Log in

Once logged in, scroll down to the location of the template area.

The screenshot shows the DISH POS onboarding interface. On the left is a sidebar menu with the following items: Project details (highlighted in orange), Company data (1), Settings (3), Payment (1), Establishment (2), and Articles (6). The main content area is titled "Welcome DISH Restaurant" and contains the following text:

The future is in your hands with your DISH POS cash register system! This DISH POS welcome process is the first step towards efficiency with ease of use for your employees and an optimal experience for your customers. During this welcome process, we will ask you to fill in some data about your establishment. We need this information to successfully install your cash register software.

Once you have filled in the requested information, you can click on "Next" at the bottom right to go to the next page. Do you want to go back to the previous page? Then click on "Back" at the bottom left. When you have completed all the pages, you can submit the data by clicking "Finish" on the last page. All data is saved as you fill it in, as soon as you move to the next or previous page. If you leave the session halfway through, you can pick up where you left off whenever you want.

Once sent, the data entered will be verified and the delivery appointment will be confirmed.

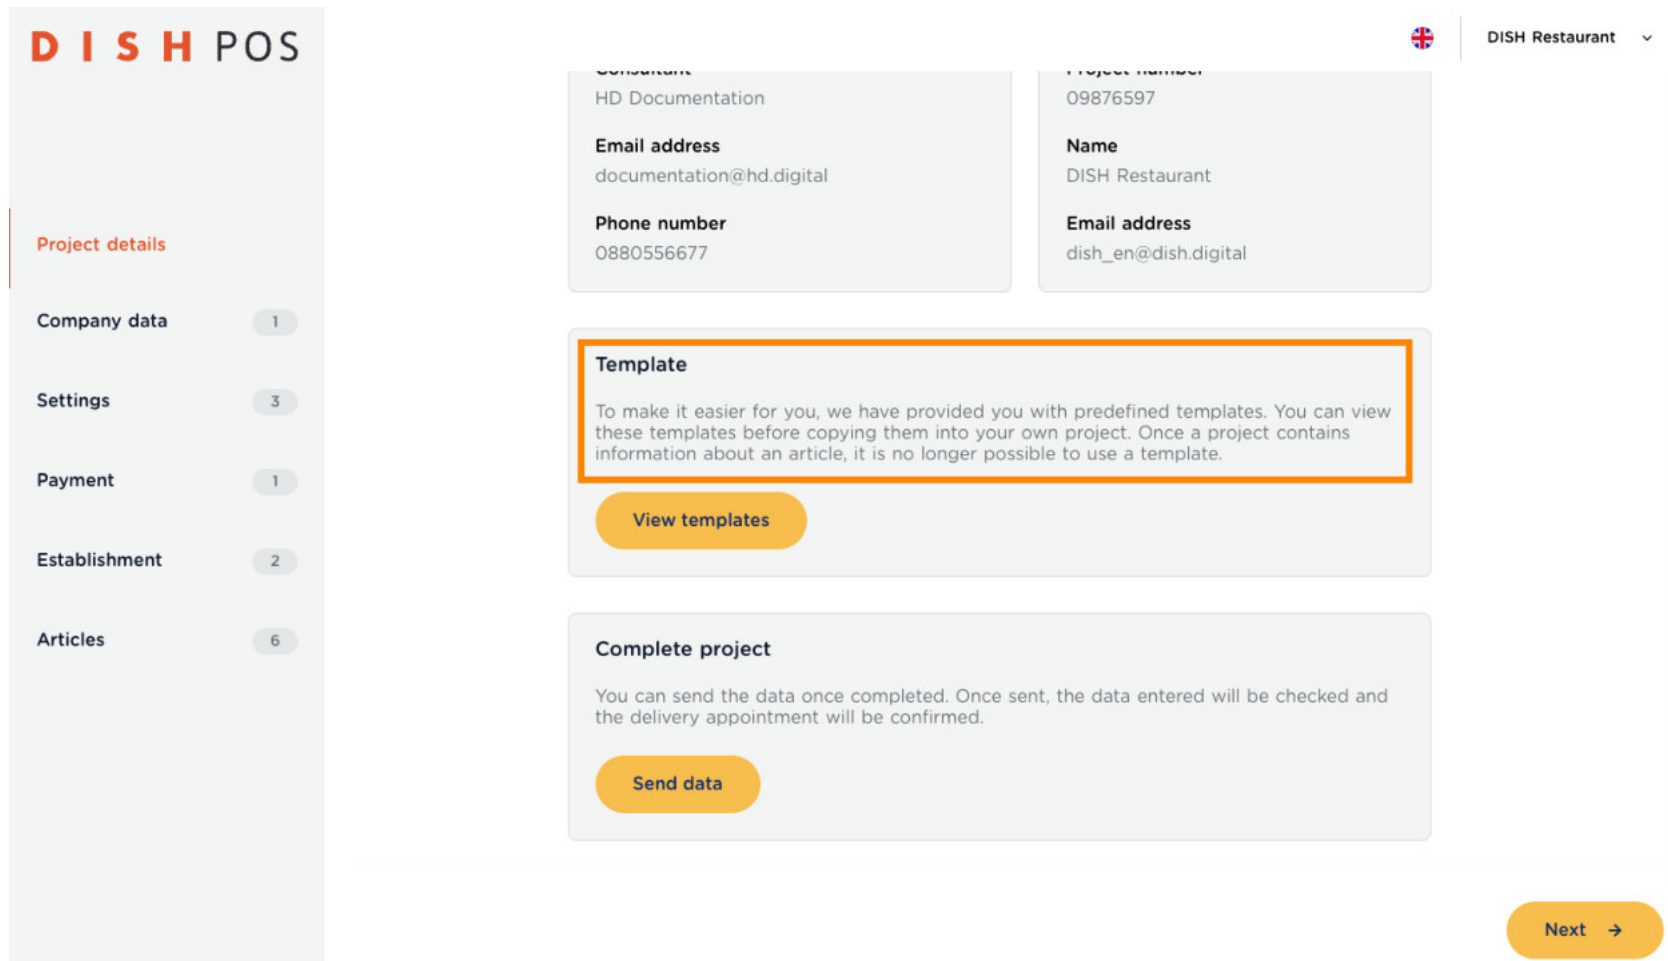

Below the text are two data entry boxes:

- Project consultant**
  - Consultant: HD Documentation
  - Email address: [empty field]
- Project details**
  - Project number: 09876597
  - Name: [empty field]

At the bottom right, there is a yellow "Next" button with a right-pointing arrow. A vertical orange scroll bar is visible on the right side of the page, indicating the current scroll position.

Before doing anything else, please **read this text** carefully. **Note: Once this step has been skipped and a change has been made, the template will not be available.**

The screenshot shows the DISH POS onboarding interface. On the left is a sidebar with the following menu items: Project details (highlighted), Company data (1), Settings (3), Payment (1), Establishment (2), and Articles (6). The main content area is titled 'DISH Restaurant' and contains several sections:

- Company data:** HD Documentation, Email address: documentation@hd.digital, Phone number: 0880556677.
- Project details:** Project number: 09876597, Name: DISH Restaurant, Email address: dish\_en@dish.digital.
- Template:** A section with an orange border containing the text: "To make it easier for you, we have provided you with predefined templates. You can view these templates before copying them into your own project. Once a project contains information about an article, it is no longer possible to use a template." Below this text is a yellow button labeled "View templates".
- Complete project:** A section with the text: "You can send the data once completed. Once sent, the data entered will be checked and the delivery appointment will be confirmed." Below this text is a yellow button labeled "Send data".

At the bottom right of the interface is a yellow button labeled "Next →".

 DISH Restaurant v

### Table series

In DISH POS you can work with different fields and corresponding table series. A table series always consists of consecutive table numbers. Please fill in the names of the different areas and the corresponding table series below. With the table series, you can create a seating plan for each area.

We recommend that you do not make the areas too large. Otherwise, you will have to scroll through a lot of pages on your tool when placing an order.

*Are you using individual tables, for example 110, 120 and 130? If so, please contact your installation training representative.*

Areas	Table series (can contain up to 100 tables)		
<input type="text" value="big guest room"/>	<input type="text" value="1"/>	up to and including	<input type="text" value="20"/>
<input type="text" value="VIP room"/>	<input type="text" value="101"/>	up to and including	<input type="text" value="108"/>
<input type="text" value="main room"/>	<input type="text" value="200"/>	up to and including	<input type="text" value="215"/>
<input type="text" value="main room"/>	<input type="text" value="216"/>	up to and including	<input type="text" value="230"/>
<input type="text" value="main room"/>	<input type="text" value="231"/>	up to and including	<input type="text" value="270"/>
