HUBBROKER

PRODUCT SHEET

e-conomic Integration

HubBroker connects e-conomic with your customers, webshops, trading partners and e-invoicing networks.

e-conomic

ISO 27001 certified | GDPR compliant | Peppol The future is open | Access Point

WHY HUBBROKER

Less typing, fewer errors

API-based integration
Connects directly through the e-conomic API.

Synchronised financial data
Orders, invoices and prices move on your schedule.

Customisable rules
Default settings or custom settings per partner.

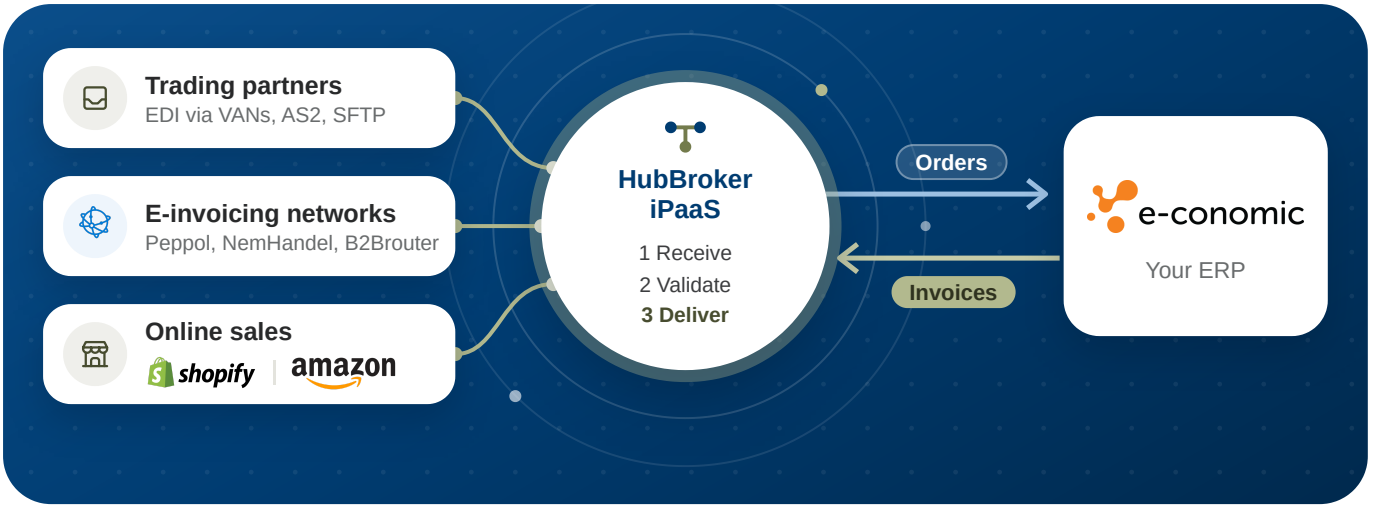

Partners activated fast
Switch on all customers or only those you choose.

15+	100+	40+	120K+
Years of experience	Clients	Countries	Transactions per month

HOW IT WORKS

Your integration, always at work

One platform between your trading partners and e-conomic.

KEY FLOWS

What HubBroker does for you

INBOUND Into e-conomic

Import customer orders
Partner orders become e-conomic orders.

Shopify and Amazon orders
Webshop and marketplace orders imported by API.

Matched by your rules
Customers, products and addresses matched by your rules.

OUTBOUND From e-conomic

Export customer invoices
In each partner's format and channel.

Automatic invoice reminder
Three levels, R1 to R3, for overdue invoices.

Export price catalogue
Prices from each customer's own price list.

Know what happened, and why

E-mail notifications for every adaptor

- Order imported
- Invoice delivered
- Item number not found
- Customer blocked

STANDARDS AND SYSTEMS

Built for the formats you use

Document formats

OIOUBL · Peppol BIS 3.0 · EDIFACT · IDoc · Others on request

Networks and channels
