## No Internet? Check APN settings

User name: [leave this field blank]  
Password: [leave this field blank]
- 3 Restart your phone
- 4 If it's still not working, try the SIM in another phone to see if it'll work there.

## How do I check my balance?

You can find how much data you've used in your [phone settings \(/article/dy2qj1918r-how-to-keep-track-of-your-data-usage-from-your-phone-settings\)](/article/dy2qj1918r-how-to-keep-track-of-your-data-usage-from-your-phone-settings)!

If you're using a wifi device, unfortunately there's no way to check your usage.

## How do I recharge?

As described on the website, the SIM is non-rechargeable. The only way around this is to buy multiple SIM cards and swap them out as you go.

## What's my phone number?

This SIM is **data-only** so it doesn't come with a phone number! The SIM cannot make or receive calls and texts!
