

Introducing Movinghub

Australia Presentation

Movinghub

About us

Movinghub began with an idea in 2010. We realised that every time a person moves, they have to make countless phone calls to change address, connect their utilities and select home service providers.

We developed a technology platform that helps property professionals to solve this challenge by creating their own concierge service. This makes the moving process simple and effortless for their customers by completing all their moving tasks at once. They can update their address, connect their utilities and save money at the same time.

This clear mission, along with an ever growing service offering, has helped us to become a proptech leader. We now service movers across the US, UK, Australia and New Zealand.

A service to organise every move

Our solution is simple, all you need to do is proposition the customer when they are at contract unconditional stage and refer the customer:

“A member from the My Local Broker Connect team will be in touch with you shortly to arrange your connections and discuss other utility options”.

Services include:

Electricity, Natural Gas, LPG, Internet, Pay TV, Water, Removalist and Cleaning quotes.

Movinghub

Bill Reviews

Customer & Partner Support

Our customer support centre is made up of a talented team of highly-skilled operatives we call Movologists based in Docklands..

We are committed to helping each customer make informed decisions that are value based and fit with their exact requirements.

Movinghub

A leading technology platform

Our platform is hosted online and can be accessed anywhere, anytime. This Software as a Service (SaaS) approach gives you everything you need for free, with advanced features available for expert users.

We're constantly adding new features and improving the user experience. We also provide advanced online support, a detailed knowledge centre and a dedicated account manager to get you started.

Brands we work with

With no form of exclusivity or equity control, Movinghub partners with a number of industry leading brands to help customers choose the brand that meets their needs.

Movinghub

Thank You!
