

Identify real-life connections between words and their use.

Make Connections

1. Create word cards using the words below.
2. Draw a word card and read it to the students. Have them race to create a sentence using the word.
3. The first student to create a sentence gets to keep the card.
(The student's sentence must show they understand the meaning of the word and can make a connection to real life.)
4. Repeat with other word cards. The student with the most cards wins the game.
