

Problem

Data silos make it hard for go-to-market teams to work towards the same objective.

Without knowing what works it's impossible to scale revenue and spend efficiently.

Business Problems

Not growing
at the rate we want

Not converting
enough demand into sales opportunities

Not delivering
enough quality in our lead generation

Wasting money
in our go-to-market

Overspending
on acquiring new customers

Not getting the insights
needed to optimise our activities

No more reliance on RevOps. Become a revenue marketer with Dreamdata.

- Cut spend on campaigns that don't influence pipeline
- Automate ad spend on LinkedIn and Google towards revenue

PERFORMANCE MARKETING

- Identify which types of content that help close deals.
- Track which landing pages and campaigns that lead to initial conversion

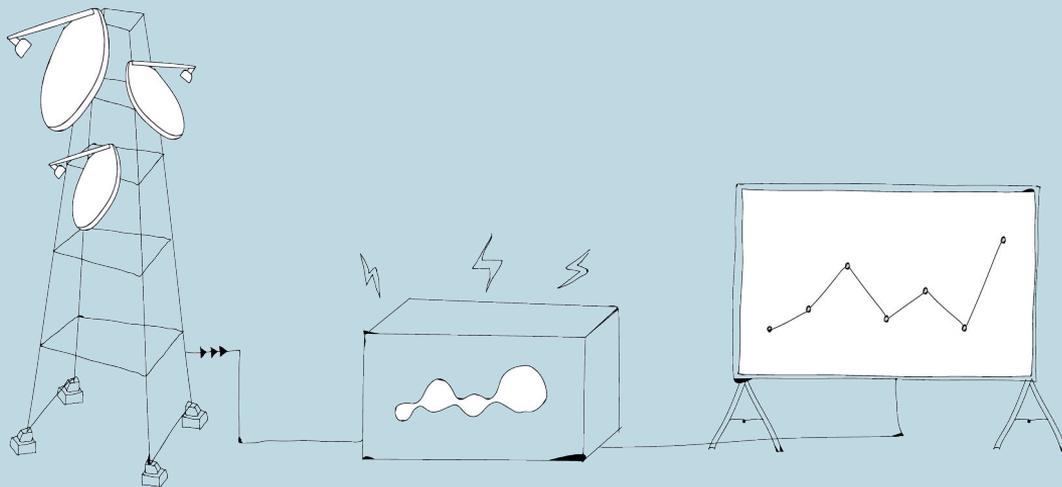

CONTENT MARKETING

- Compare ROI across offline and digital channels and measure impact of physical events
- Gain visibility of bottom of funnel impact and influence

FIELD MARKETING

- Identify cross channel behaviour and bring high intent accounts to your sales team
- Scale activities that contribute to sales closing deals

SALES & MARKETING ALIGNMENT

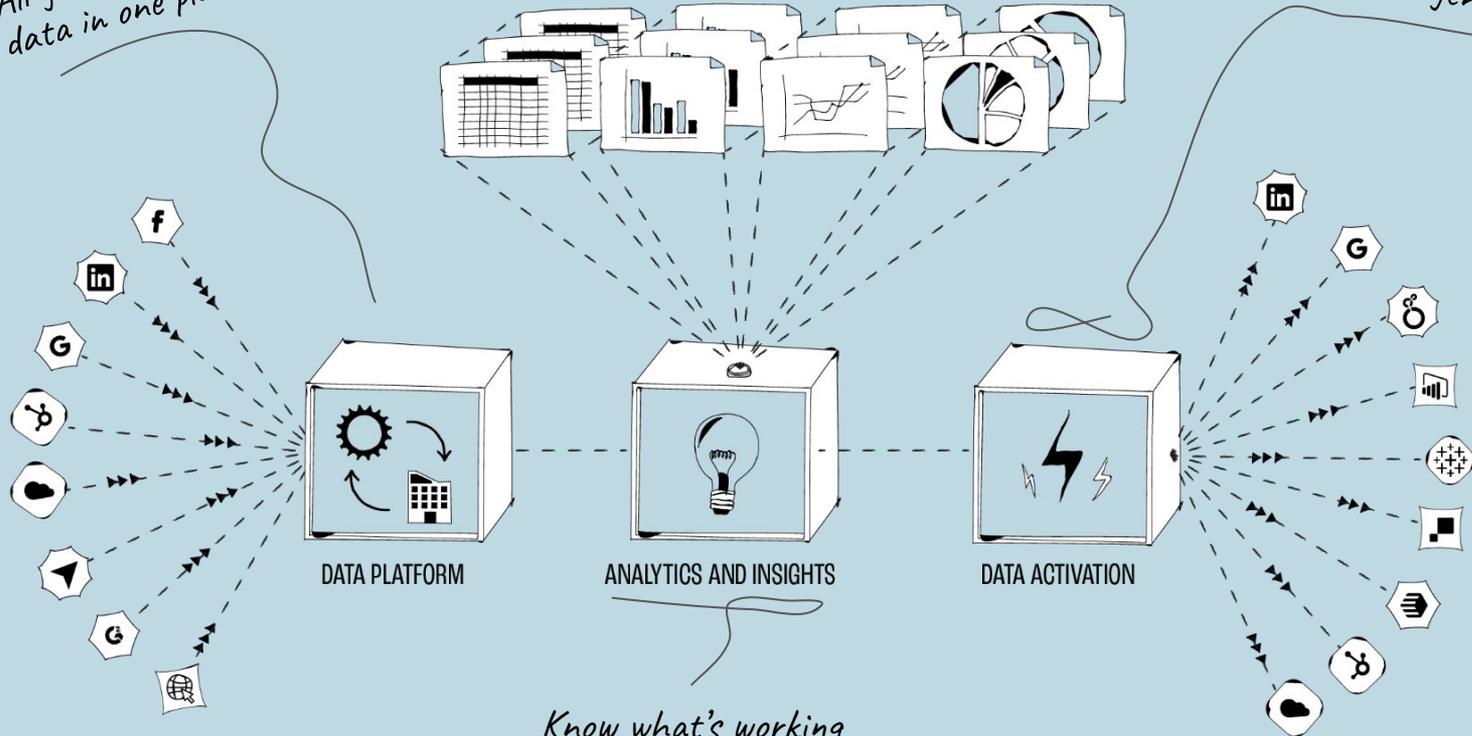

How do we enable your use cases?

DREAMDATA'S DATA PLATFORM IN 4 SIMPLE STEPS

All go-to-market data in one place

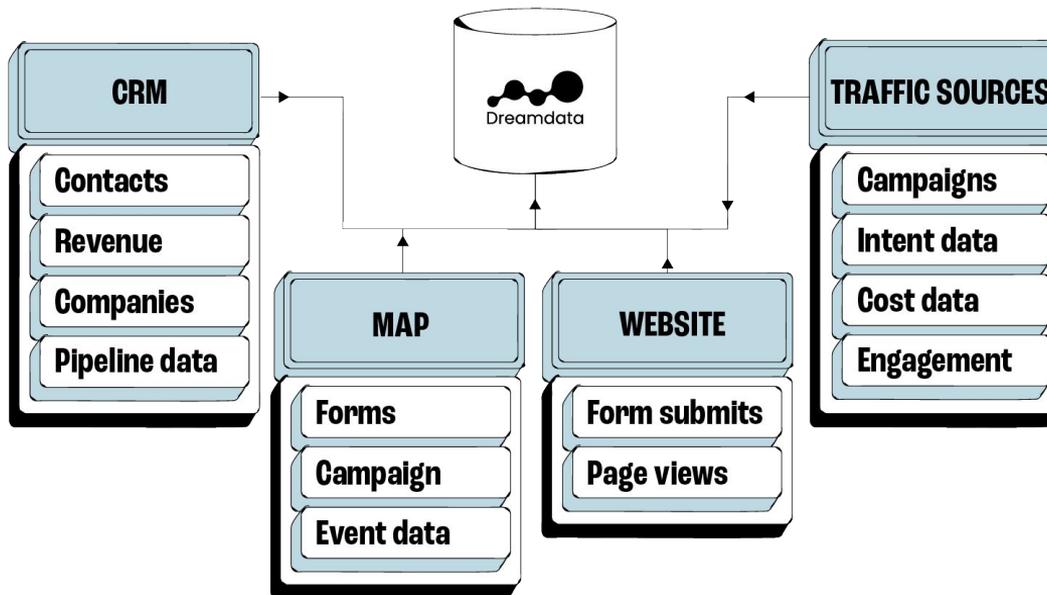

Automate and optimise your revenue generation

Know what's working and what isn't

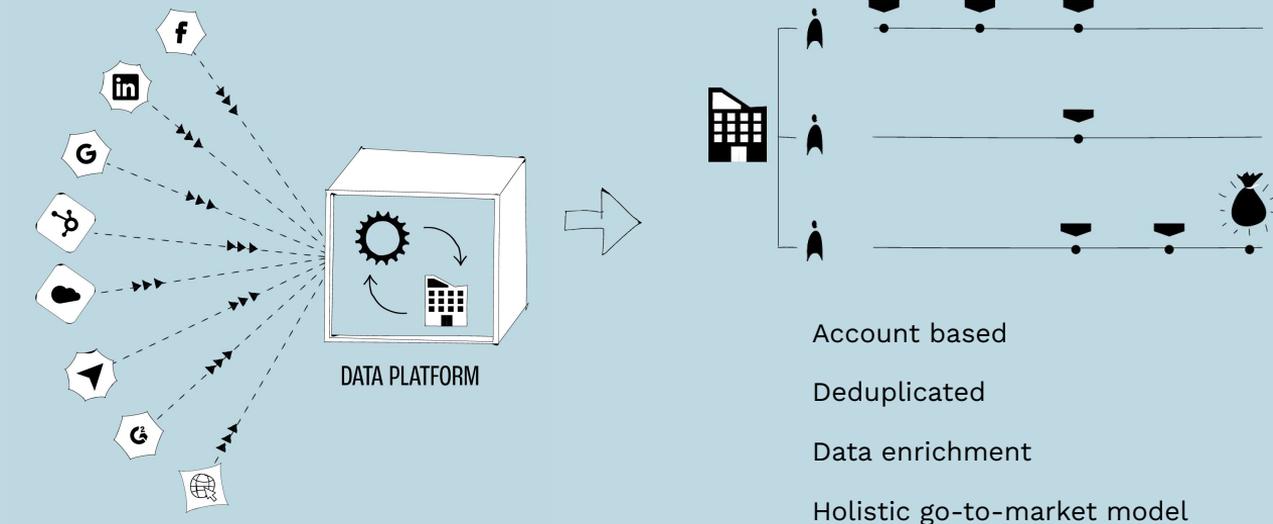

1. Dreamdata ingests data from your go-to-market tech stack and website

2. Transforming data into a clean, enriched and unified data set

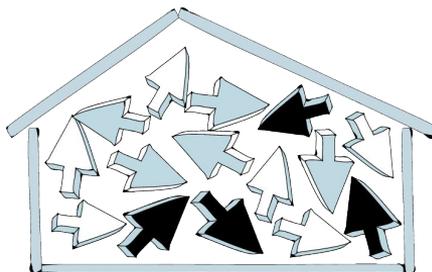

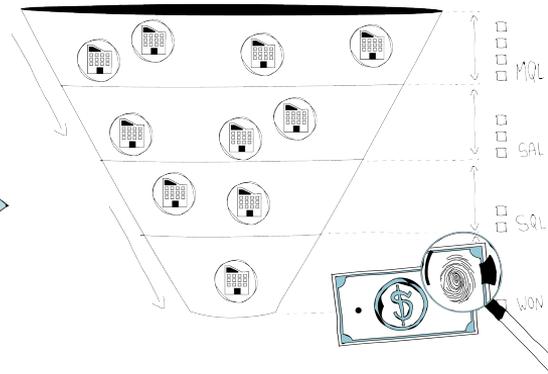

3. Attribution and stage modeling connecting any cost and every activity to pipeline and revenue

What we did and what we spent

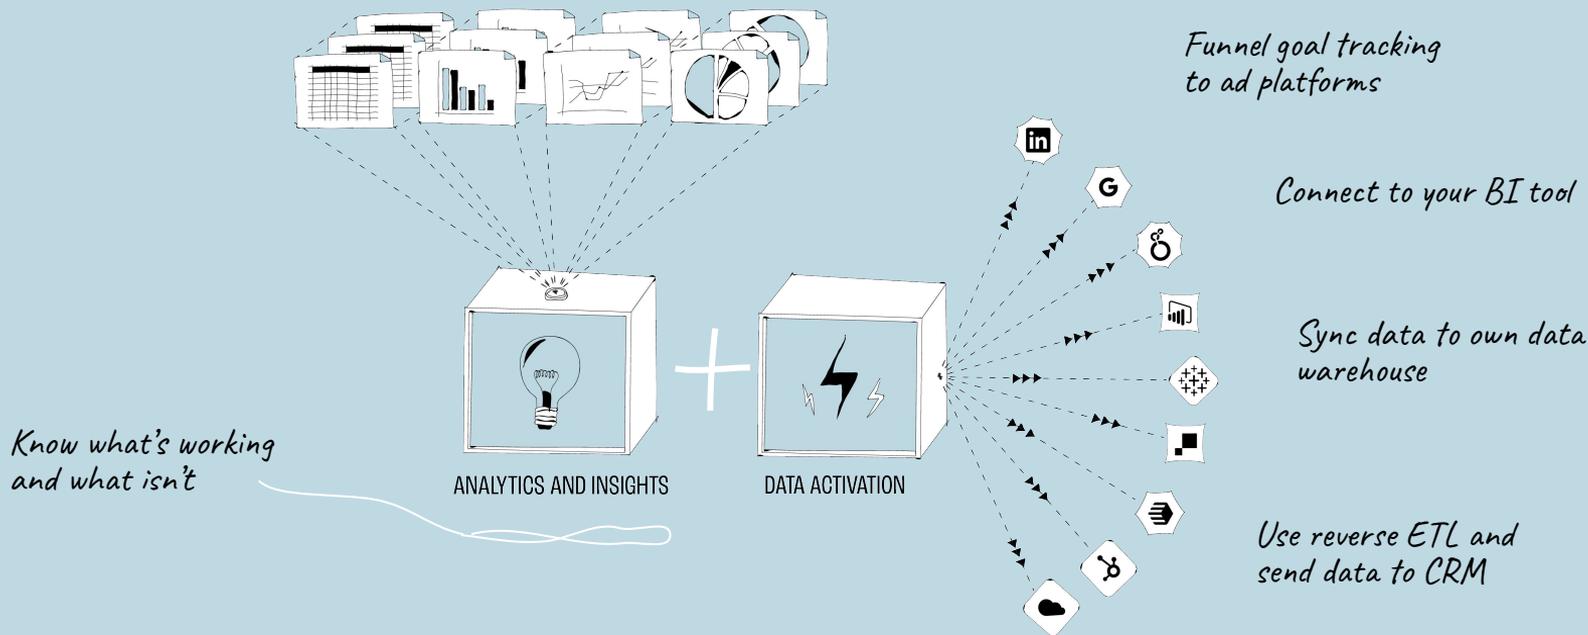

What it engaged

What it influenced

4. Activation with out-of-the-box reporting, BI connector or automated optimisation

9.75/10
