 **Altere** seu endereço da Web com um domínio fornecido pela DISH.

The screenshot shows the 'Web address' configuration page in the DISH interface. The page is titled 'Web address' and features a sidebar on the left with navigation options: Dashboard, Restaurant details, Settings, Reservation options, Food ordering, Design and content, Legal, Web Address (highlighted), DISH WEBLISTING, and Account. The main content area is divided into two sections: 'Web address' and 'External domain'. In the 'Web address' section, there is a text input field containing 'hd-test-jo', a dropdown menu currently showing 'eatbu.com', and a list of other domain options: metro.bar, metro.biz, and metro.rest. Below the input field, the text 'hd-test-jo.eatbu.com' is displayed in green, followed by the note 'This is your current web address.' and a yellow 'SAVE' button. The 'External domain' section contains a text input field with the placeholder 'YourExistingDomain.com' and a yellow 'CHECK DOMAIN' button. At the bottom right of the page, there is a yellow circular icon with a question mark.

 Clique no **campo de texto** e adicione o domínio desejado.

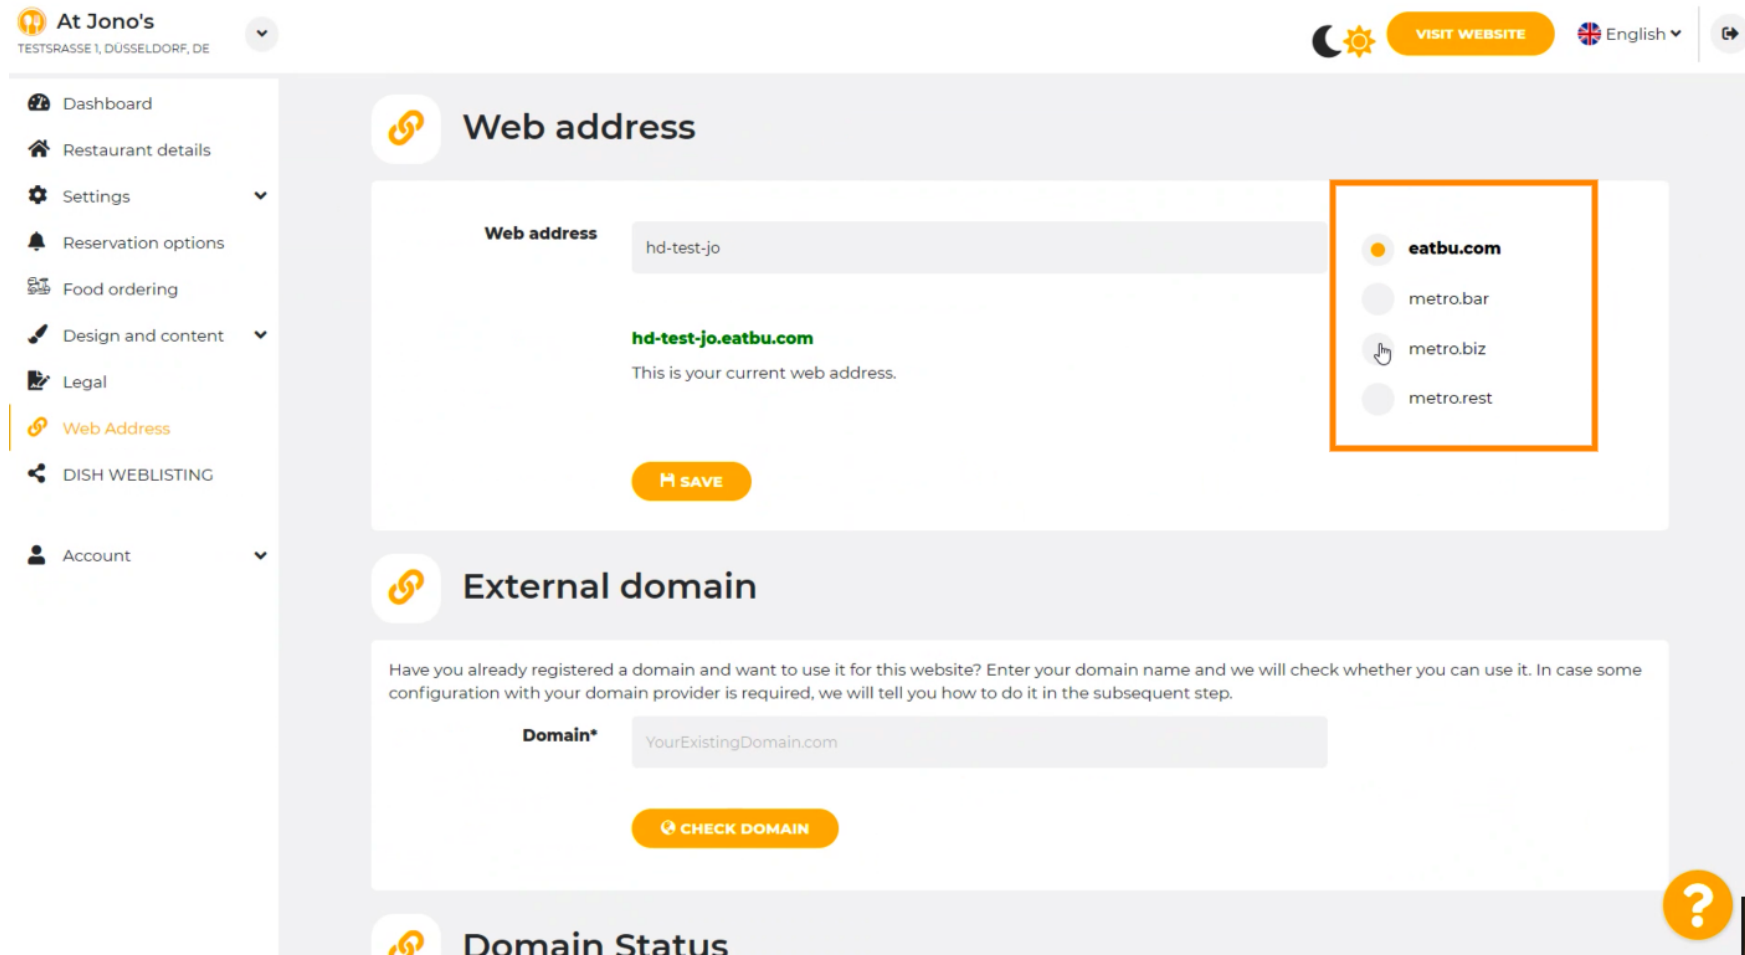

The screenshot displays the 'Web address' configuration page for 'At Jono's'. The page includes a sidebar with navigation options like 'Dashboard', 'Restaurant details', 'Settings', 'Reservation options', 'Food ordering', 'Design and content', 'Legal', 'Web Address', 'DISH WEBLISTING', and 'Account'. The main content area is divided into three sections:

- Web address:** A text input field containing 'hd-test-jo' is highlighted with an orange border. Below it, the current address 'hd-test-jo.eatbu.com' is displayed. To the right, a list of domain options is shown: 'eatbu.com' (selected), 'metro.bar', 'metro.biz', and 'metro.rest'. A 'SAVE' button is located at the bottom of this section.
- External domain:** A section with a heading and a paragraph: 'Have you already registered a domain and want to use it for this website? Enter your domain name and we will check whether you can use it. In case some configuration with your domain provider is required, we will tell you how to do it in the subsequent step.' Below this is a 'Domain\*' input field with the placeholder 'YourExistingDomain.com' and a 'CHECK DOMAIN' button.
- Domain Status:** The beginning of a new section is visible at the bottom.

A question mark icon is present in the bottom right corner of the interface.

Estes são os domínios dentro do DISH.

The screenshot shows the 'Web address' configuration page in the DISH interface. The page is for 'At Jono's' located at 'TESTSRASSE 1, DÜSSELDORF, DE'. The 'Web address' section shows the current address 'hd-test-jo' and a list of available domains: eatbu.com, metro.bar, metro.biz, and metro.rest. The 'eatbu.com' option is selected and highlighted with an orange box. Below this, there is a 'SAVE' button. The 'External domain' section asks if the user has a domain and provides a 'CHECK DOMAIN' button. The 'Domain Status' section is partially visible at the bottom.

Aqui você vê as etapas adicionais que deve concluir na tela de configuração do seu próprio provedor de domínio.

The screenshot shows the 'At Jono's' website management interface. The left sidebar contains navigation options: Dashboard, Restaurant details, Settings, Reservation options, Food ordering, Design and content, Legal, Web Address (highlighted), DISH WEBLISTING, and Account. The main content area displays a red 'CANCEL DOMAIN CONFIGURATION' button at the top. Below it, a blue notification box states: 'domain have not yet been configured. Please follow the adjacent instructions.' The central focus is a large orange-bordered box titled 'How to configure the DNS settings of thejonoribeiro.com'. This box contains a 7-step numbered list:
 

- 1 Login to your domain providers' administration interface using your credentials.
- 2 Open the domain configuration section and see configuration for domain **thejonoribeiro.com**.
- 3 Open DNS settings for domain **thejonoribeiro.com**.
- 4 Enter a new DNS entry or modify an existing one. You can either use a **CNAME** or an **A** record on your domain, either on the domain itself, on its www subdomain or on both. For **CNAME** record: Enter the target address "**website.dev.dish.co**". For **A** record: use the IP address of **website.dev.dish.co: 35.201.75.247** For further details please check your domain provider.
- 5 It can take up to several hours until the changes become active. We will notify you by email once your website is available at **thejonoribeiro.com**.
- 6 For further explanations about specific terms, click [here](#) (glossary)
- 7 Please note: When you use an A Record for your custom domain, please make sure that there is no AAAA record set. If there is an existing AAAA record please remove it before you continue. CAA record: The domain must either have no CAA record at all or it must have one CAA record containing "**0 issue "letsencrypt.org"**". Additional other CAA records may also exist - it is important that one exists that allows Let's Encrypt.

 Below the list, a paragraph reads: 'In case you need further assistance, please contact our support hotline. The following links to the help pages of the top 7 european domain providers might be of help, as well:'. A bulleted list follows:
 

- 1&1
- Strato
- GoDaddy
- Namecheap
- Google
- Netim
- OVH

 The interface also features a top navigation bar with 'At Jono's', location 'TESTSRASSE 1, DÜSSELDORF, DE', a 'VISIT WEBSITE' button, language selection 'English', and a help icon. A question mark icon is visible in the bottom right corner of the screenshot area.
