

Welcome to the second part of **DISH POS Onboarding**, which we have divided in two, easy to follow tutorials. In Part 2 you will configure your Turnover Categories, your Courses and your Tabs. So let's get started.

DISH POS

UK | DISH Restaurant

1 Turnover categories | 2 Courses | 3 Tabs | 4 Article groups | 5 Articles | 6 Option menus

Turnover categories

You can enter the turnover categories that you can use for your administrative management on this page. You can have several sub-categories under one turnover category. The turnover categories and associated subcategories can be adjusted and extended as required.

Main turnover category	Sub-groups
<input type="text" value="Drinks"/>	<ul style="list-style-type: none">Hot Drinks xSodas xJuices xDairy xBeers xWines xSpirits xCocktails xSpecial Coffes xDrinks Misc x
<input type="text" value="Food"/>	<ul style="list-style-type: none">Lunch xAppetisers xMain Courses xDesserts xSnacks & Bites xFood Misc x

[+ Add row](#)

[← Back to the homepage](#) [Previous](#) [Next →](#)

You already have content which has been provided by the template. And here is how you can edit and / or add to that.

The screenshot displays the DISH POS onboarding interface. On the left is a sidebar with navigation options: Project details, Company data (1), Settings (3), Payment (1), Establishment (2), and Articles (6). The main content area features a progress bar at the top with six steps: 1. Turnover categories, 2. Courses, 3. Tabs, 4. Article groups, 5. Articles, and 6. Option menus. The 'Articles' step is currently active. Below the progress bar, the 'Turnover categories' section is titled, followed by an explanatory paragraph: 'You can enter the turnover categories that you can use for your administrative management on this page. You can have several sub-categories under one turnover category. The turnover categories and associated subcategories can be adjusted and extended as required.' The main content area contains a table with two columns: 'Main turnover category' and 'Sub-groups'. The first row shows 'Drinks' as the main category and lists sub-groups: Hot Drinks x, Sodas x, Juices x, Dairy x, Beers x, Wines x, Spirits x, Cocktails x, Special Coffes x, and Drinks Misc x. The second row shows 'Food' as the main category and lists sub-groups: Lunch x, Appetisers x, Main Courses x, Desserts x, Snacks & Bites x, and Food Misc x. A '+ Add row' link is located below the table. At the bottom of the interface, there are navigation buttons: 'Back to the homepage', 'Previous', and 'Next'.

For example, you have a stage, on which you host some special shows occasionally, and charge a ticket price for that. Just **click** on **+ Add row**, enter Show as Main turnover category and Show-names as Sub-groups. Then click on **Next** .

Note: It may also be that you have to deal with a low tax for subsidized articles, a high one for example spirits and zero tax for when selling Gift Cards. Then you can create Drinks High and Drinks Low for example and specify within the Sub-groups.

Now name the course and click on **Next** ->.

The screenshot shows the DISH POS onboarding interface. On the left is a sidebar with navigation options: Project details, Company data (1), Settings (3), Payment (1), Establishment (2), and Articles (6). The 'Articles' option is highlighted in red. At the top right, there is a flag icon and the text 'DISH Restaurant' with a dropdown arrow. Below this is a progress bar with six steps: 1 Turnover categories, 2 Courses (highlighted in red), 3 Tabs, 4 Article groups, 5 Articles, and 6 Option menus. The main content area is titled 'Courses' and contains the following text: 'Courses are used to classify dishes or drinks in order of preparation and service. The order below is a standard order as it will be printed on the receipt. You can change, move or delete them as you wish.' Below the text is a list of course categories: 'Appetisers', 'Main Courses', 'Desserts', and 'Cheese Course'. The 'Cheese Course' entry is highlighted with an orange border. Below the list is a '+ Add row' link. At the bottom left, there is a '← Back to the homepage' link. At the bottom right, there are 'Previous' and 'Next →' buttons, with the 'Next' button being highlighted in orange.

You can also rearrange the courses to your liking. Just **drag** the box from the three dots to the position you want, and then **drop** it there.

[← Back to the homepage](#) [Previous](#) [Next →](#)

Click on **Next**.

The screenshot displays the DISH POS onboarding interface. On the left is a vertical sidebar with the following menu items: Project details, Company data (1), Settings (3), Payment (1), Establishment (2), and Articles (6). The 'Articles' item is highlighted in red. At the top right, there is a flag icon and the text 'DISH Restaurant' with a dropdown arrow. Below this is a progress indicator with six numbered steps: 1 Turnover categories, 2 Courses (highlighted in red), 3 Tabs, 4 Article groups, 5 Articles, and 6 Option menus. The main content area is titled 'Courses' and contains the following text: 'Courses are used to classify dishes or drinks in order of preparation and service. The order below is a standard order as it will be printed on the receipt. You can change, move or delete them as you wish.' Below the text is a list of course categories in input fields: 'Appetisers', 'Cheese Course', 'Desserts', and 'Main Courses'. A '+ Add row' link is positioned below the 'Main Courses' field. At the bottom left, there is a '← Back to the homepage' link. At the bottom right, there is a 'Previous' link and a 'Next →' button, which is highlighted with an orange border.

The **Tabs** are within the **DISH POS App** and help you sort your articles, in order for you to find them fast and easy. To see an example, click on **Show more**.

The screenshot shows the DISH POS interface. At the top, there is a navigation bar with the DISH POS logo on the left and a flag icon with 'DISH Restaurant' on the right. Below the logo is a progress indicator with six steps: 1. Turnover categories, 2. Courses, 3. Tabs (highlighted in red), 4. Article groups, 5. Articles, and 6. Option menus. On the left side, there is a sidebar menu with categories: Project details, Company data (1), Settings (3), Payment (1), Establishment (2), and Articles (6, highlighted in red). The main content area is titled 'Tabs' and contains a paragraph explaining that the application has different tabs for switching between groups of articles. Below the text is a 'Show more' button, which is highlighted with an orange border. Underneath are three input fields containing the text 'Drinks', 'Food', and 'Other'. At the bottom of the main area is a '+ Add row' link. At the bottom of the page, there are navigation buttons: 'Back to the homepage' on the left and 'Previous' and 'Next' on the right, with 'Next' being a yellow button with a right arrow.

Here you can see an example in which you have the "DRINKS, FOOD & OTHER" tabs. Click on **Understood**, to close this pop-up.

The screenshot shows the DISH POS interface with a 'Tabs' configuration pop-up. The pop-up has a header with three tabs: 'DRINKS' (highlighted), 'FOOD', and 'OTHER'. Below the header is a table of items:

Price	Price	Item	Item
3.20	3.20	Hot Drinks	Special Coffees
2.90	2.90	Tap Beers	Whiskey
2.90	2.90	Grosch Pilsner	Ballantines

Below the table, there is a section titled 'Tabs' with the following text: 'In the application, you can create several tabs to classify groups of items. The example above shows that the pages Drinks, Dishes, Other and Popular have been configured as a tab.' At the bottom right of the pop-up, there is a button labeled 'Understood'.

For example, if your establishment has a stand-up comedy show, and you sell tickets on a regular basis, the Tab would be a great way to sort them in. Click on **+ Add row** and enter the description.
