

Identify real-life connections between words and their use.

## Making Connections

### Word Card Activity

Prepare word cards from the words listed here. Work with a group of 3-5 students.

Students need to come up with a sentence using the word from the card that shows they understand the meaning of the word and can make a connection to real life.

The first student to come up with a sentence gets to keep the card. The student with the most cards wins the game.

### Word List
