### Printers (2 printers)

Search Show 50 Records + Add printer

ID	Name	Logical name	Driver	Network address	Alternative printer in case of error	Duplicate printer
#1	BAR PRINTER	BARPRINTER	EPSON TMT-88 GROOT zonder b	192.168.178.211:9100		
#2	KITCHEN PRINTER	KITCHENPRINTER	EPSON TMT-88 GROOT zonder b	192.168.178.212:9100		

1

Click on the dropdown for Driver.

The screenshot shows the 'Edit printer' configuration window in the DISH POS system. The window title is 'Printer' and it includes a 'CLOSE' button in the top right corner. The 'Name' field is set to 'KITCHEN PRINTER'. Under the 'Settings' section, the 'Logical name' is 'KITCHENPRINTER' and the 'Network address' is '192.168.178.212:9100'. The 'Driver' field is a dropdown menu currently displaying 'EPSON TMT-88 GROOT zonder beeper', which is highlighted with an orange border. Below this are several checkboxes for printer options: 'Is coop printer', 'Connected customer display', 'Ticket printer', 'Print move ticket', and 'Only generate ESCPOS code'. There are also dropdown menus for 'Alternative printer in case of error' and 'Duplicate printer'. The 'Logo filename' field is empty. Under the 'Identification' section, the 'Your reference' field is empty and the 'ID' field contains the value '2'. A 'Save' button is located at the bottom right of the window.

Select the **EPSON TMT-88 GROOT** driver. Note: The "zonder beeper" means without beeper, to prevent a cash drawer opening up when your kitchen printer is also your receipt printer.

The screenshot shows the DISH POS v2.89.0 interface. On the left is a sidebar menu with options: Dashboard, Articles, Finance, General, Production stations, Facilities, Cash stores, Printers, App links, Table map, Users, User groups, POS devices, Courses, Customers, Currency, Turnover categories, Customer displays, Translations, Packaging profiles, External integrations, and Scan services. The 'Printers' menu item is selected. On the right, the 'Edit printer' window is open, showing a printer icon and the label 'Printer'.

The screenshot shows the 'Printer' settings form. The 'Name' field is 'KITCHEN PRINTER'. Under 'Settings', the 'Logical name' is 'KITCHENPRINTER'. The 'Driver' dropdown menu is open, showing a list of options: EPSON JOURNAAL, EPSON TMT-m30, EPSON TMT-88IV, EPSON TMT-88 GROOT (highlighted with an orange border), EPSON TMT-88 GROOT zonder beeper (highlighted with an orange background), and EPSON TMT-m30 beeper. Other settings include 'Is coop printer', 'Connected customer display', 'Ticket printer', 'Print move ticket', and 'Only generate ESCPOS code'. There are also fields for 'Alternative printer in case of error', 'Duplicate printer', and 'Logo filename'. Under 'Identification', there is a 'Your reference' field and an 'ID' field with the value '2'. A 'Save' button is located at the bottom right.

Click on **Save**.
