You have the option to choose between seat-based and table-based setup.

If you choose to use seats-based setup, reservations will be managed according to the total number of seats available.

If you choose table-based setup, all reservations will be assigned one or more tables automatically. You will have the possibility to modify the automatically assigned tables. Only

Please select whether you would like to use seat or table reservations.

☒ Tables

Step 1: Define area(s)

If your establishment has multiple areas or rooms, you may want to define an area before you start assigning tables to it. e.g.: Indoor, Outdoor, Bar, Lounge, etc.

Area Name	Selectable	Active
<input type="text" value="Area Name"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Would you like to add more areas? Add

Step 2: Define Table(s) - Total Seats: 0

Table Name	Seats	Area Name	Priority
<input type="text" value="Table Name"/>	<input type="text" value="Seats"/>	<input type="text" value="Area Name"/>	<input type="text" value="Priority"/>

Would you like to add more tables? Add

You can add a visual table plan after finishing the initial setup.

Here you can enter the area name. Simply click on the **field** and enter the **name** of the area.
