# Free to join and easy to run

# What is Electric Vehicle (EV) Subscription Salary Packaging

## Flexible

Enjoy a month-to-month subscription with no cancellation or sign-up fees.

## Great tax savings

Fringe benefit tax exempt and packaged via pre-tax salary.

## No financing

Subscription doesn't require you to take on a loan or finance terms.

## All-inclusive

Rego, CTP, insurance and roadside assist all included in subscription cost.

## Skip the line

We're pre-ordering our EV's so you don't have to wait as long to make the switch.

# The difference between subscription and novated leasing

## Flexibility when you need it

Month-to-month subscriptions mean you can switch or cancel if your circumstances change. Just give us 30 days' notice.

**Note:** Your employer may set out a minimum term for your subscription.

## Plus, unlock extra electric driving perks!

Regardless of whether you take out a subscription with us you can now access discounted sustainability themed products through the Origin Partner Advantage

45% tax rate + 2% ML      \$270 per week

Potential savings based on 12 months subscription (37 – 45% tax rate) **\$10,348 – 12,480**

# Subscription vs Ownership

**The good news is, you can do both!**

We give subscribers the offer to buy their EV out after 3,4 & 5 years. Or go the subscription only route and have the freedom to switch your vehicle at a time that suits you! Either way, you're not locked in either decision when you take out your subscription.

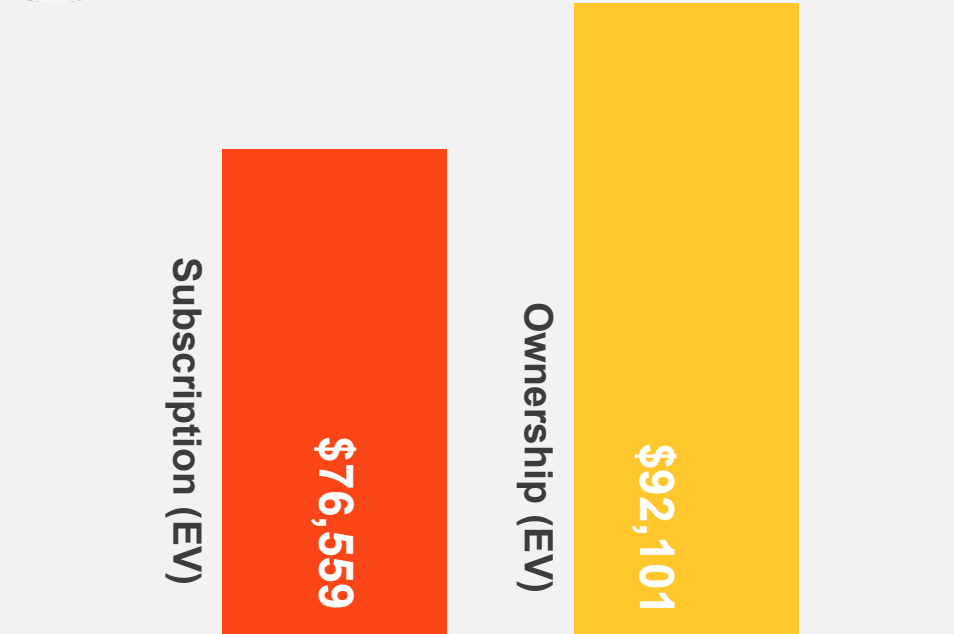

**The longer you subscribe the more you save**

We offer **an extra 15% discount\*\*** each year (for up to 5 years) when you stay subscribed with us on the same EV. The discounts are applied to the pre-tax amount of the original subscription cost annual.

The content provided is general and has not taken into account your objectives, financial situation or needs. Origin recommends that you seek your own independent legal, financial and tax advice when ma respect of the appropriateness of salary sacrifice for your circumstances – [see full details here](#).

**Example:** Total cost of ownership comparison over 3 years on a Tesla Model 3 (RWD)

Subscription cost includes loyalty discounts of 15% after every 12 months anniversary and buy out price (inc. gst) after 3 years; based on 37% marginal tax rate + 2% Medicare levy surcharge.

Ownership cost assumes financing rate of 6%, registration, insurance, maintenance and tyres.
