If you choose to use seats-based setup, reservations will be managed according to the total number of seats available.  
If you choose table-based setup, all reservations will be assigned one or more tables automatically. You will have the possibility to modify the automatically assigned tables. Only you can see the assigned tables. Your guests are not shown tables during the reservation process.

You are using table-based setup

**Area(s)** 

If your establishment has multiple areas or rooms, you may want to define an area before you start assigning tables to it. e.g.: Indoor, Outdoor, Bar, Lounge, etc.  
Your active areas are listed below:

**indoor**

**Table(s)** 

Tables are assigned to specific areas. When you pause a whole area, all tables assigned to that area will be paused. This may make some of your future reservations invalid. Don't worry, you can just move them to other available table(s).

Table Name	Seats (6)	Area Name	Status
A	4	indoor	Active
B	2	indoor	Active

Choisissez entre une configuration basée sur les tables et basée sur les sièges en utilisant le **commutateur** désigné . Remarque : la configuration basée sur les tables attribuera automatiquement des réservations aux tables. La configuration basée sur les sièges gèrera les réservations en fonction du nombre total de sièges disponibles.

Lors du passage d'une configuration basée sur les tables à une configuration basée sur les sièges, toutes les attributions de table des réservations existantes seront supprimées. Remarque : le passage d'une configuration basée sur les tables à une configuration basée sur les sièges affectera automatiquement toutes les réservations existantes aux tables.

The screenshot shows the 'DISH RESERVATION' administration interface. The left sidebar contains navigation options: Reservations, Menu, Guests, Feedback, Reports, Settings (expanded), Hours, Reservations, Tables/Seats (selected), Offers, Notifications, Account, and Help. The main content area displays the 'Tables/Seats' configuration page. At the top, it explains the difference between seats-based and table-based setups. A toggle switch for 'Do you wish to enable table-based setup?' is currently turned off. Below this, a red warning message states: 'IMPORTANT: All table assignments from existing reservations will be removed.' A text input field for 'How many seats are available for reservation in your establishment?' contains the number '6'. A 'SAVE' button is located at the bottom right of the form. The top right corner of the interface shows 'HD\*Tutorial' and a user profile icon.

The screenshot shows the 'DISH RESERVATION' administration interface. On the left is a dark sidebar with a menu containing: Reservations, Menu, Guests, Feedback, Reports, Settings (expanded), Hours, Reservations, Tables/Seats (highlighted), Offers, Notifications, Account, and Help. At the bottom of the sidebar, there is a notification: 'Too many guests in house? Pause online reservations' with a pause icon.

The main content area has a dark header with 'HD\*Tutorial', a language selector (UK flag), and a refresh icon. Below the header, there is explanatory text: 'If you choose to use seats-based setup, reservations will be managed according to the total number of seats available. If you choose table-based setup, all reservations will be assigned one or more tables automatically. You will have the possibility to modify the automatically assigned tables. Only you can see the assigned tables. Your guests are not shown tables during the reservation process.'

The settings include:

- A toggle switch for 'Do you wish to enable table-based setup?' which is currently turned off.
- An important notice: 'IMPORTANT: All table assignments from existing reservations will be removed.'
- A text input field for 'How many seats are available for reservation in your establishment?' with the value '6' entered.
- A prominent orange 'SAVE' button.

At the bottom of the page, there is a footer with 'Designed by Hospitality Digital GmbH. All rights reserved.' and links for 'FAQ | Terms of use | Imprint | Data Privacy'.
