Peppol The future is open | Access Point

WHY HUBBROKER

No re-keying, checked first

No re-keying

Orders arrive in Business Central automatically.

Checked first

Partner data mapped and validated first.

One place

Partners, channels and documents set up once.

Ready to grow

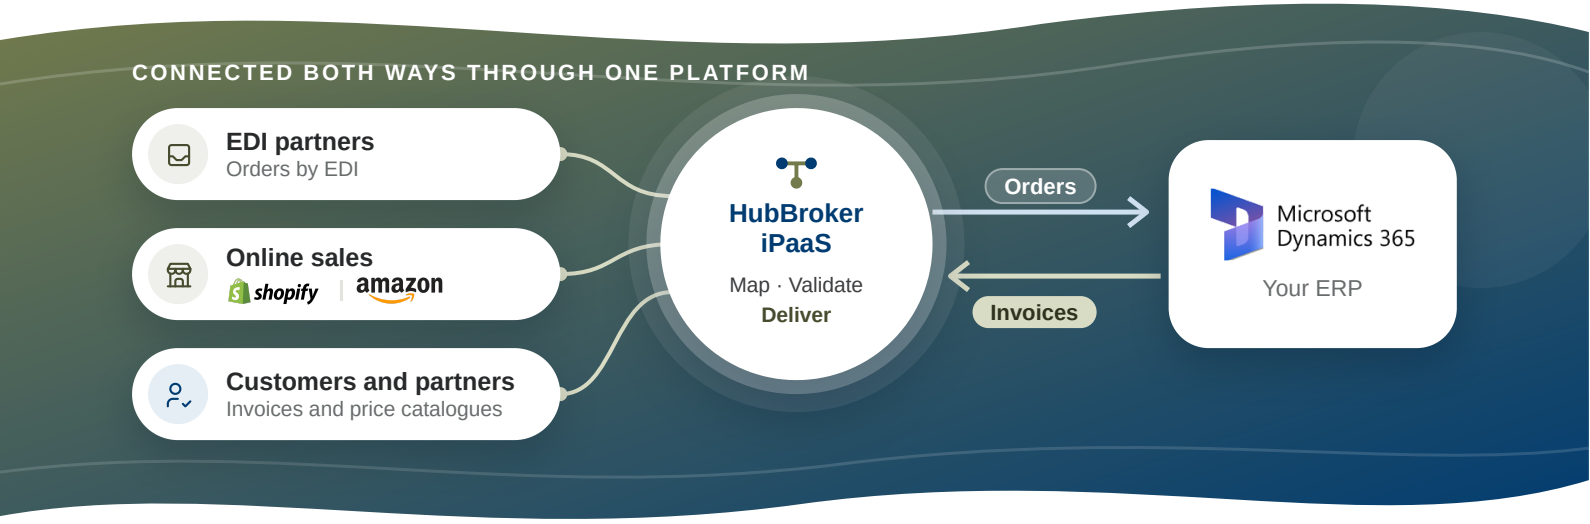

Add partners, channels and document types.

15+	100+	40+	120K+
Years of experience	Clients	Countries	Transactions per month

HOW IT WORKS

Your integration, always at work

Business Central stays your system of record.

KEY FLOWS

What HubBroker does for you

INBOUND Into Business Central

Order import
EDI and webshop orders become sales orders.

Customers matched
By identifiers agreed with you.

Validated first
Required fields checked before the order is created.

OUTBOUND From Business Central

Invoice and credit note export
Order and invoice references kept intact.

Price catalogue export
All product details, in each partner's format.

Tailored solutions
Stock by SKU and shipment details, on request.

Know what happened, and why

E-mail notifications for every adaptor

- Order received
- Invoice delivered
- Item number missing
- Customer blocked

STANDARDS AND SYSTEMS

Built for the formats you use

Built on Microsoft standards

Microsoft REST APIs · Custom API pages · Microsoft Entra ID · OAuth 2.0

Gateways, both ways

E-mail · SFTP · FTP · API · AS2 · Peppol

Need another flow? Tailored solutions are scoped with you on HubBroker iPaaS.

GETTING STARTED

From connection to go-live

1. **Review** — The flows you need.
2. **Set up** — Adaptors and gateways.
3. **Map** — Where required.
4. **Test** — On HubBroker iPaaS.
5. **Go live** — Monitored, with support.

SUBSCRIPTION Quoted for your scope: adaptors, document volume, channels, partners and support tier.
