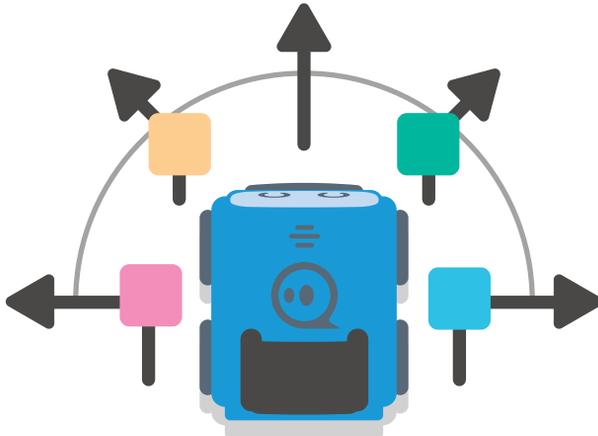

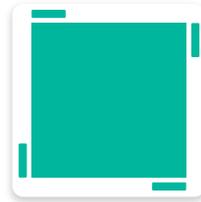

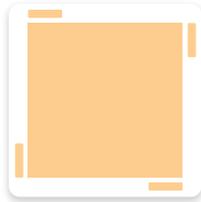

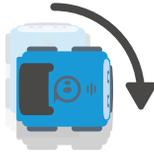

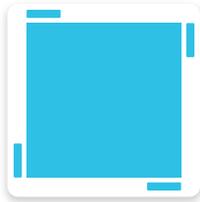

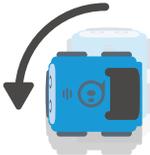

Arrivée

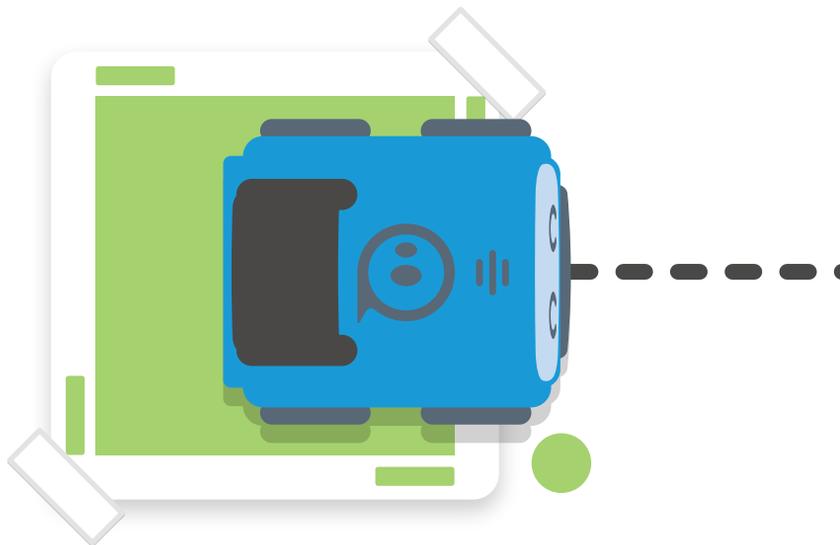

Vert foncé 

Tourner
à droite à 45°

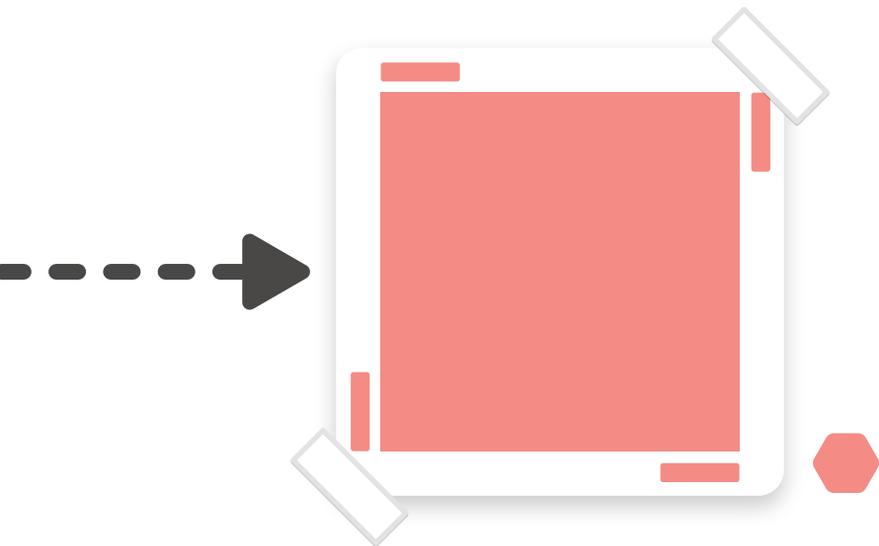

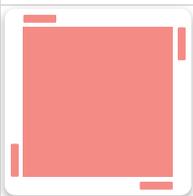

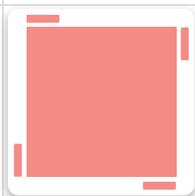

Commence par placer les
cartes proches les unes des autres,
le temps de comprendre comment
fonctionne indi.

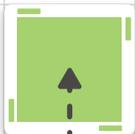

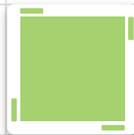

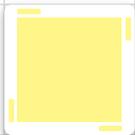

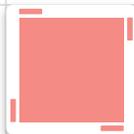

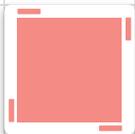

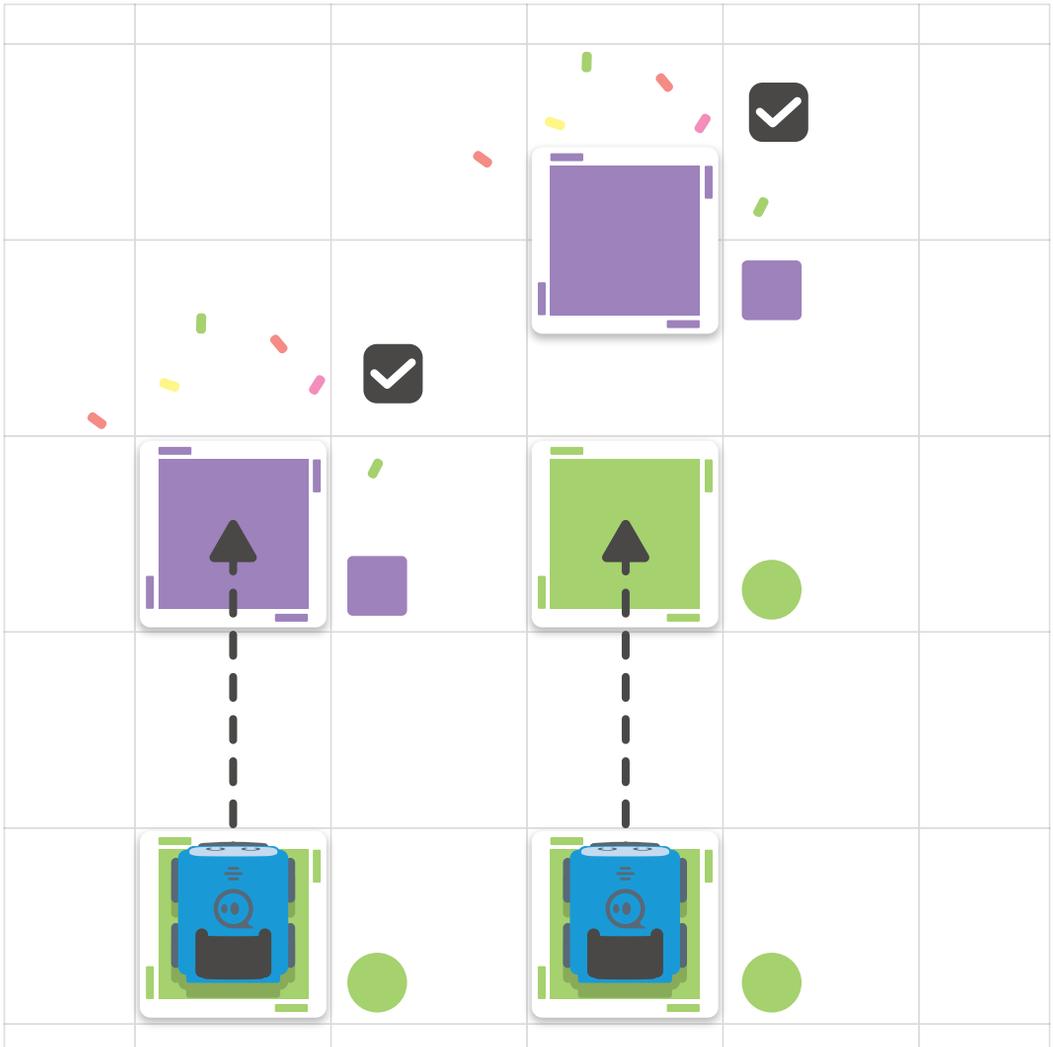

indi s'arrête s'il ne
rencontre aucune carte après
avoir parcouru 1 mètre.

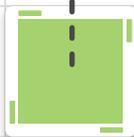

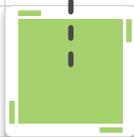

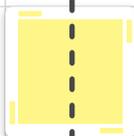

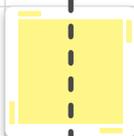

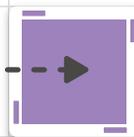

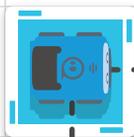

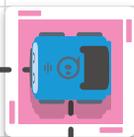

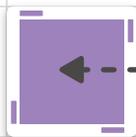

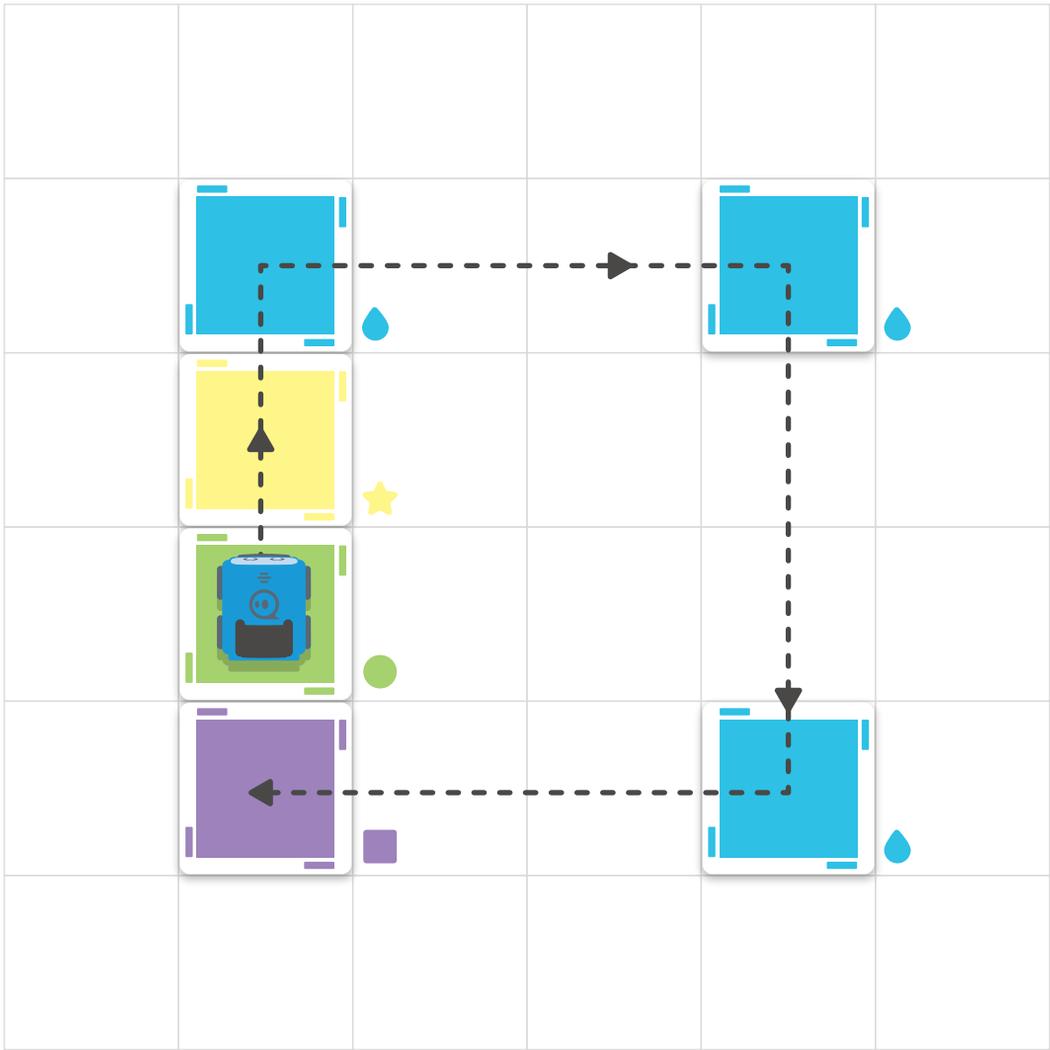

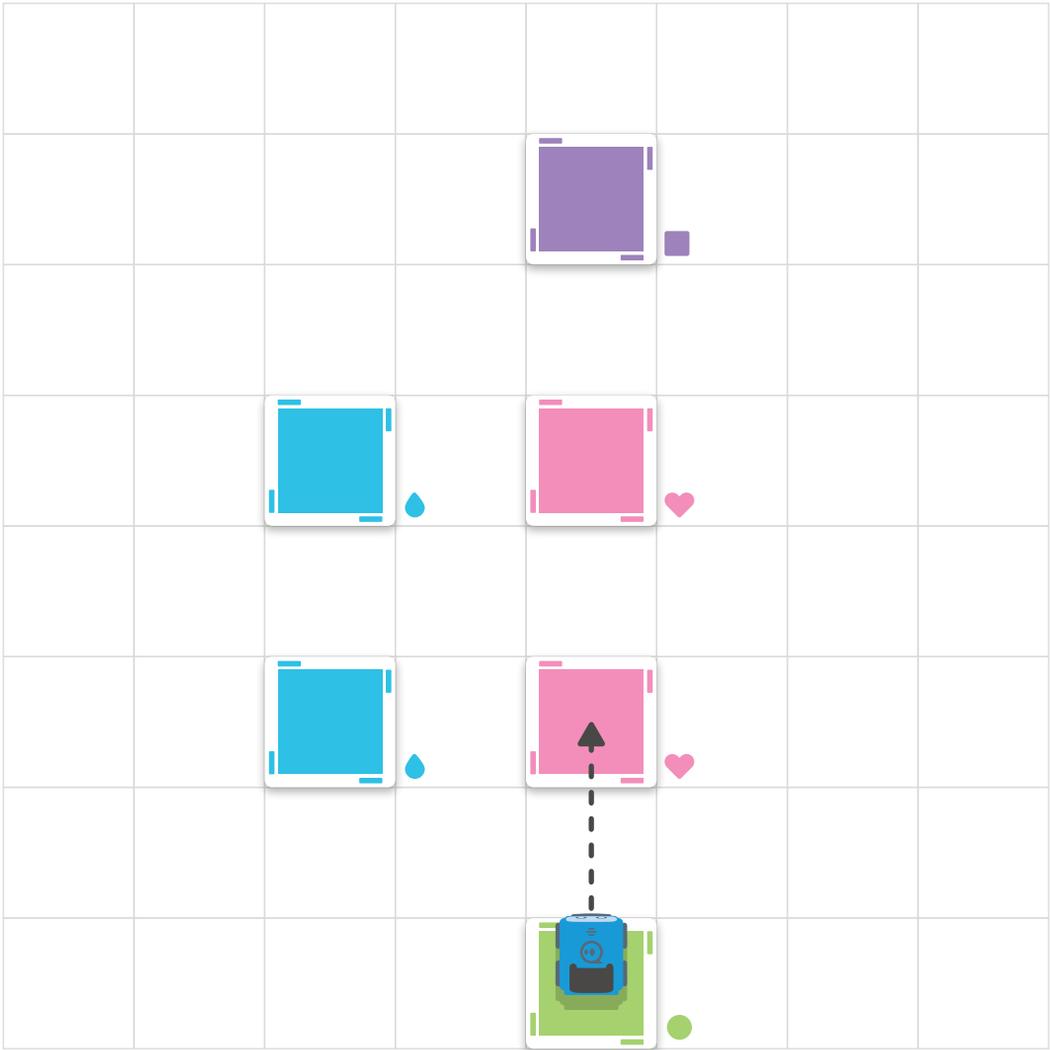

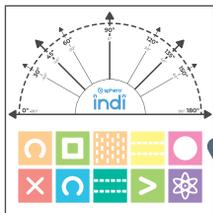

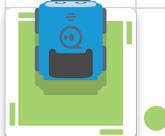

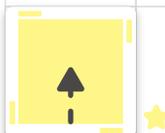

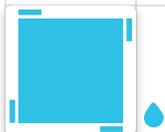

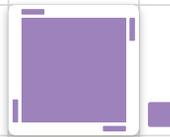

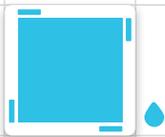

indi tourne mieux s'il
ne roule pas trop vite.

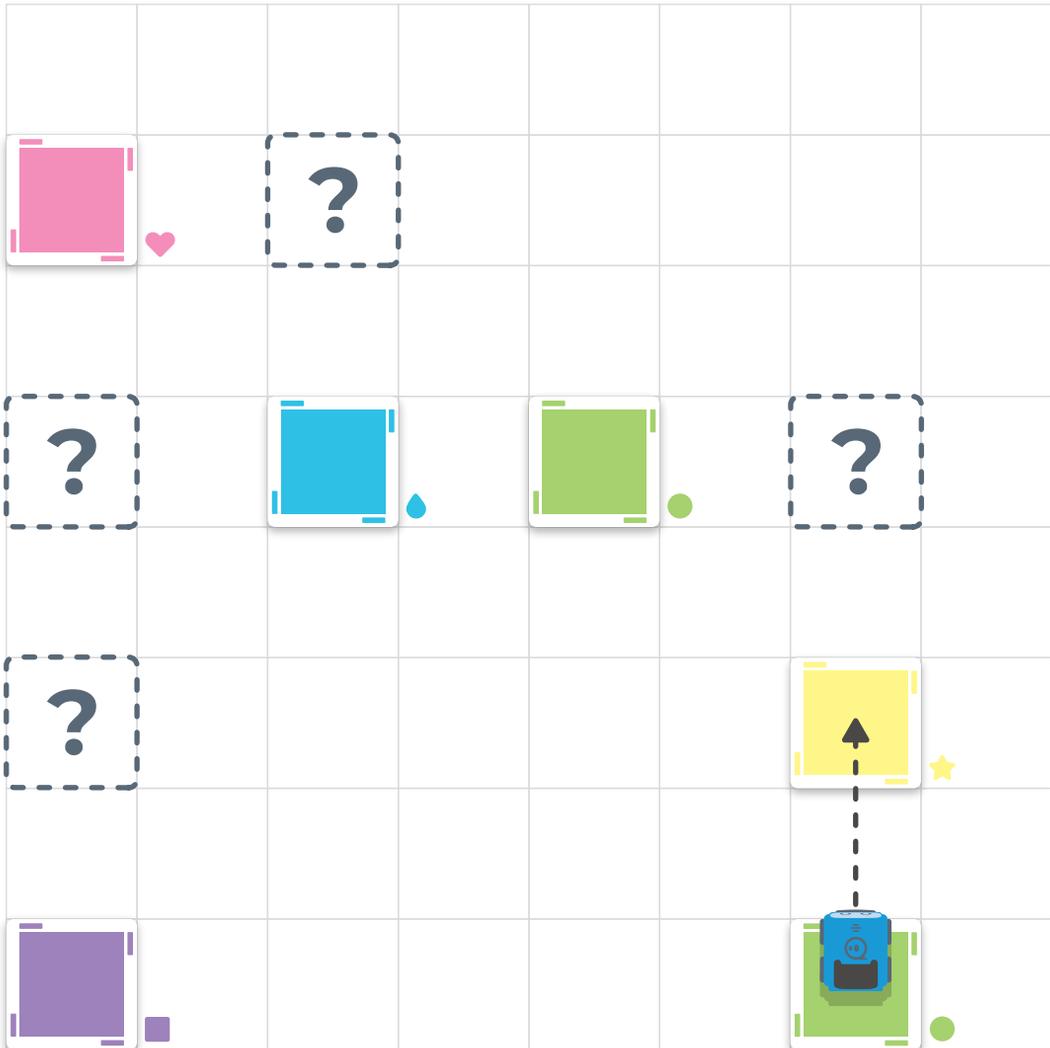

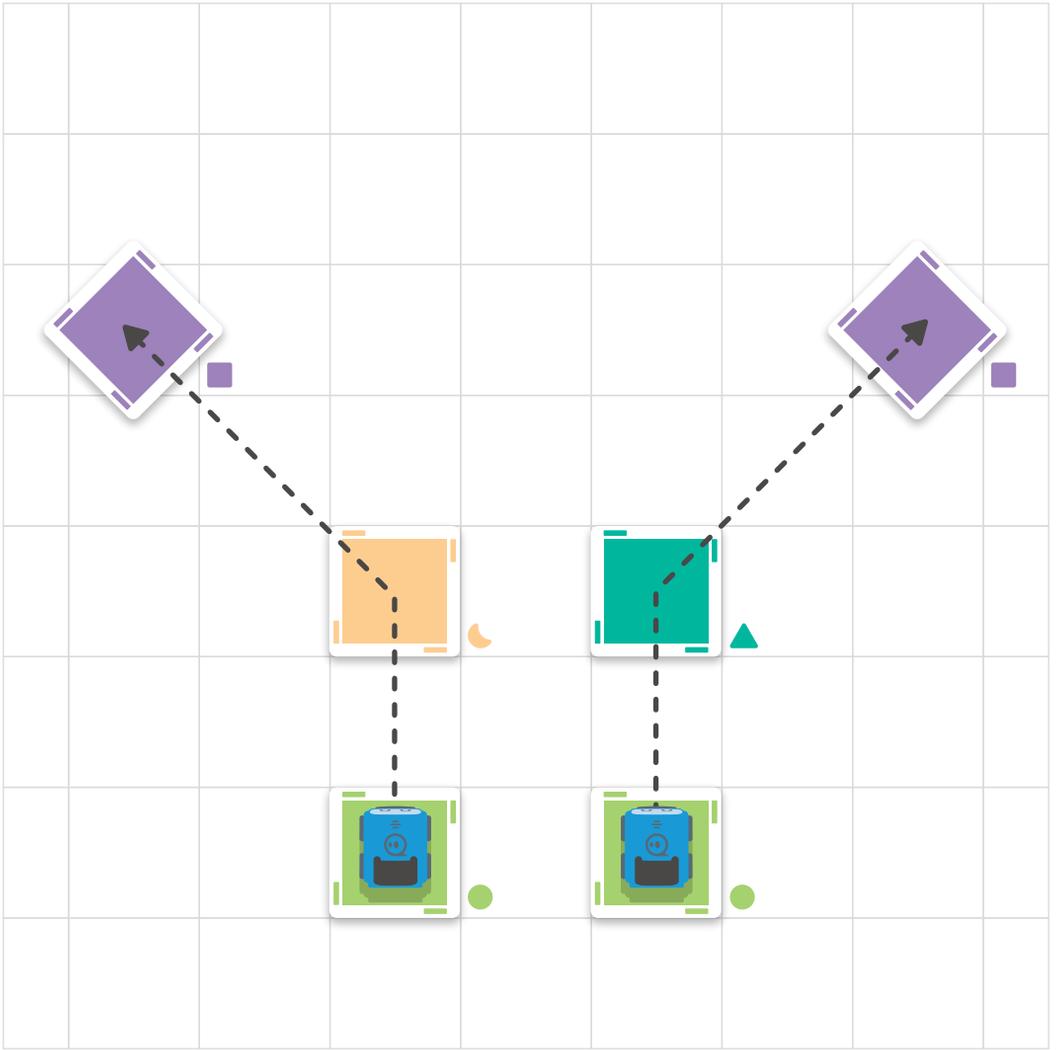

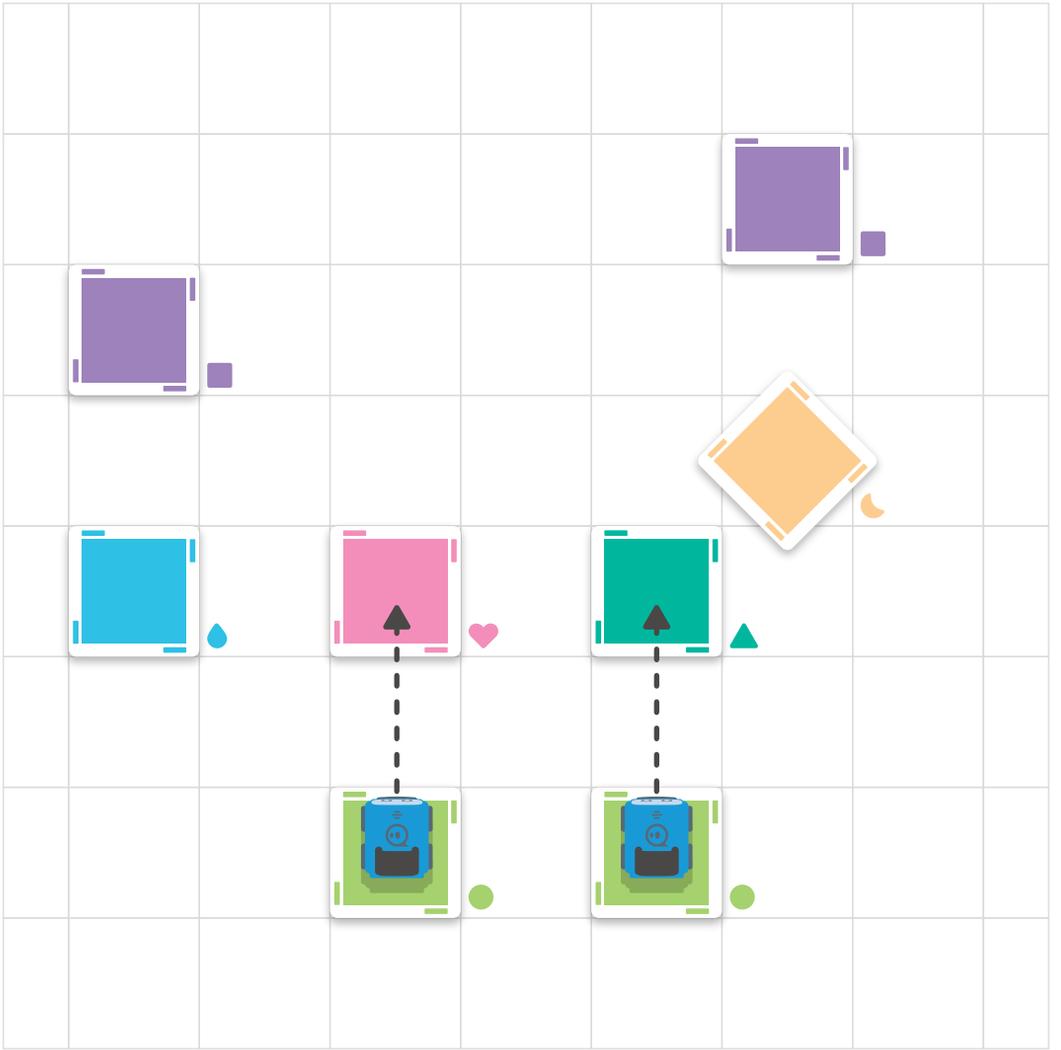

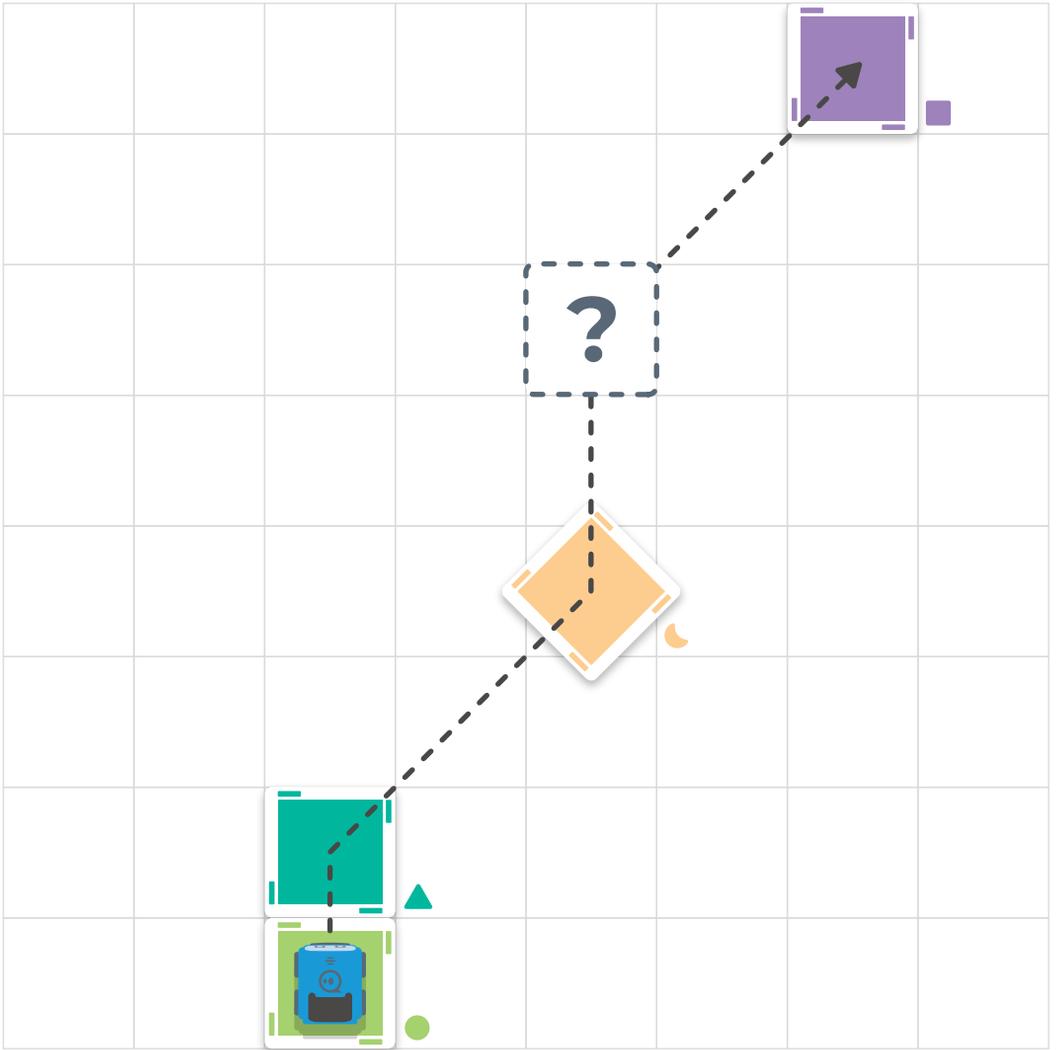

Tu ne sais pas où placer ta carte ? Utilise le rapporteur fourni au dos de ce guide.

indi s'éteint après cinq minutes d'inactivité.
