Head of Customer Experience

Sidonie Magnus
Customer Success Manager

Matt Howe
Customer Success Manager

Beena Patel
Support Team Manager

Nicholas Thorpe
Support Consultant

Agenda

- 01 Product Priorities Update
- 02 A deep dive into what we delivered in September- November (Q3)?
- 03 A look at what is planned in December – February (Q4)?
- 04 Procurement Act: Are you ready?
- 05 Customer Support Update
- 06 Q&A

Pop your **questions** in the Q&A box and we will answer them at the end

Use the **emojis** to let us know what you think

Complete the **survey** at the end of the webinar to let us know what you think

A thick, flowing orange ribbon graphic that starts from the top right, loops around, and extends towards the bottom right of the slide.

01

Product Priorities Update

Product Priorities

We focus on building important and unique features, but still spend time maintaining performance and quality

Quantum leaps

Based on thought leadership that is driven by market trends and customer feedback, we plan and prioritise big feature releases

Bitesize enhancements

Small, but powerful, innovations that push the envelope and solve decades-old work problems with new age solutions

Fixes and performance improvements

We constantly make optimisations to the software to make it run faster and more smoothly, and maintain high quality with small improvements and bug fixes

Platform Components

Shared capabilities built from the OneAdvanced Platform and deployed across multiple products

Illustrative Example

The “Cookie Jar”

As capability is complete it is added to the cookie jar, ready to be used and consumed by products and users as required.

Timeframe Definitions

Any development cycle for a product is constantly evolving – we use three key phrases to help timebox our developments

DELIVERED

Capability already released and available for customers and users to adopt

NEXT

Capability being worked on as we speak. This will be any feature, enhancement or improvement that is currently in development

FUTURE

Items in the queue to be developed. Likely to be 3-6 months from being worked on but could be longer depending on the product and size of the capability

Product Priorities – FY25 Q3-Q4

DELIVERED

NEXT

FUTURE

Categorisation: Search

Early Adopter

Filter and Browse by UNSPSC/eClass category categories. *Currently in Early Adopter

Categorisation: Supplier Insight UNSPSC Analysis

Providing insights into the level of UNSPSC products are categorised at i.e. Segment, Family, Class, Commodity

Insights: Off Catalogue Spend Breakdown

Further insight into off catalogue spend by providing clarity on which orders lines are Free Format, eServices, eOligos or Punchout

Fixes

Addressing product defects raised by customers

Categorisation: Buyer Insight UNSPSC Analysis

Providing insights into how your suppliers product is categorised

OneAdvanced Identity: User Authentication

Further enhancing user authentication and security by adopting OneAdvanced authentication platform services

Amazon Business eInvoicing

Enabling eInvoicing with Amazon Business .. Automating the current manual invoice process for the Amazon Business Punchout

Fixes

Addressing product defects raised by customers

Categorisation: Controlling product visibility through categories

Control product visibility via the UNSPSC/eClass schema categories.

Categorisation: Insight-Reporting on spend via UNSPSC/eClass categories

Update existing insights reports to allow users to report on spend insights using UNSPSC categories

Categorisation: Price Approval, RFQ, eServices, eOligos

Ensuring all modules use UNSPSC or eClass categories

Delivery Charges

Improving accuracy of purchase orders by ensuring POs are adhering to the applicable delivery charge and minimum orders set by suppliers

OneAdvanced Spend Management Integrations

Integrations with the wider OneAdvanced supplier and contract management suite

Insights: Price Trends

Enhancements to Insights Reports: introducing price change history analysis for both buyers and suppliers, to gain insight on the price trends of items

Insights: Product Visibility

Enhancements to Insights Reports: introducing product visibility reports to gain insight on which items are visible to your purchasers

02

A focus on what was delivered in Q3

September – November 2024

Purchasing- Delivered

Available to Buyers

Available to Suppliers

October 2024

DELIVERED

- ■ Insights: On and Off Catalogue
- ■ Spend Breakdown

Giving greater insight into your **off catalogue spend**

The On and Off Catalogue report now provides a breakdown of spend all the possible methods of purchase i.e. Free Format, Punchout, Oligos, eServices so you can fully understand how users are purchasing when its not On Catalogue.

				Variance ?
5	-86.17%	Catalogue ?	13 1,930.30	-98.24%
0	-74.7%	Free Format ?	1 9.00	
		Punchout ?	2 351.90	206.66%
		Oligo ?	11 4,180.85	91.87%
		eService ?	1 9,060.00	

DELIVERED

Categorisation: Supplier Insights - UNSPSC analysis

Insights into how your products are categorised

- View the **level** of UNSPSC you have assigned to your product (The more granular the UNSPSC the better)

Level	Code	Description
Segment	10000000	Live Plant and Animal Material and Accessories and Supplies
Family	10100000	Live animals
Class	10101500	Livestock
Commodity	10101501	Cats

- Understand how many products are using your **default UNSPSC code**, and therefore may not be representative of the true category

03

What is the focus for the next quarter?

December – February (Q4)

NEXT

OneAdvanced Identity

Further enhancing user authentication and security by adopting OneAdvanced Identity services.

What is Identity?

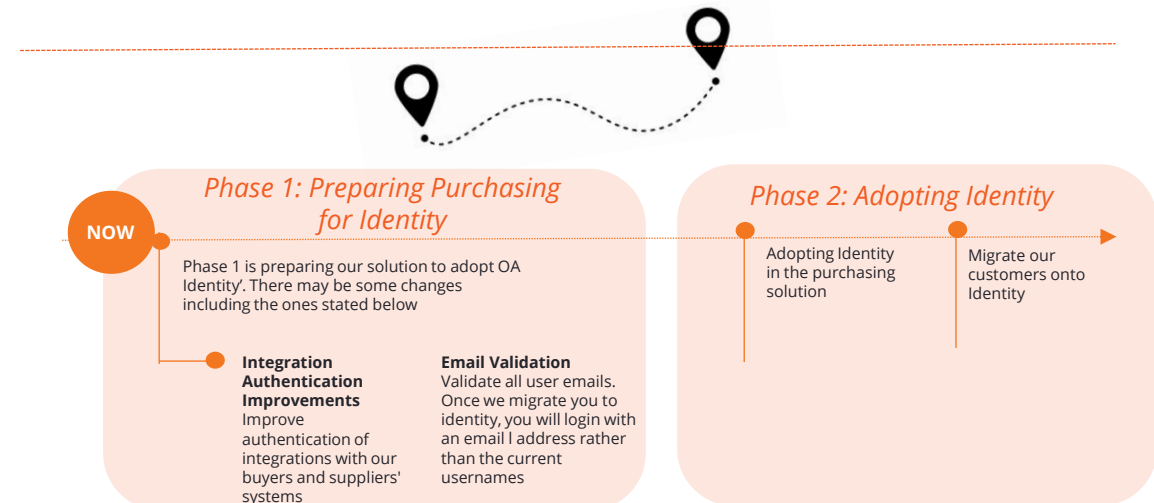

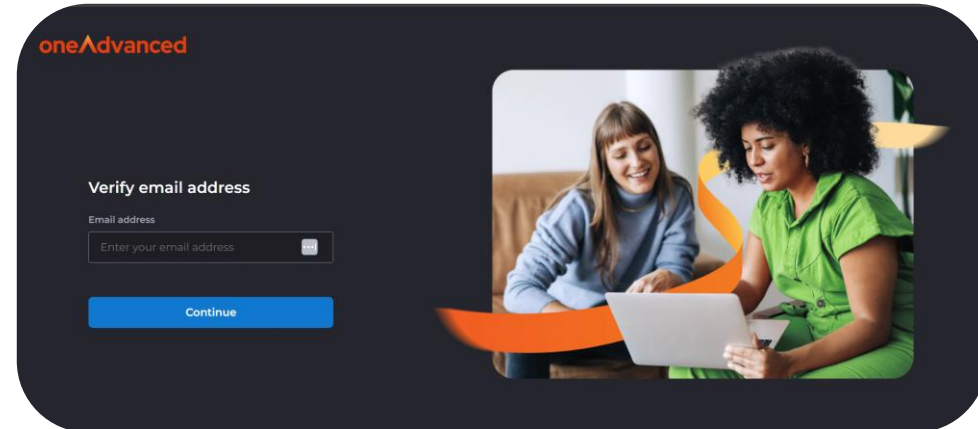

Identity is a cloud-based platform service that provides a centralised system for managing user identities and authentication across multiple applications.

Empowers you as customers to manage user identities, and access control management across multiple products, ensuring a consistent and secure user experience whilst reducing the overhead of managing identities separately for each system

What are some of the benefits?

For all our users who login with a username and password here are some benefits:

- MFA capabilities via email
- Enabling **seamless** authentication into all **OneAdvanced products**
- Ability to **integrate** your Identity provider e.g. Azure so that you can just use one set of credentials
- Manage password policies for your OneAdvanced applications

NEXT

Amazon Business eInvoicing

Helping buyer organisations control their Amazon business spend

To further simplify your Amazon Business purchasing, we will be integrating with Amazon Business to **streamline the end-to-end invoice process** for customers by enabling **eInvoicing**.

The integration will support eInvoices and credit notes received for an individual delivery or purchase order (as you do with other suppliers through our platform).

Making it easier to bid and work in partnership with the public sector

Public Procurement is changing next year.

On 24 February 2025, the rules that shape how public bodies buy goods and services will change. The Procurement Act 2023 will improve and streamline the way procurement is done and benefit prospective suppliers of all sizes, particularly small businesses, start-ups and social enterprises.

If your business supplies goods, works or services to organisations in the public or utility sectors – or hopes to do so in the future – you need to know about the changes. This includes supplying to government departments, the NHS, local authorities, universities, schools, social housing organisations, police and fire brigades and utility companies.

Key benefits for suppliers include more standardisation and streamlining of procurement processes - but there are also additional benefits in the Act such as requiring better oversight of procurement decisions and strengthening payment terms.
