To translate the page click on the EN that is circled in red and then follow the prompts for registration.

Troubleshooting

My data isn't working:

If you've just activated your eSIM

If you've just activated your eSIM and you've got a signal, you might need to check a couple of things to get your data working.

- 1 Check that you have [Data Roaming](https://simsdirect.helpdocs.io/article/en4xz69tdn-turning-on-data-roaming) (<https://simsdirect.helpdocs.io/article/en4xz69tdn-turning-on-data-roaming>) & Mobile Data turned on in your Settings.
- 2 Make sure that you have changed your [APN settings](https://simsdirect.helpdocs.io/article/p53og0pk13-changing-your-apn-settings) (<https://simsdirect.helpdocs.io/article/p53og0pk13-changing-your-apn-settings>) to match the following:

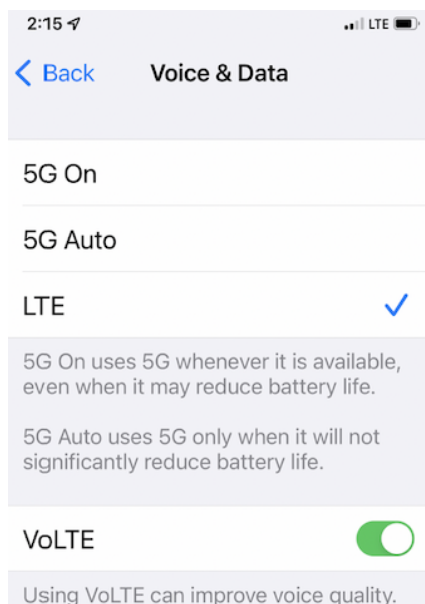

Name: 3gnet

APN: 3gnet

User name: [leave this field blank]

Password: [leave this field blank]

- 3 Restart your phone
- 4 If that is still not working check your phone settings to see if there is an LTE option and select that.

If you've been using your eSIM but suddenly your data has stopped working

- 1 Check that you have data balance left
- 2 Try turning your device off and on
- 3 If your phone says it's connected to LTE or 4G but the data isn't working, try to manually turn off LTE/4G to connect to 4G/3G.

Apple:

Settings > Mobile > Mobile data options > Disable LTE > Restart

Android:

Settings > Connections > Mobile Networks > Network Mode > Switch to 3G/2G > Restart

It might look different depending on your device! If these instructions don't match exactly, explore your settings until you find **Network Mode**

I've tried everything and it's still not working

How do I find my mobile number?

This eSIM is **data-only** so it doesn't come with a phone number! The eSIM cannot make or receive calls and texts!

How do I check my balance?

You can find how much data you've used in your [phone settings](https://simsdirect.helpdocs.io/article/dy2qi1918r-how-to-keep-track-of-your-data-usage-from-your-phone-settings) (<https://simsdirect.helpdocs.io/article/dy2qi1918r-how-to-keep-track-of-your-data-usage-from-your-phone-settings>).!

If you're using a wifi device, unfortunately, there's no way to check your usage.

How do I recharge?

As described on the website, the eSIM is non-rechargeable. The only way around this is to buy multiple eSIMs and swap them out as you go.

What's Included & Things to know

- | | |
|--|---|
| <ul style="list-style-type: none">• 20GB of data• 4G data speeds• 30 days of usage once activated• Hotspot/tethering enabled | <ul style="list-style-type: none">• Simple plug & play activation• No calls or texts included (data only SIM)• Works in eSIM compatible devices• No recharges available - this is a one-time use SIM |
|--|---|

How do I know if my device is unlocked?

If you bought your device outright, it's most likely unlocked!

If you're unsure, the best way to find out is to call your Aussie network provider and ask! They'll be able to unlock it for you too. This might incur a fee! 🙄
