# 2 CEPHEO BUILD 8.1.20181017.1

## 2.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information CEPHEO Shipping Packaging Management

| Build | Release Date |
|---|---|
| **8.1.20181017.1** | October 22 - 2018 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 8.1 | - | What's new or changed in Finance and Operations apps version 10.0.5 (October 2019) |
| Platform | Platform Update 20 | - | What's new or changed in Platform update 29 for Finance and Operations apps (October 2019) |

## 2.2 Changed

| Functionality | Description |
|---|---|
| Registering against a business relation didn't show as 'Returnable' *[16011]* | When shipping packaging is registered against a customer, vendor, or carrier only, and not an order reference this always results in it being a 'Returnable' posting type as this is the only type that *can be* balanced against the business relation/Carrier where no order lines are created. This was not obvious as the 'Packaging type' (how it is posted inventory-wise) was not visible, this has been changed. We now also show an error message if you try to register packaging of type ‘Pool’ or ‘Disposable’ against a customer or vendor alone. Packaging of type ‘Invoiceable’ will be allowed but will be posted as a Returnable and thus expected to be returned to or from us.<br> |

## 2.3 Known Issues

| Number | Name | Description |
|---|---|---|
| n/a | | |

# 3 CEPHEO BUILD 8.1.20181122.3

## 3.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information CEPHEO Shipping Packaging Management

| Build | Release Date |
|---|---|
| **8.1.20181122.3** | November 23 - 2018 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 8.1 | - | What's new or changed in Finance and Operations apps version 10.0.5 (October 2019) |
| Platform | Platform Update 20 | - | What's new or changed in Platform update 29 for Finance and Operations apps (October 2019) |

## 3.2 Changed

| Functionality | Description |
|---|---|
| Section Calculated packaging now holds and add/remove buttons | When carrying out a packing slip update (actual or proforma) you are shown an ADD and REMOVE button, that allows you to remove one or more of the calculated packaging or add one if needed:<br>  <br>This new functionality has been added on the form Packing slip posting activated from both purchase orders and Sales orders. |
| Note for Shipping Packaging information | Due to a change in how sales order packing slips and proforma packing slips are created in standard, the note containing the shipping packaging related to the update were no longer shown, this has now been changed to, once again, show the shipping packaging contained in current update + the expected returnable at the customer/carrier. |

## 3.3 Known Issues

| Number | Name | Description |
|---|---|---|
| n/a | | |

# 4 CEPHEO BUILD 10.0.20190804.1

## 4.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information CEPHEO Shipping Packaging Management

| Build | Release Date |
|---|---|
| **10.0.20190804.1** | August 15 - 2019 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.4 | - | What's new or changed in Finance and Operations apps version 10.0.5 (October 2019) |
| Platform | Platform Update 28 | - | What's new or changed in Platform update 29 for Finance and Operations apps (October 2019) |

## 4.2 Changed

| Functionality | Description |
|---|---|
| Posted qty is wrong when Sales/Purchase Unit is different from Inventory unit *[34928]* | When setting up the SPM structure for a product, this is done in the Inventory unit.<br>If a 'sales/purchased' product is setup to be able to use several different Unit of measures and the sales/purchase unit is different from the Inventory unit the calculated qty in the fact box is correct, but when the update of the packing slip occurs, the incorrect UoM is used making the posted Invoiceable line that is added to the sales/purchase order wrong – This has been fixed. |

## 4.3 Known Issues

| Number | Name | Description |

# 5 CEPHEO BUILD 10.0.20191002.2

## 5.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information CEPHEO Shipping Packaging Management

| Build | Release Date |
|---|---|
| **10.0.20191002.2** | October 4 - 2019 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.4 | - | What's new or changed in Finance and Operations apps version 10.0.5 (October 2019) |
| Platform | Platform Update 28 | - | What's new or changed in Platform update 29 for Finance and Operations apps (October 2019) |

## 5.2 Changed

| Functionality | Description |
|---|---|
| Error in packing slip update on purchase order, when two or more lines for invoicing, with different qty's, are created *[36578]* | For invoiceable Shipping packaging lines there was an error when multiple products triggered SPM records where the qty's were different due to setup on purchased/sold product – This was due to a data buffer not being cleared and has now been fixed |

## 5.3 Known Issues

# 6 CEPHEO BUILD 10.0.20200423.1

## 6.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information CEPHEO Shipping Packaging Management

| Build | Release Date |
|---|---|
| **10.0.20200423.1** | April 23, 2020 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.10 | - | What's new or changed in Finance and Operations apps version 10.0.10 (April 2020) |
| Platform | Platform Update 34 | - | What's new or changed in Platform update 34 for Finance and Operations apps |

## 6.2 Changed

| Functionality | Description |
|---|---|
| SPM: Move fields from obsoleted WHSMobileMenuItems entity (V2) to current (V3) *[41725]* | The standard data entity 'WHSWarehouseMobileDeviceMenuItemV2Entity' we had extended on for the fields we have added to the form Mobile device menu items has been obsoleted by Microsoft. With this update we have moved our extended fields to the new version of the data entity called ‘'WHSWarehouseMobileDeviceMenuItemV3Entity'. The obsoleted fields on the old version will be part of the update for 1 release cycle but are marked as ‘Obsolete’ in the code |

## 6.3 Known Issues

# 7 CEPHEO BUILD 10.0.20200921.1

## 7.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information CEPHEO Shipping Packaging Management

| Build | Release Date |
|---|---|
| **10.0.20200921.1** | September 21, 2020 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.10 | - | What's new or changed in Finance and Operations apps version 10.0.10 (April 2020) |
| Platform | Platform Update 34 | - | What's new or changed in Platform update 34 for Finance and Operations apps |

## 7.2 Changed

| Functionality | Description |
|---|---|
| Fix License Manager localizations for IDB and SPM (44821) | After switch to use the CEPHEO license manager to manage all licenses for CEPHEO IP a warning text was shown on 2 of the modules when the user's language was different from US-EN. The warning has no impact on the functionality but is a nuisance only – The bug has been fixed with this release. |

## 7.3 Known Issues

# 8 CEPHEO BUILD 10.0.20210617.1

## 8.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20210617.1** | June 22, 2021 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.17 | - | What's new or changed in Finance and Operations apps version 10.0.17 (April 2021) |
| Platform | Platform Update 41 | 7.0.5934.35741 | What's new or changed in Platform update 41 for Finance and Operations apps (April 2021) |

## 8.2 Changed

| Functionality | Description |
|---|---|
| License Manager updated | The CEPHEO license manager is a tool that enables CEPHEO to create, allocate and control licenses for CEPHEO IP in a smoother way utilizing newer technology such as Power app. |

## 8.3 Changed

| Functionality | Description |
|---|---|
| Moved to new version | When releasing a module, we always make sure to develop on the 'lowest' version that any of our customers currently are on. This is for CEPHEO Shipping packaging management version 10.0.17. Note that all releases always are validated against the *latest current* version as well. |

## 8.4 Known Issues

# 9 CEPHEO BUILD 10.0.20210923.1

## 9.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20210923.1** | September 24, 2021 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.17 | - | What's new or changed in Finance and Operations apps version 10.0.17 (April 2021) |
| Platform | Platform Update 41 | 7.0.5934.35741 | What's new or changed in Platform update 41 for Finance and Operations apps (April 2021) |

## 9.2 New

| Functionality | Description |
|---|---|
| IC/Direct delivery features (48767) | To enable using CEPHEO Shipping packaging management features on intra/Intercompany orders with direct delivery, new functionality has been added in this update.<br>Note: Direct delivery orders are only possible in non-warehouse enabled warehouses, this feature doesn't change this standard limitation. |

## 9.3 Known Issues

# 10 CEPHEO BUILD 10.0.20211105.1

## 10.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20211105.1** | November 16, 2021 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.17 | - | What's new or changed in Finance and Operations apps version 10.0.17 (April 2021) |
| Platform | Platform Update 41 | 7.0.5934.35741 | What's new or changed in Platform update 41 for Finance and Operations apps (April 2021) |

## 10.2 New

| Functionality | Description |
|---|---|
| SPM: Automatic packaging posting on packing slip multi-updates and from WHS app. (50340) | With this update it is possible to perform multi updates (packing slip/shipping note) for several purchase/sales orders while using Shipping packaging management.<br>The updated packaging ID's and quantities are posted on a shipping note for each order individually. The multi update function is possible from sales/purchase orders incl. periodic jobs as well as from WHS loads.<br>Created date/time information has been activated for Shipping note - shipping packaging, in the table EGLSPMShippingNoteTable |

## 10.3 Known Issues

# 11 CEPHEO BUILD 10.0.20220307.1

## 11.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20220307.1** | March 21, 2022 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.17 | - | What's new or changed in Finance and Operations apps version 10.0.17 (April 2021) |
| Platform | Platform Update 41 | 7.0.5934.35741 | What's new or changed in Platform update 41 for Finance and Operations apps (April 2021) |

## 11.2 New

| Functionality | Description |
|---|---|
| SPM: Modelling of packaging requirements (51741) | A new advanced packaging calculation is introduced enabling creation of more complex shipping packaging settings, as well as a new form "Packaging simulation", to simulate packaging calculations. With this new feature you can define packing parts ‘3-dimensionally’ e.g., sides, fronts, tops, backs and corner posts for e.g., a trolley. It is also possible to define a ‘stacking’ principle e.g., a pallet with x-number of layers if filling it with one box, a different number of layers if filling it with another box and combinations hereof. To accommodate an easier setup using this new advanced setup, a new simulation form has been added that will show you all components in a setup before using it on an order. |

## 11.3 Known Issues

| Number | Name | Description |

# 12 CEPHEO BUILD 10.0.20220328.1

## 12.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20220328.1** | March 28, 2022 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.17 | - | What's new or changed in Finance and Operations apps version 10.0.17 (April 2021) |
| Platform | Platform Update 41 | 7.0.5934.35741 | What's new or changed in Platform update 41 for Finance and Operations apps (April 2021) |

## 12.2 Fixed

| Functionality | Description |
|---|---|
| SPM: Remove double packaging calculation for "classical" setup on purchase packing slip update (53019) | A calculation error was introduced which the previous release (10.0.20220307.1) when using the ‘classic’ setup for purchase receipts, the packaging materials for inbound was calculated twice, this has been fixed. |

# 13 CEPHEO BUILD 10.0.20220601.3

## 13.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20220601.3** | June 7th, 2022 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.17 | - | What's new or changed in Finance and Operations apps version 10.0.17 (April 2021) |
| Platform | Platform Update 41 | 7.0.5934.35741 | What's new or changed in Platform update 41 for Finance and Operations apps (April 2021) |

## 13.2 New

| Functionality | Description |
|---|---|
| SPM: Add on hand packaging shortlist to outbound processes for cust/vend/carrier, when registering packaging in the WHS app (53856) | When shipping packaging is used for inbound processes on a purchase order or outbound for a sales order and you are using the warehousing app to register packaging received/used, you are shown a 'shortlist' based on the packaging Id's used on the orders. This functionality has been extended to work the same way when using returns (outbound purchase/vendor or inbound sales/customer), for carrier you are shown the packaging on the warehouse used to represent the carrier. |

## 13.3 New

| Functionality | Description |
|---|---|
| SPM: SPM: Entity to provide information for Pool transactions (53853) | When shipping packaging is used with type 'POOL' a job is available to generate pool transactions for sales orders in the format used on Pool provider 'CHEP'. If other providers are used, we have now added a new data entity 'EGLSPMPackagingPoolTransactionSalesVievEntity' to enable extracting the data to upload to the pool provider using Excel, Flow or Power apps- NOTE: The entity is not based on one or more tables and is therefore not visible in the data entity list. |

# 14 CEPHEO BUILD 10.0.20220922.1

## 14.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20220922.1** | September 22, 2022 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.24 | - | What's new or changed in Finance and Operations apps version 10.0.24 |
| Platform | Platform Update 48 | 7.0.6253.76 | What's new or changed in Platform update 48 for Finance and Operations apps |

## 14.2 New

| Functionality | Description |
|---|---|
| SPM: Packaging utilization feature (53927) | A new set of fact boxes has been added to various order forms (Purchase orders, Sales orders, Shipments, Loads and Transfers). These can be used to give an overview of how much the orders utilize in e.g., pallet spaces of an individual order, a shipment, or an entire load. Additionally, a new form Packaging quantity filter can provide the overview per type, area, and calculation type. |

## 14.3 New

| Functionality | Description |
|---|---|
| SPM: Posting of Packaging material when using transfer order or transfer journal (54104) | The SPM functionality has been extended to enable use when receiving transfer orders or when using transfer journals. A new number sequence has been added for: Packaging shipping note id, transfer order, and a new parameter governs the posting (automated or not) for shipping packaging transactions on Transfer orders.<br>On the form Warehouses/addresses you need to setup the packaging groups that is linked to the address of the warehouse, this together with the setup on the product(s) will trigger a calculation, that can be posted (automatically or manually) upon receiving the shipped goods and the packaging used. |

© 2023 Cepheo. All Rights reserved

## 14.4 Changed

| Functionality | Description |
|---|---|
| SPM: Extend the PackagingId field to 30 characters (55116) | The fields "Packaging ID" and "Contents" have been extended from 10 characters to 30 characters. Allowing for longer packaging ID's to be used.<br><br>Please note that this change has been implemented on the extended datatypes "EGLSPMPackagingId" and "EGLSPMItemPackagingRelation".<br>Furthermore, the extended datatype "EGLSPMPackagingId" no longer extends from the EDT "SysGroup".<br><br>**NOTE: IF YOU HAVE IMPLEMENTED CUSTOMIZATIONS TO YOUR INSTALLATION, MAKING THE ABOVE-MENTIONED FIELDS *LONGER* THAN 30 CHARACTERS, YOU WILL NEED TO UPDATE YOUR CUSTOM CODE IN ORDER TO PREVENT YOUR DATA FROM BEING TRUNCATED, BEFORE INSTALLING THIS UPDATE!!"** |

## 14.5 Fixed

| Functionality | Description |
|---|---|
| SPM: 'Settle packaging' function on customer addresses doesn't generate order lines (55223) | The function 'Settle packaging' on customer addresses was no longer generating sales order lines – This has been fixed. |

© 2023 Cepheo. All Rights reserved

# 15 CEPHEO BUILD 10.0.20221005.1

## 15.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20221005.1** | October 6, 2022 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.24 | - | What's new or changed in Finance and Operations apps version 10.0.24 |
| Platform | Platform Update 48 | 7.0.6253.76 | What's new or changed in Platform update 48 for Finance and Operations apps |

## 15.2 New

| Functionality | Description |
|---|---|
| SPM: Sales-/Purchunit specific setup of packaging for items (55082) | The option for creating packaging setups that are specific to a purchase/sales/transfer unit is introduced.<br>Transfer orders and Transfer journals now have a new field "Packaging unit" to enable correct setup selection of unit of measure for transfers. |

# 21 CEPHEO BUILD 10.0.20230322.1

## 21.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20230322.1** | March 23, 2023 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.24 | - | What's new or changed in Finance and Operations apps version 10.0.24 |
| Platform | Platform Update 48 | 7.0.6253.76 | What's new or changed in Platform update 48 for Finance and Operations apps |

## 21.2 New

| Functionality | Description |
|---|---|
| SPM: Enable packaing for purchase order credit notes (57603) | Packaging has now been enabled for purchase order returns as well (credit notes) + a new parameter for autocalculation for this process. Besides adding the functionality, we have corrected a bug that was shown to the user if a (purchase) creditnote was created where the vendor shared an ID (in global address book) with a customer account. |

# 23 CEPHEO BUILD 10.0.20230614.1

## 23.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20230614.1** | June 15th, 2023 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.30 | - | What's new or changed in Finance and Operations apps version 10.0.30 |
| Platform | Platform Update 54 | 7.0.6592.134 | What's new or changed in Platform update 54 for Finance and Operations apps |

## 23.2 Changed

| Functionality | Description |
|---|---|
| SPM: Cost amounts in InventTransferJournal (58356) | When posting shipping packaging against a purchase-, sales' or transfer order, we are using Inventory transfer journals to post between 'our own' warehouse and the warehouse representing the vendor/carrier or customer. In these transactions the cost amount was calculated incorrectly, this has been fixed. |

# 24 CEPHEO BUILD 10.0.20230815.1

## 24.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20230815.1** | August 15, 2023 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.30 | - | What's new or changed in Finance and Operations apps version 10.0.30 |
| Platform | Platform Update 54 | 7.0.6592.134 | What's new or changed in Platform update 54 for Finance and Operations apps |

## 24.2 Changed

| Functionality | Description |
|---|---|
| SPM: SPM: Refactor shipping packaging notes on SalesPackingslip (58824) | An error was shown when trying to create a sales order pro-forma packing slip, this has been changed. |

© 2023 Cepheo. All Rights reserved

# 25 CEPHEO BUILD 10.0.20230825.1

## 25.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20230825.1** | August 30, 2023 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.30 | - | What's new or changed in Finance and Operations apps version 10.0.30 |
| Platform | Platform Update 54 | 7.0.6592.134 | What's new or changed in Platform update 54 for Finance and Operations apps |

## 25.2 Changed

| Functionality | Description |
|---|---|
| SPM: Qty's displayed on return orders are not correct (58461) | When handling sales order returns (RMA orders) where shipping packaging is used, there are 2 qty's on the order line: 'Return qty' (the qty on the RMA orderline) and 'Qty returned' (the qty actually being registered as received on the RMA order line), the last qty is what we are using to calculate the shipping packaging qty used, these 2 qty's were not always updated correctly, this has been changed. |

## 25.3 New

| Functionality | Description |
|---|---|
| SPM: Making corrections (positive) to posted packaging on RMA orders | When posting *invoiceable* packaging on a return order, SPM is creating and posting a new RMA order line, with a negative qty, but if you wanted to correct a wrongly posted qty afterwards, it wasn't possible to create a *positive* qty-line, this has been made possible now. This is supported by the addition of a new parameter, that needs a disposition code of the action type 'Return to customer', the field can be found in a new Return order tab in the SPM parameters form.<br><br>The data entity 'EGLSPMShippingPackagingManagementParametersEntity' has been updated to include the new parameter field (CORRECTIONRETURNDISPOSITIONCODEID). |

# 26 CEPHEO BUILD 10.0.20231008.1

## 26.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20231008.1** | October 10, 2023 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.33 | - | What's new or changed in Finance and Operations apps version 10.0.33 |
| Platform | Platform Update 57 | 7.0.6861.30 | What's new or changed in Platform update 57 for Finance and Operations apps |

## 26.2 Changed

| Functionality | Description |
|---|---|
| SPM: Packaging qty's calculated are not correct when different salesunits are used (59103) | When handling sales order returns (RMA orders) where shipping packaging is used and the item is setup with a sales unit of measure, that differs from the Inventory unit of measure, the calculated qty's shown in the fact boxes where incorrect, this has been changed. |

## 26.3 New

| Functionality | Description |
|---|---|
| SPM: Investigate Direct delivery/Inherit on sales orders (58747) | We have re-configerered the way shipping packaging is inherited and posted on Direct delivery intercompany orders (SO→ IC PO → IC SO with transfer of delivery address from origin SO to IC SO) and made changes to how the various types are posted to accommodate different setups, so a packaing ID can be posted as one type in the origin company and another in the IC company.<br>We have also added a new parameter 'Exclude "Pool"-type packaging from DD/IC inheritance'. This parameter ca be used in a company where you have marked for 'Inherit' (in the origin company) so that packaging ID's and qtys are inherited from the *delivering* company back to the origin company, excluding 'POOL' transactions, as they should be reported by the delivering company only.<br><br>The new parameter field has been added to the data entity 'EGLSPMShippingPackagingManagementParametersEntity'. |

© 2023 Cepheo. All Rights reserved

## 26.4 New

| Functionality | Description |
|---|---|
| SPM: Selling (empty) packaging items as well as posting the usage of it on an order | We have extended the SPM capabilities to allow orders where the items, that are linked to a packaging types, are both registered as used shipping packaging and sold as an individual order line, which has been requested by customers. The items should still be setup as stocked items, but we have changed the ways ‘packaging triggered’ order lines are identified to accommodate this process. |

# 27 CEPHEO BUILD 10.0.20240111.1

## 27.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Build | Release Date |
|---|---|
| **10.0.20240111.1** | January 8th, 2024 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.33 | - | What's new or changed in Finance and Operations apps version 10.0.33 |
| Platform | Platform Update 57 | 7.0.6861.30 | What's new or changed in Platform update 57 for Finance and Operations apps |

## 27.2 Changed

| Functionality | Description |
|---|---|
| Same company direct delivery orders and 'Inherit' parameter (60056) | When you created an Direct delivery order within the same company (SO (DD)→ PO) and the parameter 'Inherit packaging' was set to YES in the company, packaging on the origin sales order was posted twice, this has been changed, so that inheritance only applies for intercompany and not intracompany orders. |

## 27.3 New

| Functionality | Description |
|---|---|
| Bin amount getting doubled/increased when adjusting a weight on a delivery docket (59441) | The packaging functionality was not implemented on the 'Correct' and 'Cancel' (only available in standard for products NOT warehouse enabled) options of the packing slip, which resulted in corrections posting again and not as reversals.<br><br>The functionality has been added to both sales orders, RMA orders, Purchase orders, Purchase returns and Transfer order (reversal of shipped, not yet received). |

© 2023 Cepheo. All Rights reserved

## 27.4 New

| Functionality | Description |
|---|---|
| Incomplete data migration (57909) | InventWarehouseEntity (Warehouses) has been extended with the field ‘Default packaging location’. |

© 2023 Cepheo. All Rights reserved

# 28 CEPHEO BUILD 10.0.20240830.1

## 1.1. General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Shipping Packaging Management Version | Release Date |
|---|---|
| **10.0.20240830.1** | August 29, 2024 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.38 | - | What's new or changed in Finance and Operations apps version 10.0.38 |
| Platform | Platform Update 62 | 7.0.7120.159 | What's new or changed in Platform updates - Finance & Operations \| Dynamics 365 \| Microsoft Learn |

## 1.2. Change

| Functionality | Description |
|---|---|
| (QSM) Enable AllowRowVersionChangeTracking (60931) | All Cepheo customer tables now have the property "row version change tracking" enabled. This is to enable the tables to be able to be transferred through Synapse Link to a storage account in Azure Data Lake due to another method being deprecated in November 2024. The list of over 200 tables can be found in the changeset 'Product Backlog Item 60931: Enable AllowRowVersionChangeTracking'. |

© 2023 Cepheo. All Rights reserved

# 29 CEPHEO BUILD 10.0.20241005.1

## 29.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Advanced Customer Approval Build | Release Date |
|---|---|
| 10.0.20241005.1 | September 7, 2024 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.38 | - | What's new or changed in Finance and Operations apps version 10.0.38 |
| Platform | Platform Update 62 | 7.0.7120.159 | What's new or changed in Platform updates - Finance & Operations \| Dynamics 365 \| Microsoft Learn |

## 29.2 New

| Functionality | Description |
|---|---|
| (QSM) Enable AllowRowVersionChangeTracking<br><br>(60931) | Version 2 of Synaps exports: All Cepheo customer tables now have the property "row version change tracking" enabled. This is to enable the tables to be able to be transferred through Synapse Link to a storage account in Azure Data Lake due to another method being deprecated in November 2024. The list of over 200 tables can be found in the changeset ‘Product Backlog Item 60931: Enable AllowRowVersionChangeTracking’. |

# 30 CEPHEO BUILD 10.0.20251006.1

## 30.1 General

This document describes the features that are either new or changed in the release version mentioned.

Release Information

| CEPHEO Advanced Customer Approval Build | Release Date |
|---|---|
| **10.0.20251006.1** | October 7, 2025 |

The following Microsoft version was used to build the release

| Base | Version | Build Number | Release |
|---|---|---|---|
| Application | 10.0.42 | 10.0.2095.59 | What's new or changed in Dynamics 365 Finance 10.0.42 (December 2024) - Finance \| Dynamics 365 \| Microsoft Learn |
| Platform | Platform Update 66 | 7.0.7452.66 | What's new or changed in Platform updates - Finance & Operations \| Dynamics 365 \| Microsoft Learn |

## 30.2 Changed

| Functionality | Description |
|---|---|
| Unibake bug in posting of packaging material in Transfer orders | Fixed an issue where packaging was not correctly transferred when using the “auto receive” option on transfer orders. The logic has been improved to ensure that packaging is properly moved to the receiving location upon completion of auto-received transfer orders. |

## 30.3 New

| Functionality | Description |
|---|---|
| Support for Catch Weight in Packaging Calculation<br><br>(61868) | The system now supports calculating packaging materials based on the Catch Weight unit. This enhancement addresses a previous limitation and is applicable in scenarios where Catch Weight is used.. |
