

You can also use a NFC card to login, your device has to support this. If you have a supporting device tag the NFC card to the reader on the device.

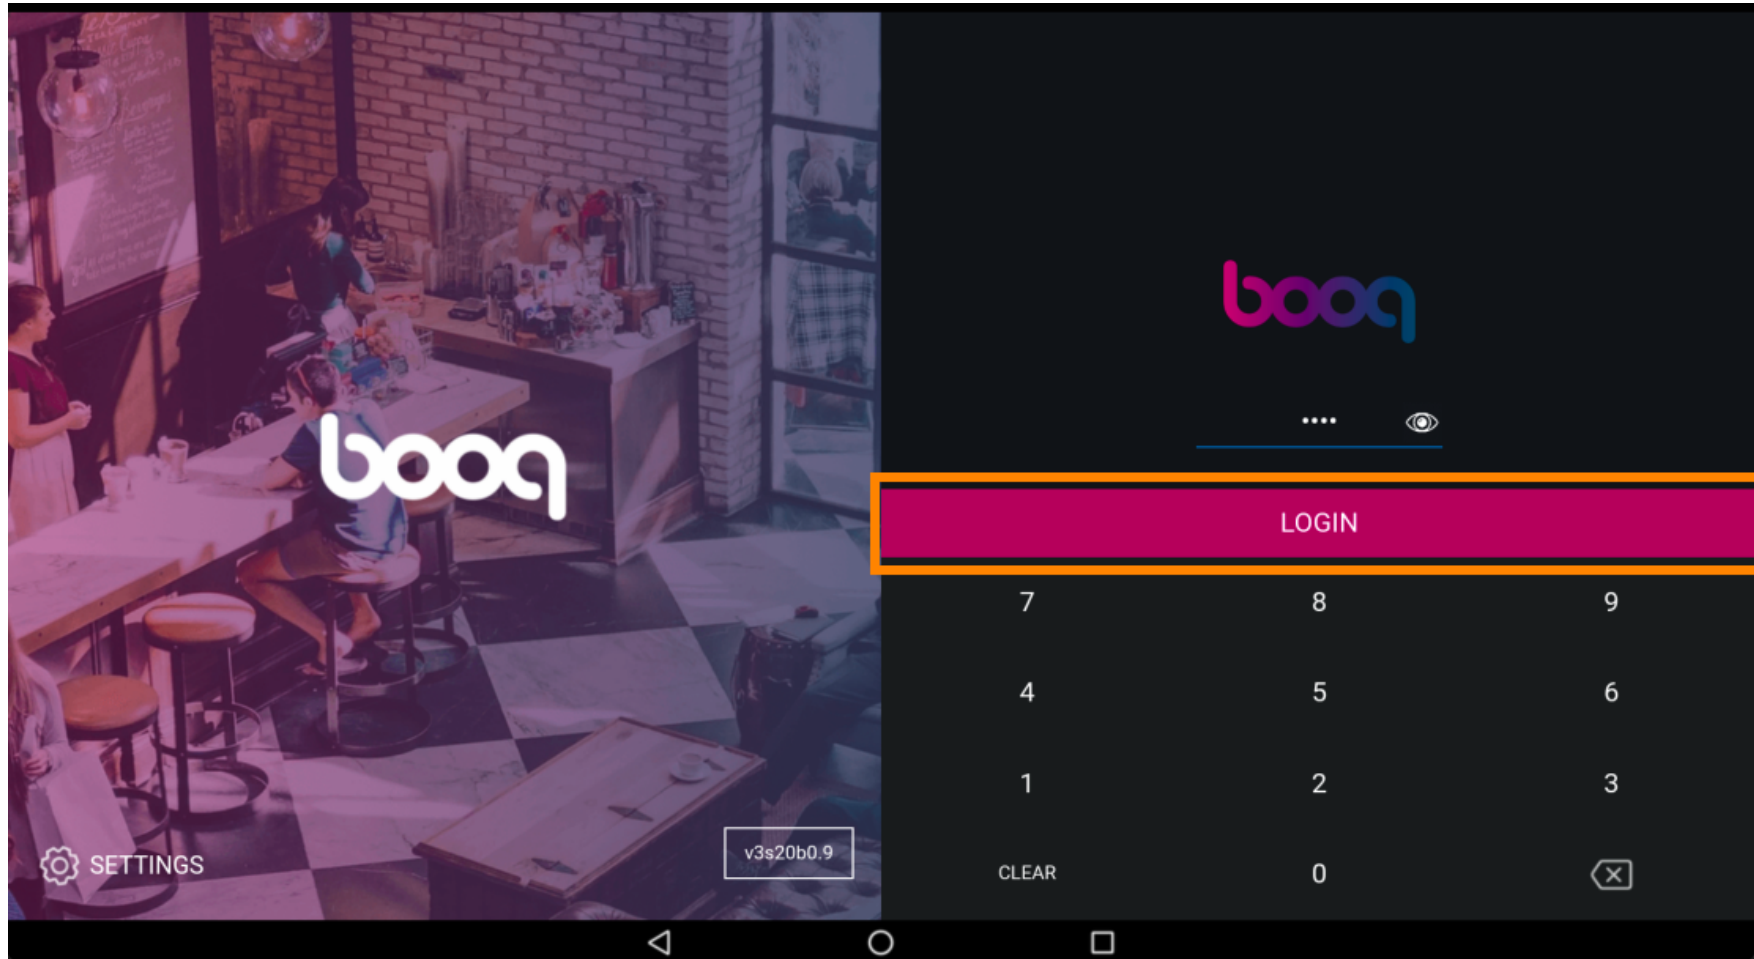

Add the waiters login code by clicking on the **numbers**.

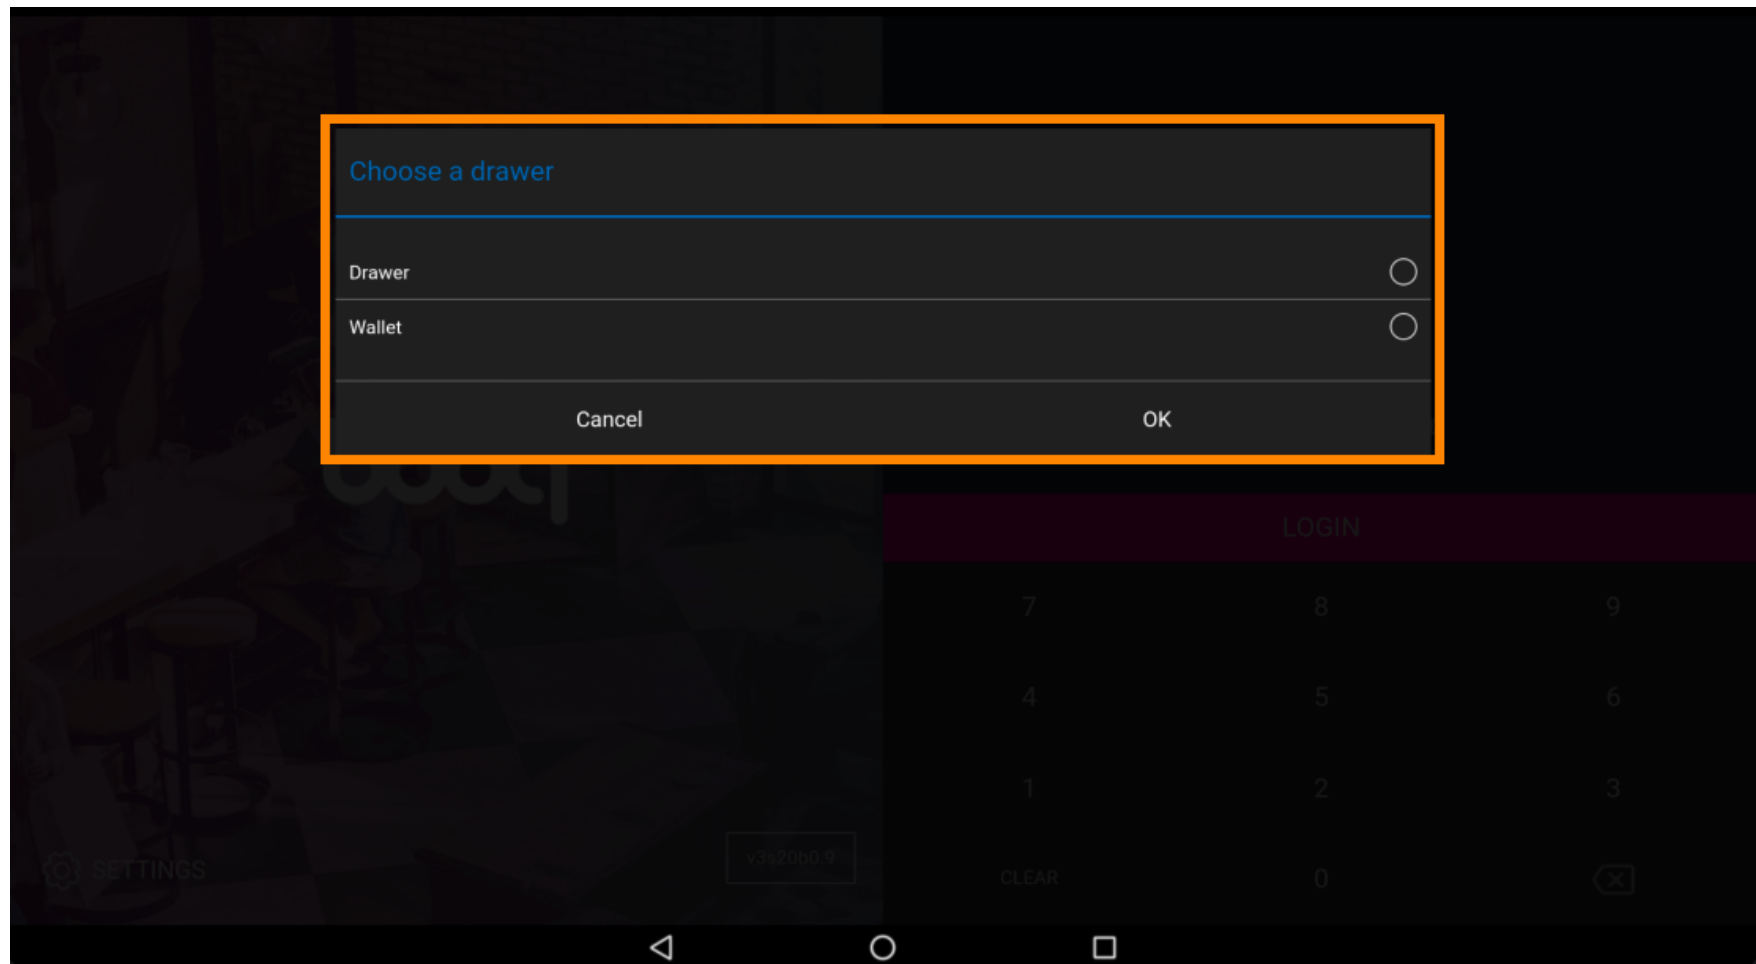

Click on **LOGIN**.

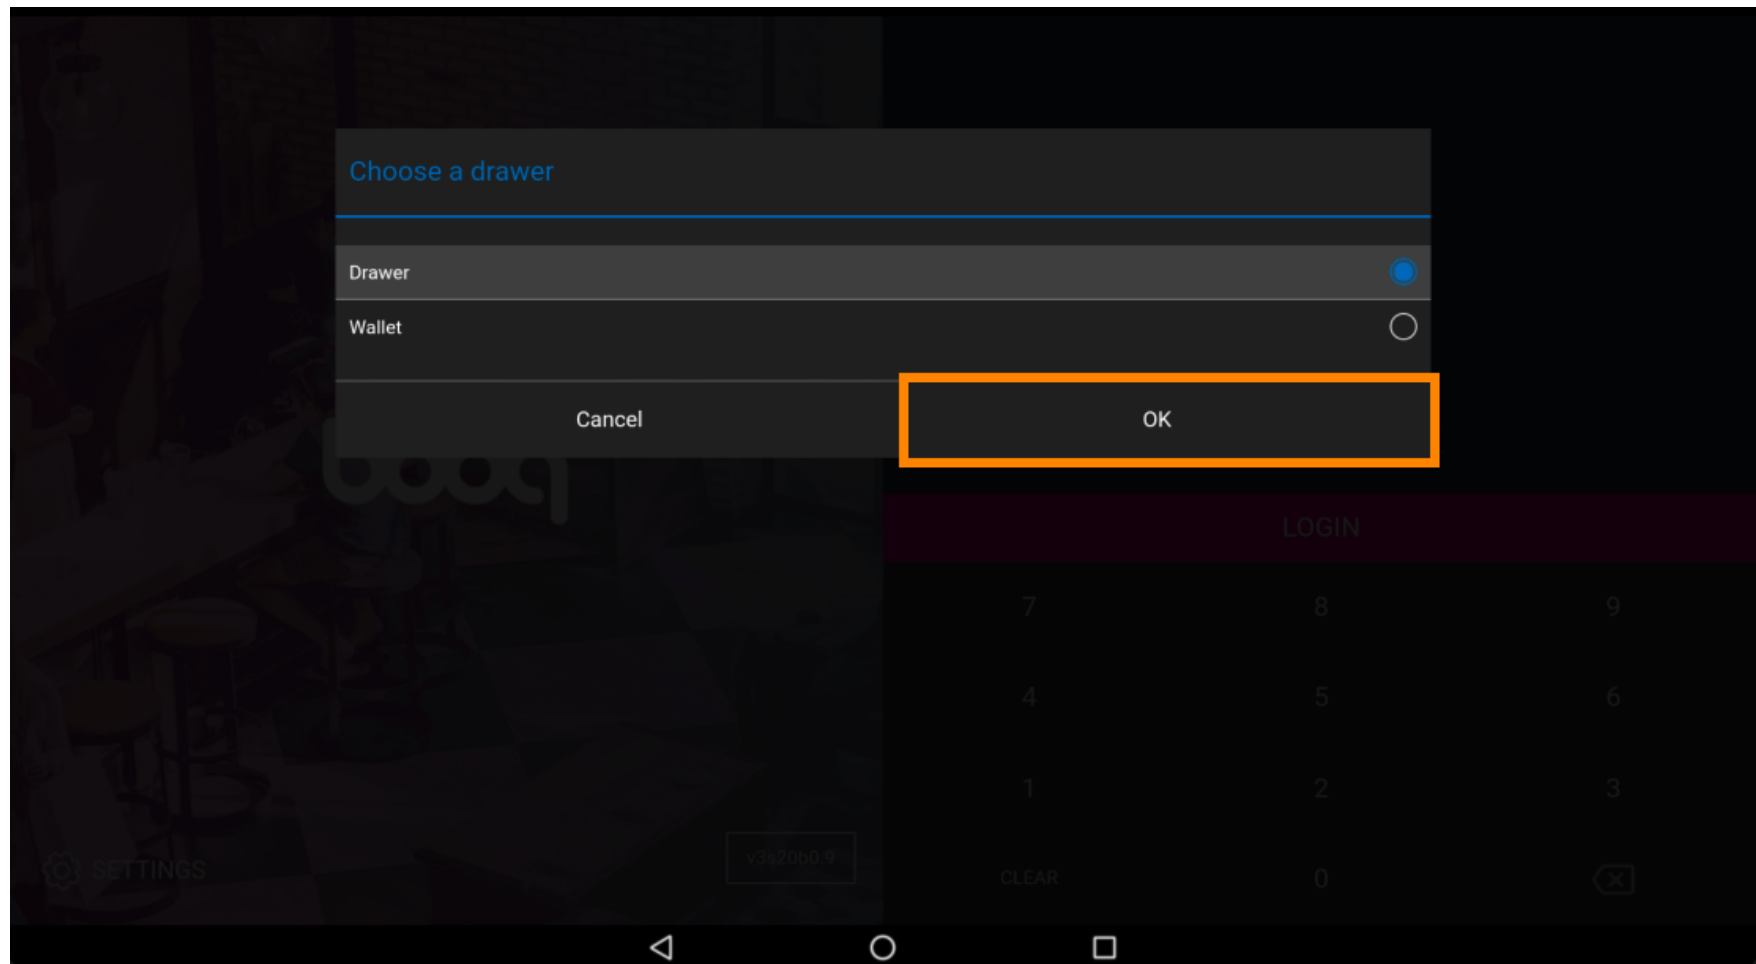

Select a drawer. Note: After the first login you need to select a “drawer” all turnovers are stored on this drawer. So even if you don’t have a drawer you have to select this.

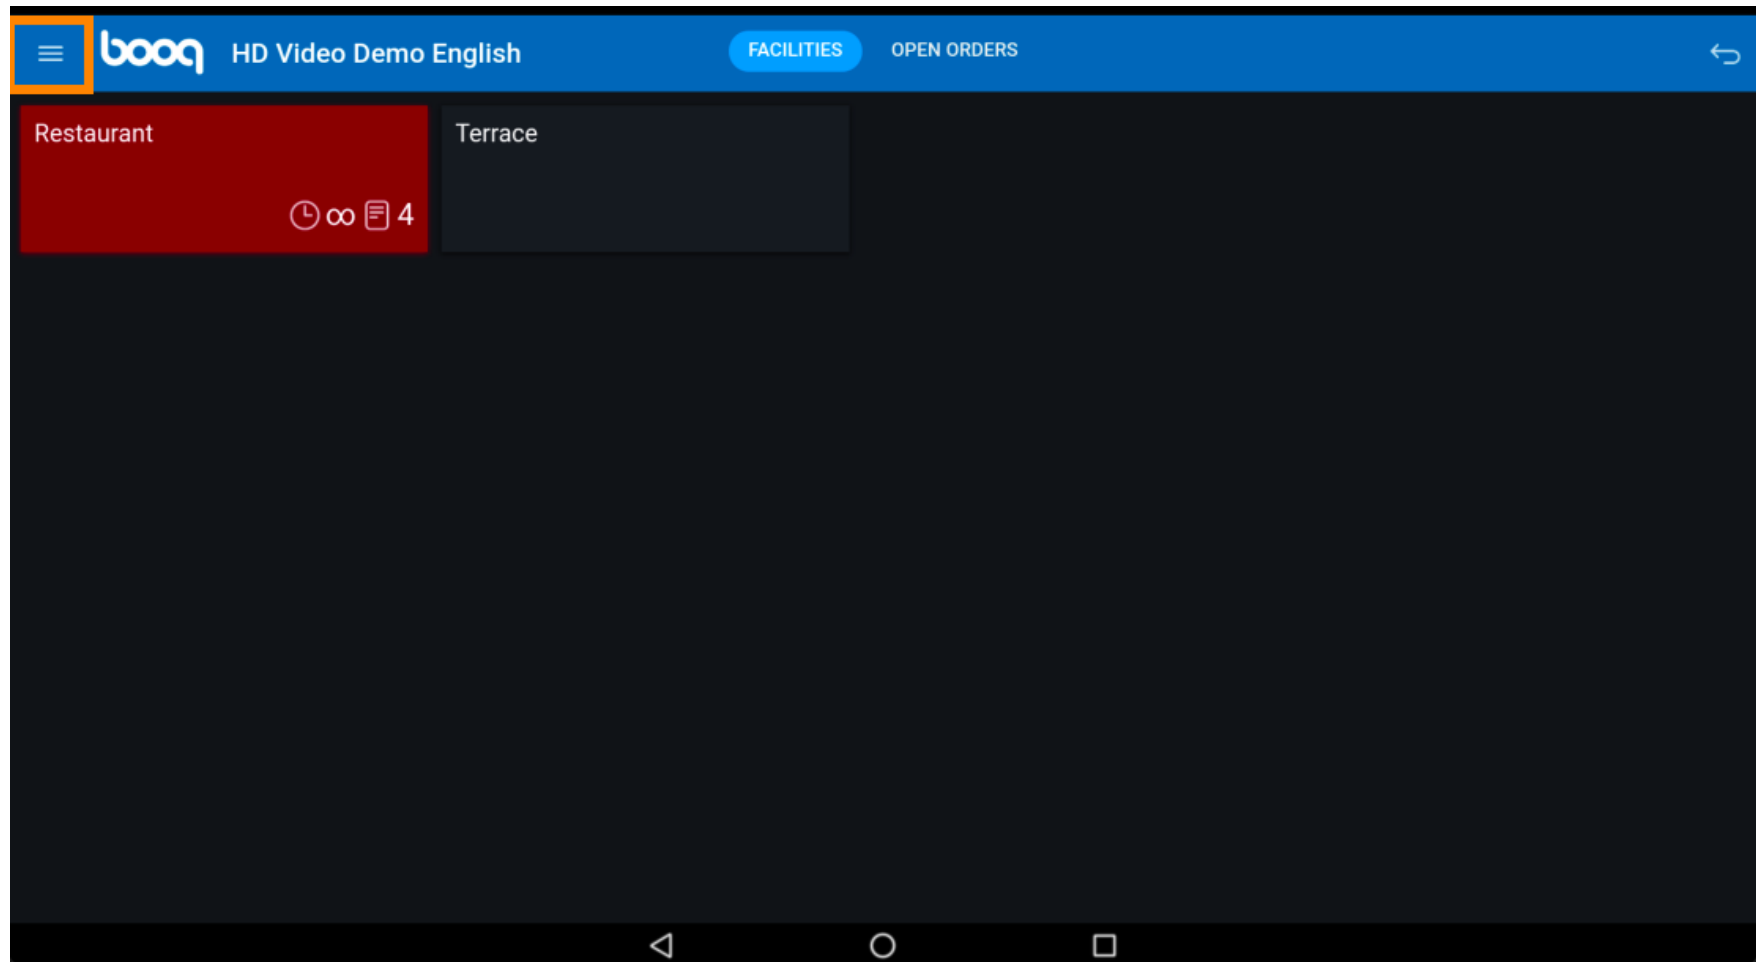

After selecting a drawer, click on **OK**. Note: the circle next to the selected drawer turns blue for you to know which drawer you have selected.

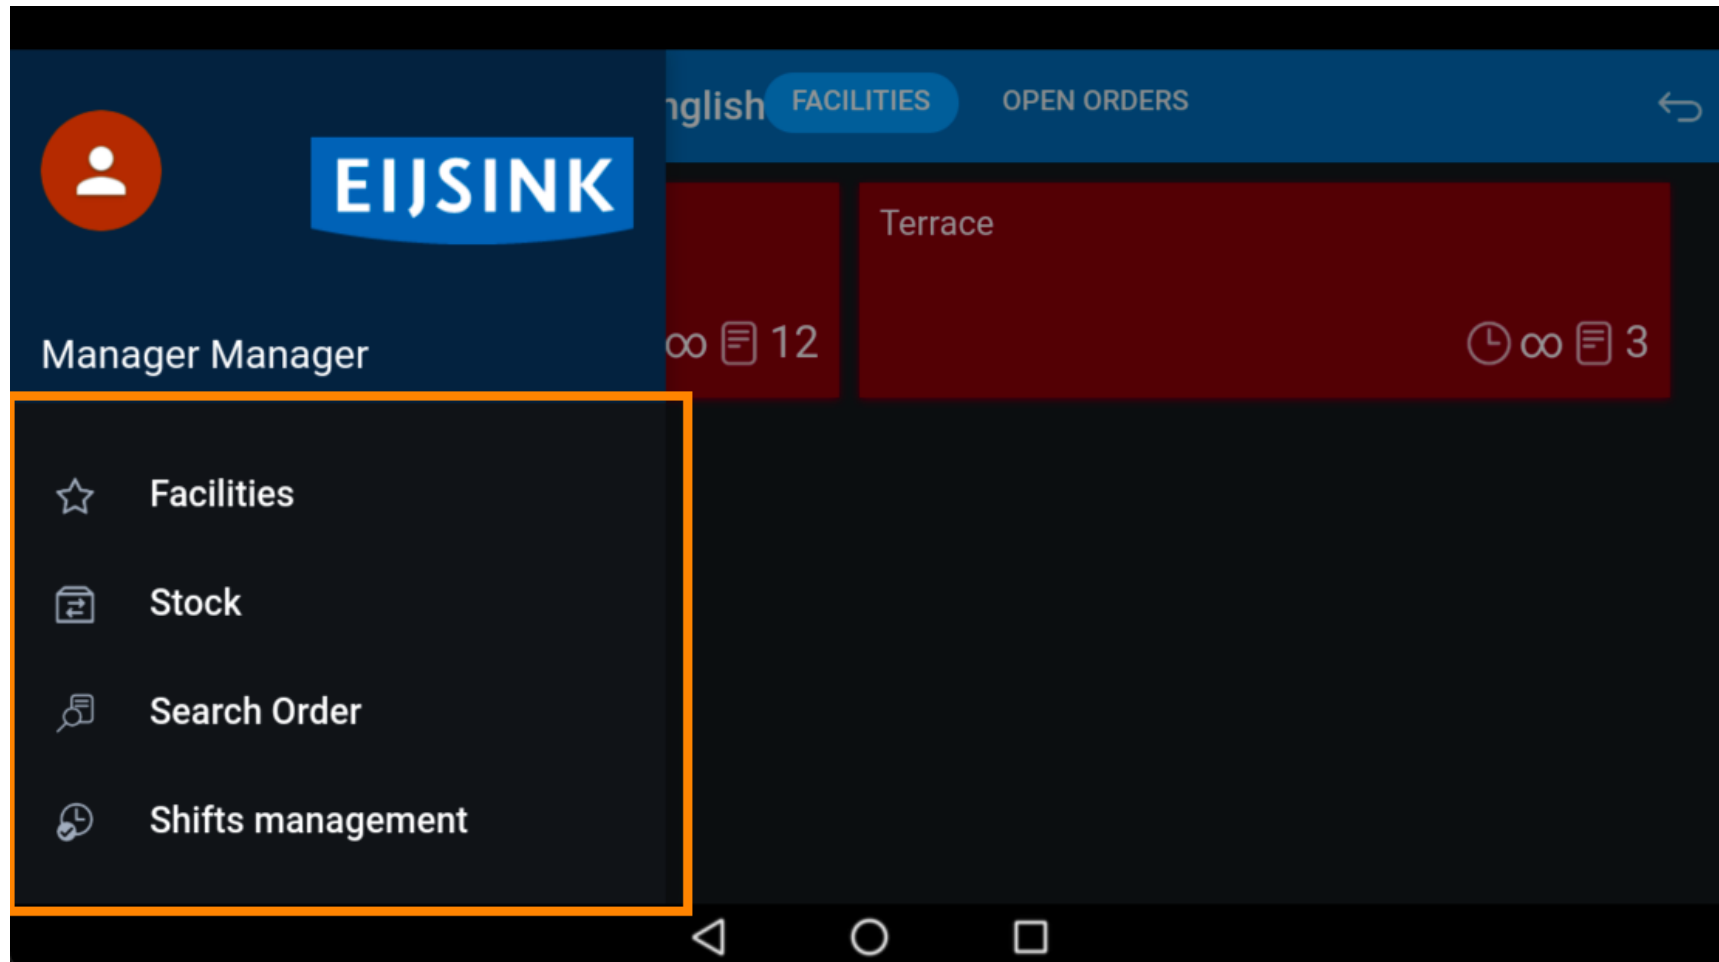

Click on the **menu icon**.

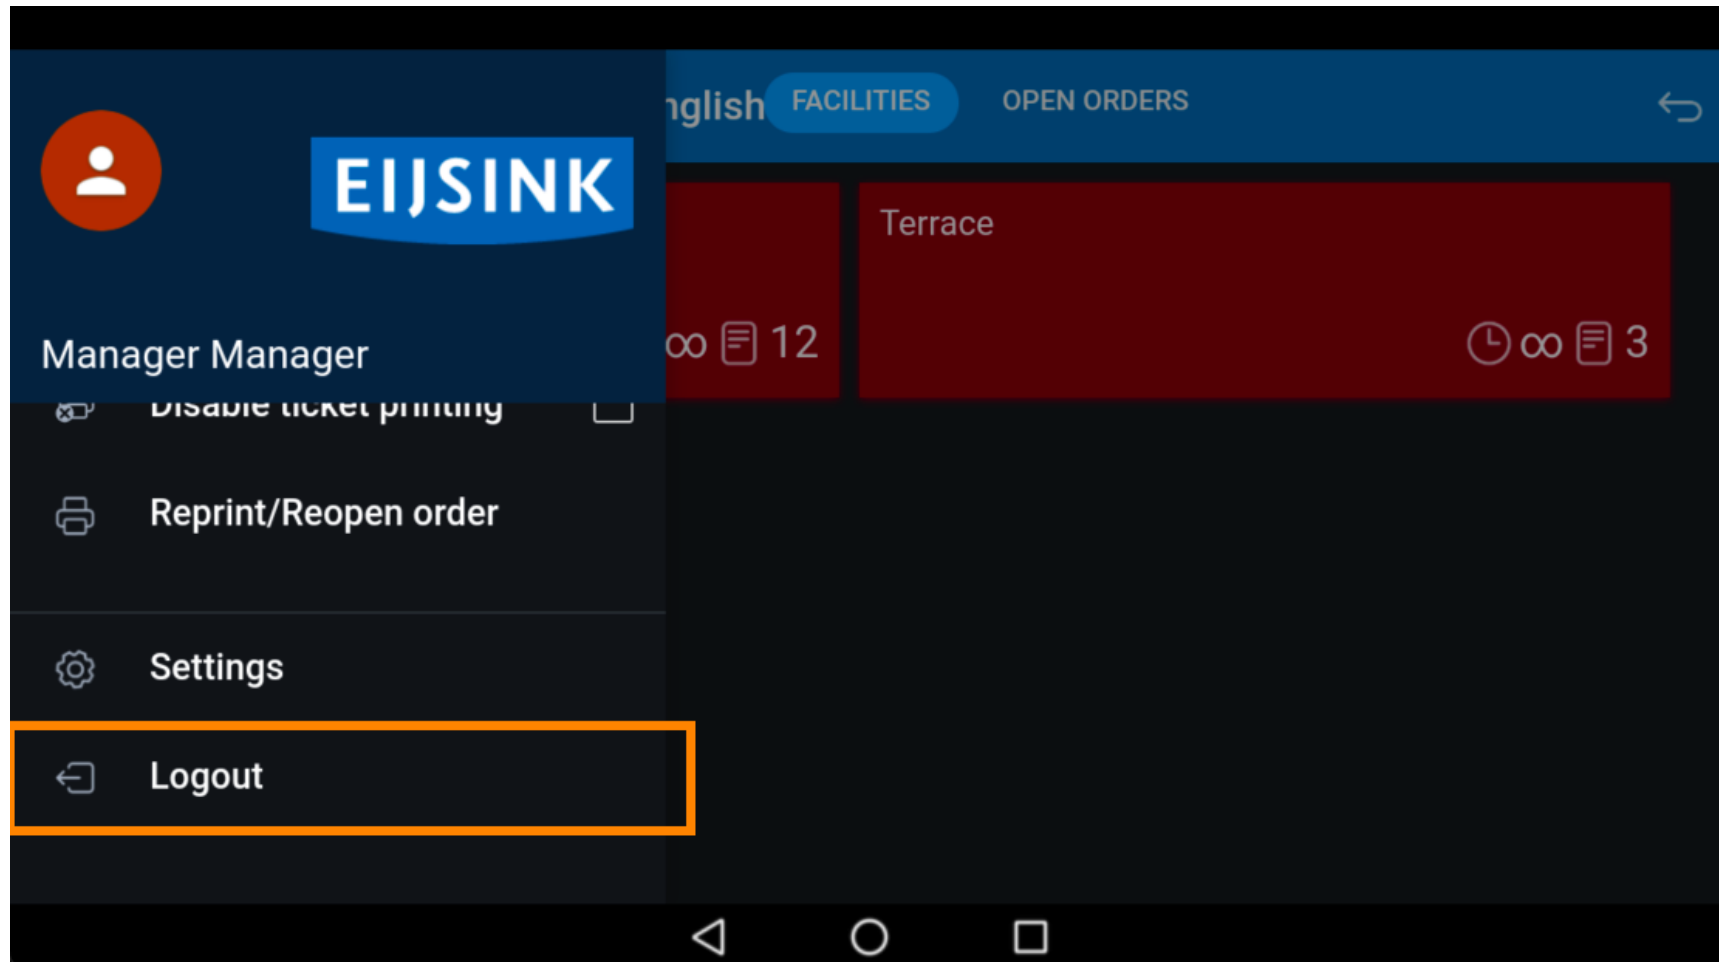

Scroll down.

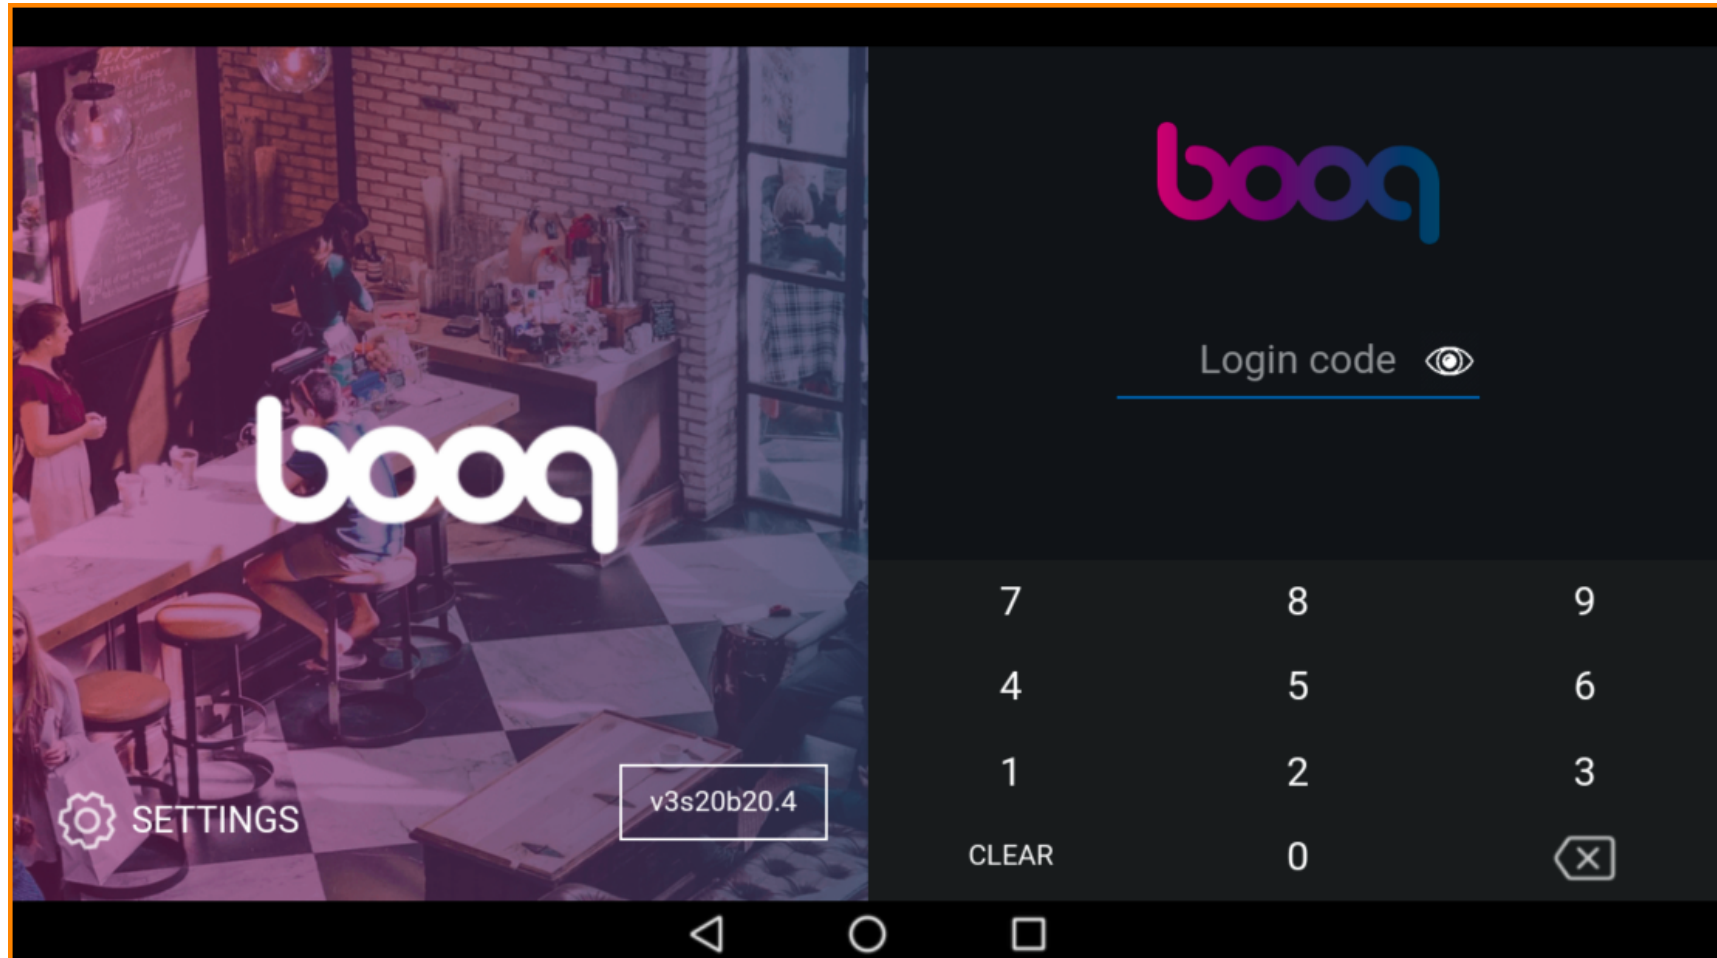

Click on **Logout**.

That's it. You're done.
