Pitch for Settle Easy customers

Do you need help accessing your deposit funds early?

When you sell your home, your deposit can be locked away for up to 120 days, which means you need to wait until settlement before accessing your deposit.

With Settle Easy's trusted partner, Convini, there's no need to wait.

Convini provides a broad range of financial and cashflow solutions for the real estate industry, giving you the freedom to get on with your plans.

With Convini's DepositPay, they can advance up to 65% of deposit monies before settlement occurs. The deposit funds are held in trust until the contract of sale becomes unconditional and is released early once agreed by all parties.

As soon as your property is settled, you simply pay back the funds Convini has advanced to you, plus a small service fee.

Getting on board with Convini is easy. Simply apply online and complete the application. Once an application is approved, funds are paid to your account within 24 hours.

It's that simple.
