

The first step is to open the app menu by tapping on the **menu icon**.

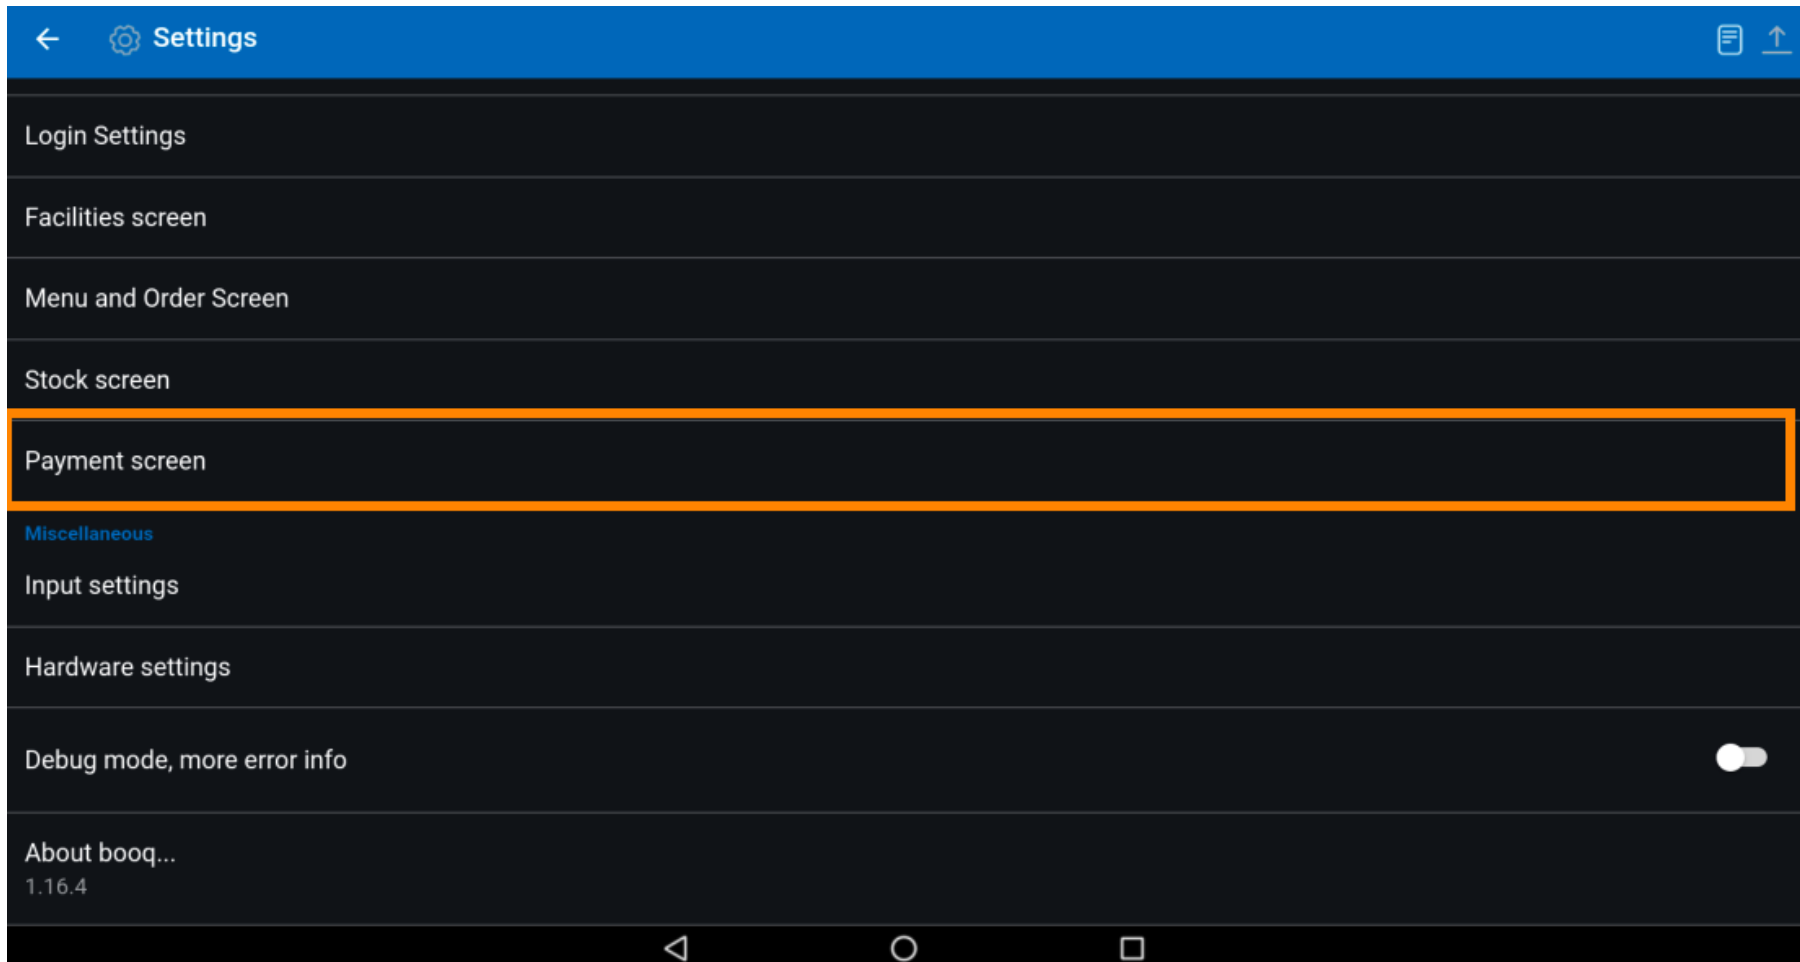

Select **Settings**.

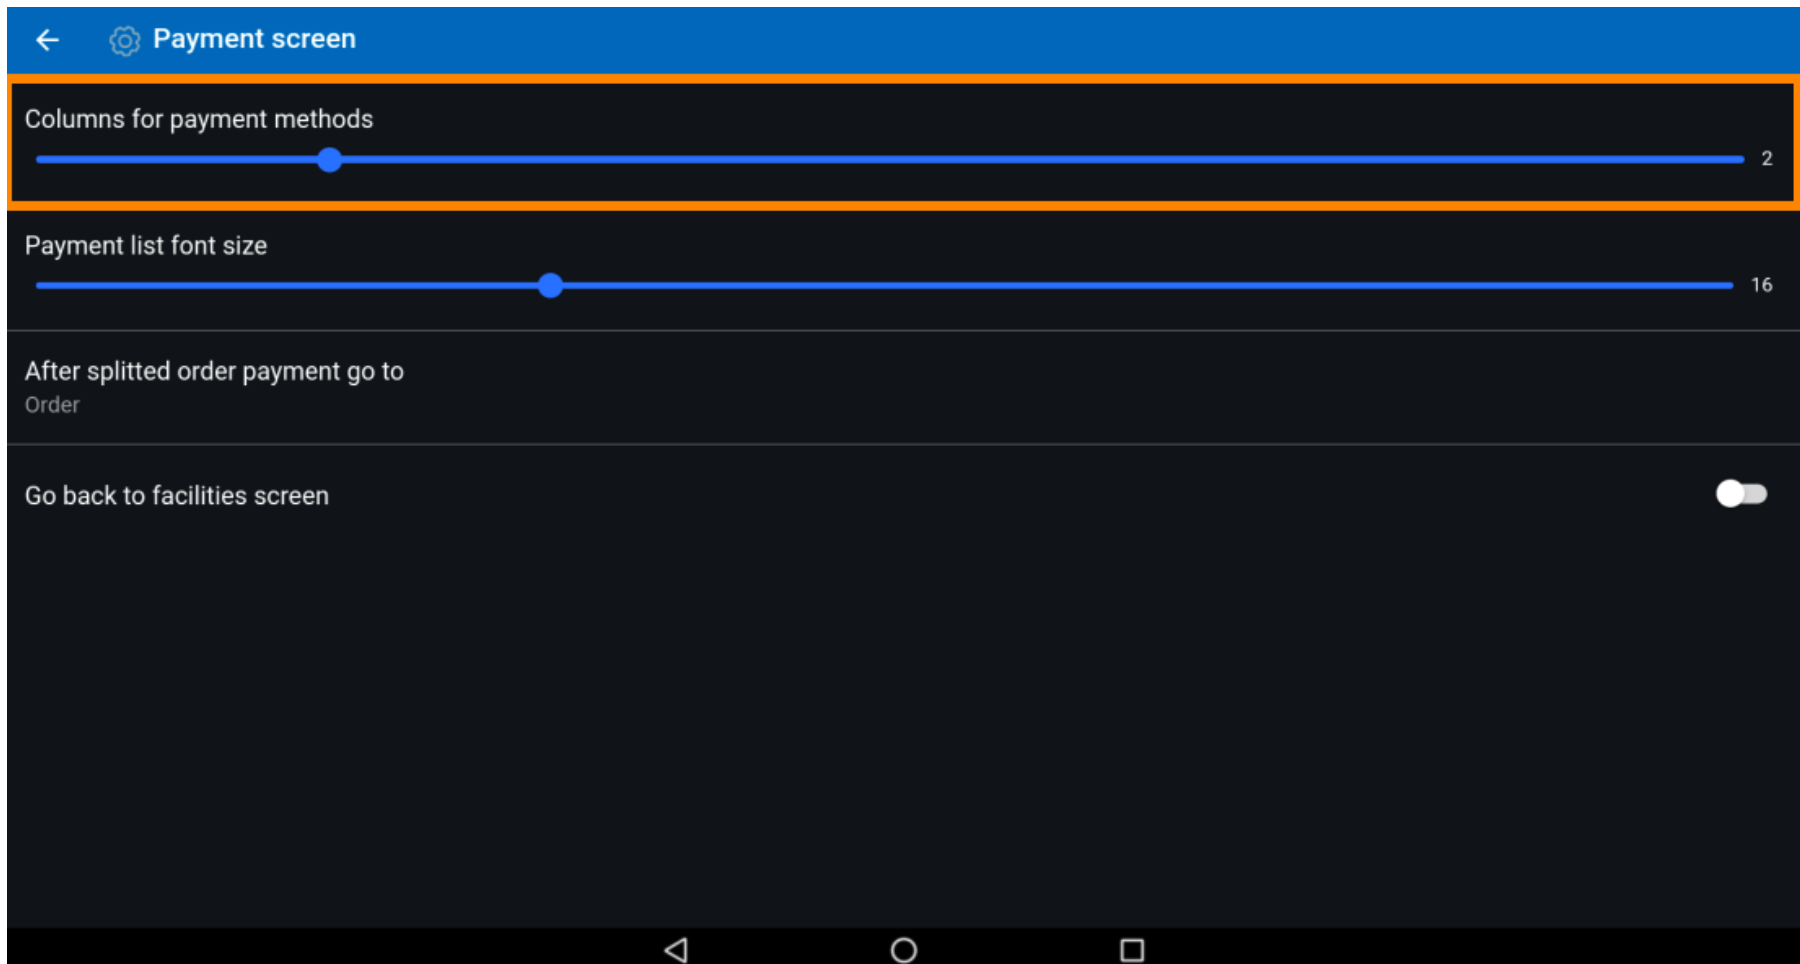

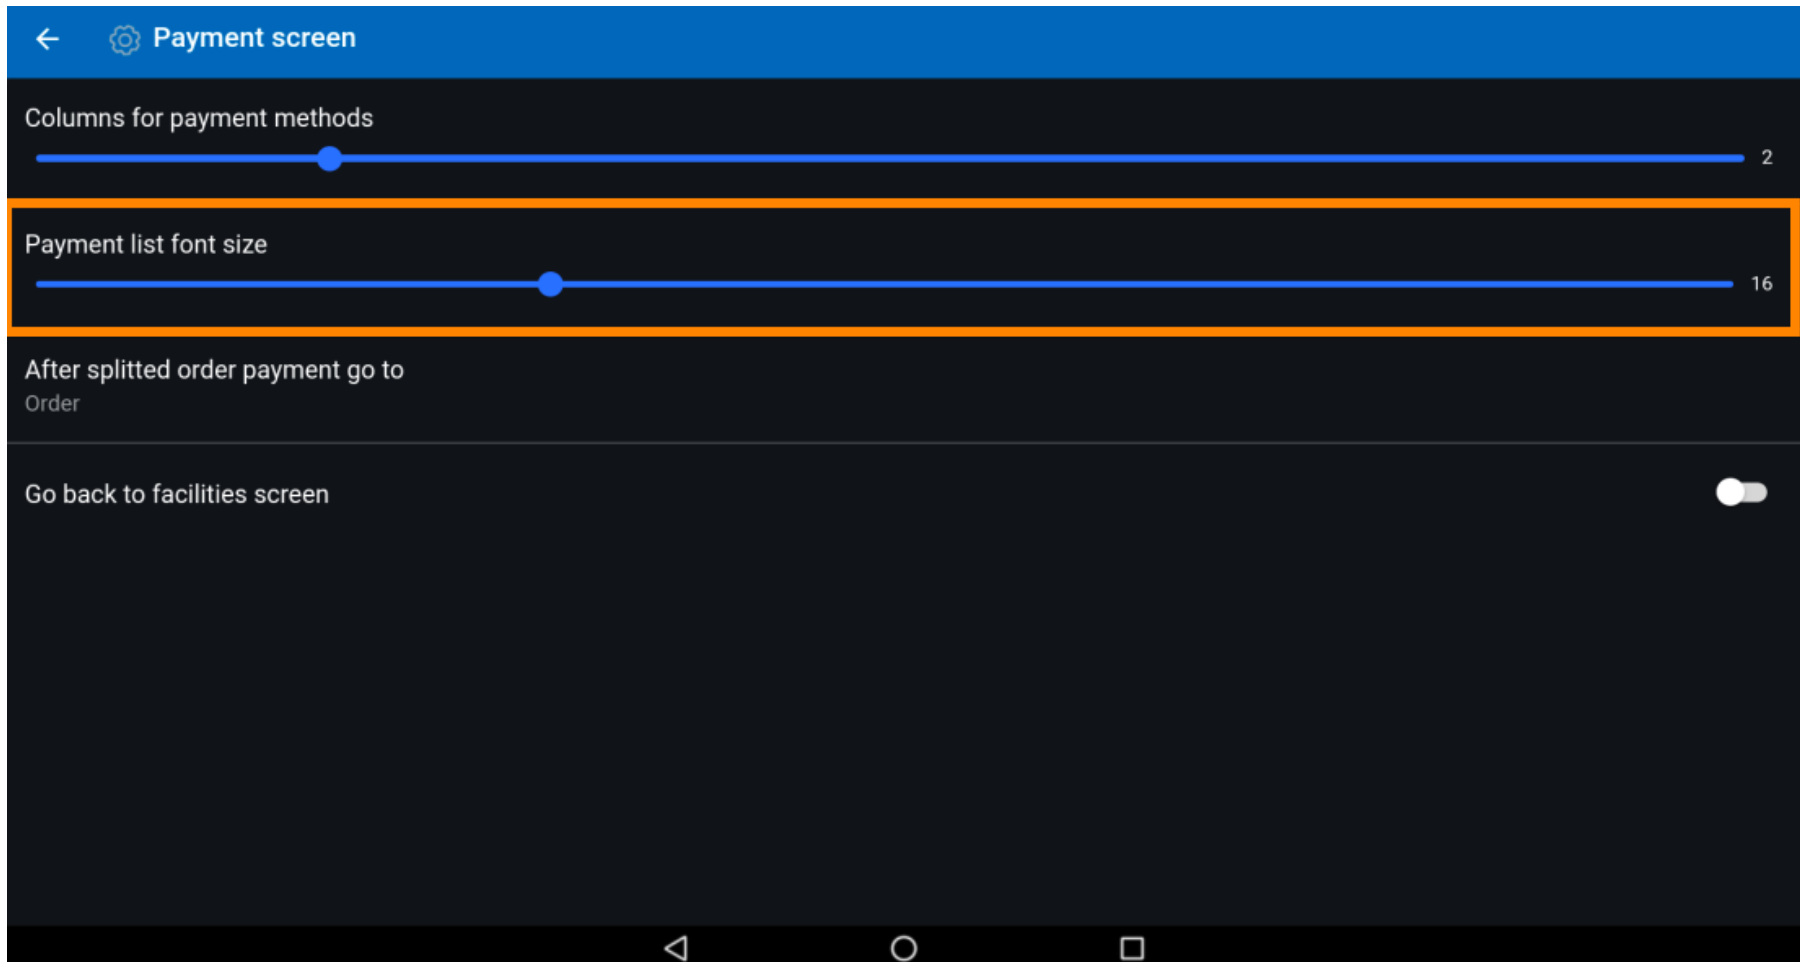

Now tap on **Payment screen**.

- At **Columns for payment methods** you can set the number of columns for the payment methods that will be shown in the payment screen.

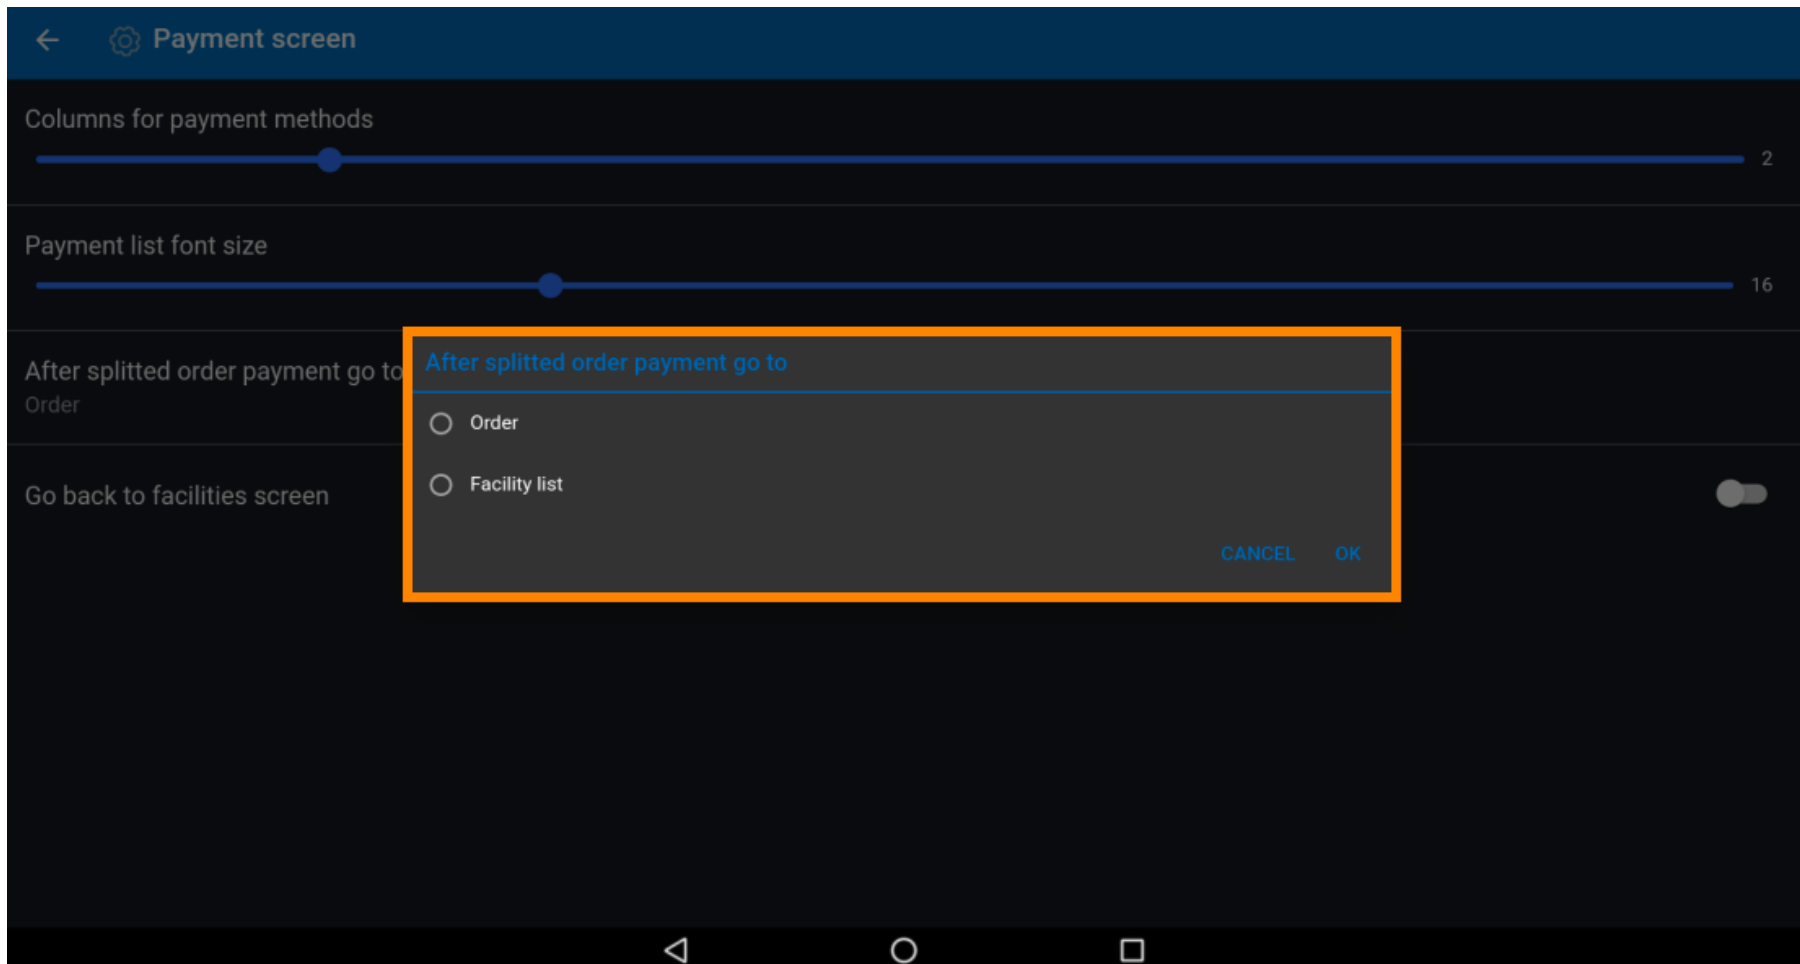

At **Payment list font size** you can set the font size of the payment methods.

🔑 At **After splitted order payment to go** you choose what should happen after an order is split.

- i With **Order** the app returns to the order so you can checkout the rest of the order or split it. With **Facilities list** the app returns to the facilities screen. **Note: Default is that you go back to the order**

At **Go back to facilities screen** it is possible to give the option that after direct sales you can return to the facilities screen instead of staying in direct sales.
