LINEARB

» WorkerB Development Pipeline Acceleration

WorkerB decreases your team's Cycle Time by using real-time notifications to optimize team workflows. In more plain terms, WorkerB is automation that saves time, improves code quality and centralizes Git updates in Slack or MS Teams.

3 Popular WorkerB Uses

WorkerB APP 8:37 PM

Miki approved your pull request
pm-rest/Linb 1697 iteration timestamp
Pull Request is open for 5 minutes.

Run `/lb pref` to customize your personal notifications from LinearB
