

Purchasing

FY26 Q1 Roadmap Update

Presented by Abigail Briggs

Purchasing Team

Abi Briggs

Product Manager

Also joining me today...

Anne Freel

Customer Solutions Manager

Catherine Gregory

Senior eCommerce Consultant

Jessica Mistry

Support Associate

Agenda

- 01 Product Priorities Update
- 02 A deep dive into what we delivered in December – February (Q4)
- 03 A look at what is planned in March – May (Q1)
- 04 OneAdvanced AI
- 05 Customer Support Update
- 06 Q&A

Pop your **questions** in the Q&A box and we will answer them at the end

Use the **emojis** to let us know what you think

Complete the **survey** at the end of the webinar to let us know what you think

A thick, flowing orange ribbon graphic that starts from the top right, loops around, and extends towards the bottom right corner of the slide.

01

Product Priorities Update

Product Priorities

We focus on building important and unique features, but still spend time maintaining performance and quality

Quantum leaps

Based on thought leadership that is driven by market trends and customer feedback, we plan and prioritise big feature releases

Bitesize enhancements

Small, but powerful, innovations that push the envelope and solve decades-old work problems with new age solutions

Fixes and performance improvements

We constantly make optimisations to the software to make it run faster and more smoothly, and maintain high quality with small improvements and bug fixes

Platform Components

Shared capabilities built from the OneAdvanced Platform and deployed across multiple products

Illustrative Example

The “Cookie Jar”

As capability is complete it is added to the cookie jar, ready to be used and consumed by products and users as required.

Timeframe Definitions

Any development cycle for a product is constantly evolving – we use three key phrases to help timebox our developments

DELIVERED

Capability already released and available for customers and users to adopt

NEXT

Capability being worked on as we speak. This will be any feature, enhancement or improvement that is currently in development

FUTURE

Items in the queue to be developed. Likely to be 3-6 months from being worked on but could be longer depending on the product and size of the capability

Product Priorities – FY25 Q4 - FY26 Q1

Amazon Business eInvoicing
Enables a seamless, automated process for handling purchase order invoices from Amazon.

Early Adopter

Buyer eInvoicing Authentication
Further enhancing user authentication and security by improving the authentication mechanisms used some of our buyer organisations who eInvoice (This is a pre-requisite to OneAdvanced Identity Adoption)

Early Adopter

Fixes
Addressing product defects raised by customers

Categorisation: Buyer Insight UNSPSC Analysis
Providing insights into how your suppliers product is categorised

OneAdvanced Identity
Further enhancing user authentication and security by adopting OneAdvanced authentication platform services

Categorisation: Controlling product visibility through categories
Control product visibility via the UNSPSC/eClass schema categories.

Fixes
Addressing product defects raised by customers

Categorisation: Insight-Reporting on spend via UNSPSC/eClass categories
Update existing insights reports to allow users to report on spend insights using UNSPSC categories

Categorisation: Price Approval, RFQ, eServices, eOligos
Ensuring all modules use UNSPSC or eClass categories

Delivery Charges
Improving accuracy of purchase orders by ensuring POs are adhering to the applicable delivery charge and minimum orders set by suppliers

OneAdvanced Spend Management Integrations
Integrations with the wider OneAdvanced supplier and contract management suite

Insights: Price Trends
Enhancements to Insights Reports: introducing price change history analysis for both buyers and suppliers, to gain insight on the price trends of items

Insights: Product Visibility
Enhancements to Insights Reports: introducing product visibility reports to gain insight on which items are visible to your purchasers

02

A focus on what was delivered in Q4

December 2024 – February 2025

NEXT

Amazon Business eInvoicing

Enables a **seamless, automated process** for handling purchase order invoices from Amazon.

To further simplify your Amazon Business purchasing, we have integrated with Amazon Business to **streamline the end-to-end invoice process** for customers by enabling **eInvoicing**.

The integration will support eInvoices and credit notes received for an individual delivery or purchase order (as you do with other suppliers through our platform).

Suppliers

Early
Adopter

DELIVERED

Buyer eInvoicing Authentication

(OneAdvanced Identity Pre-requisite)

As part of our ongoing commitment to strengthening our security posture, we're introducing improvements to the way our buyer organisations authenticate and integrate eInvoicing.

These enhancements will further protect and ensure compliance with industry best practices.

We're currently in an early adopter phase, where a few customers will help us validate the new process.

These are minimal configuration changes (related to URL's and credentials).

Quantum leaps in user
functionality and workflows

Unique and bitesize
enhancements

Regular fixes and performance
improvements

03

What is coming up next?

December – February (Q4)

Purchasing- Next

Buyers

NEXT

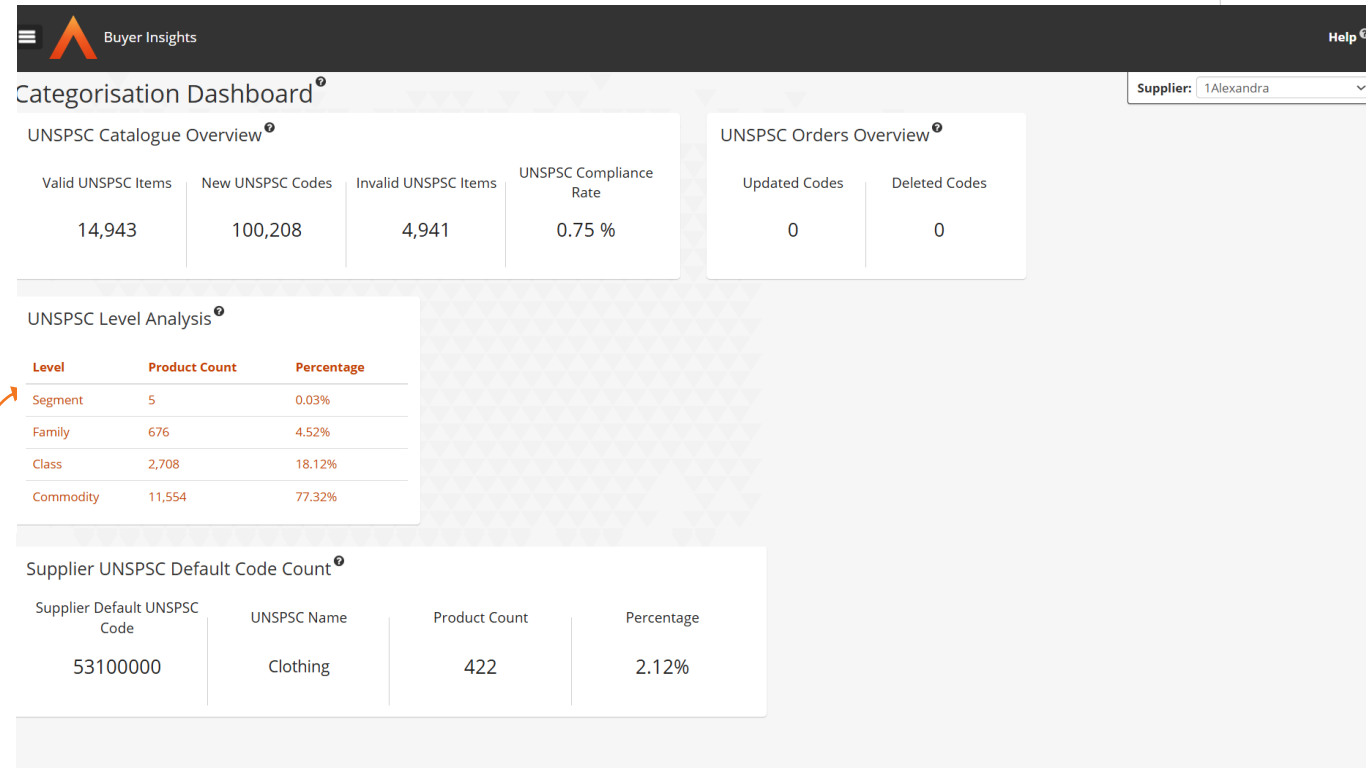

Categorisation: Buyer Insight Reports on UNSPSC levels

Helping buyers gain insights into how product data is categorised.

Now the use of UNSPSC data is becoming so important across the marketplace, we want to help you understand the quality of your suppliers data

A new categorisation dashboard will be launched providing analysis of each of your suppliers data to tell you the compliance with

Level	Code	Description
Segment	10000000	Live Plant and Animal Material and Accessories and Supplies
Family	10100000	Live animals
Class	10101500	Livestock
Commodity	10101501	Cats

OneAdvanced Identity

Further enhancing user authentication, security, user experience by adopting OneAdvanced Identity.

What is Identity?

Identity forms part of our Platform services, and is a comprehensive Identity and Access management (IAM) solution that streamlines access to OneAdvanced products.

Empowers you as customers to manage user identities, and access control management, ensuring a consistent and secure user experience across your OneAdvanced products whilst reducing the overhead of managing identities separately for each system.

Adopting Identity is a gateway to access other platform services available on our OneAdvanced Platform

Security

System security strict policy enforced through automated & proactive threat and intelligence

Platform Services

Reusable highly services and UX used by all products in the portfolio to customer experience

Innovation integrated into a layer. Compliant to access across

Operations

Automation creating, monitoring, and to ensure secure operation

Ops

Consolidated hybrid architecture across all

OneAdvanced Identity

Buyers

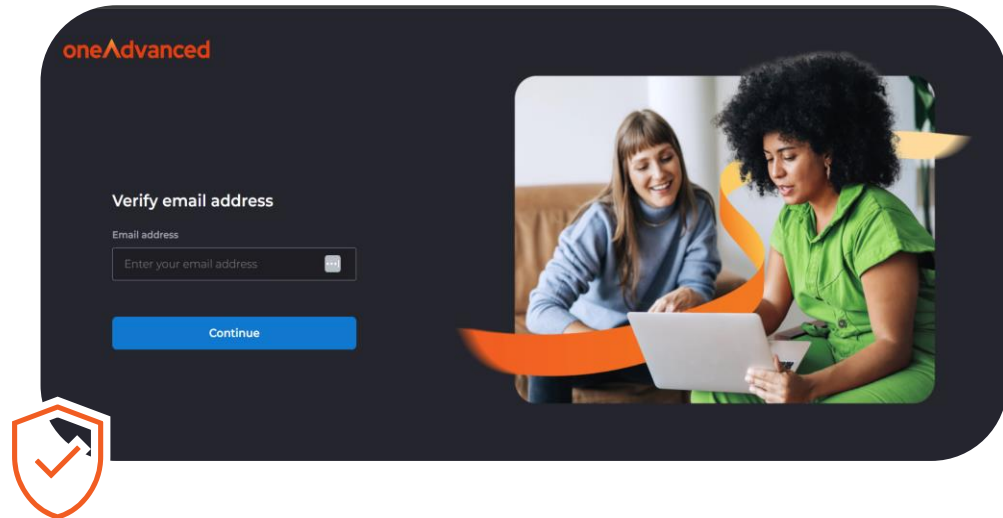

Suppliers

What are the benefits?

For all users (who login directly to Purchasing) here are some benefits:

- **User Authentication** – verifies user for secure access
- **Single Sign On** – simplifies access by having one set of credentials to login to OneAdvanced products
- **MFA Capabilities**
- **Federated Identity Management** - Ability to **integrate** your Identity provider e.g. Azure so that you can just use one set of credentials
- **Account management and Self Service** – Empower users to manage their own profiles and security settings

OneAdvanced Identity – Customer Changes

Buyer eInvoicing Authentication

Improvements to the way our buyer organisations authenticate and integrate eInvoicing

April 2025

Email Verification

Validate emails of user accounts (only users who login directly – not via your FMS).
Once we migrate you to OneAdvanced you will login with an email I address rather than the current usernames

July 2025

May 2025

Supplier eInvoicing Authentication

Improvements to the way our supplier organisations authenticate and integrate eInvoicing

Adopting Identity

A phased migration to move you onto OneAdvanced Identity.

You will now login with an email, and will be required to set a new password

TBD

Users will multiple logins for Purchasing, will now have one single set of credentials and be able to switch between the various profiles

Phase 1: Preparing Purchasing for OneAdvanced Identity

Phase 2: Adopting Identity

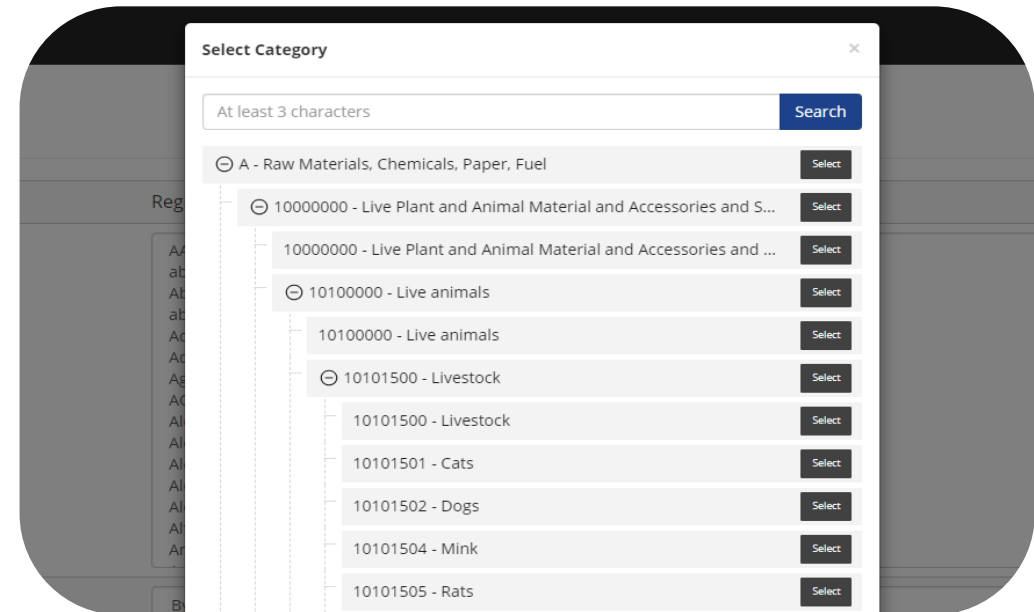

NEXT

Categorisation: Controlling product visibility through categories

Allowing buyer organisations to control the visibility of products through the new category schemas.

Through an improved user experience buyer administrators will be able to choose categories from UNSPSC or eClass schemas and define if those categories of product should be **selected**, **deselected** or **preferred**.

This phase will address how we can support buyers through a seamless transition to migrate their existing category preferences, to use UNSPSC or eClass

Trends & Challenges

AI is disrupting the world of work

Market trends

Companies know they need to embrace AI to stay competitive

Workers use **unauthorised AI tools** like ChatGPT and Copilot daily

Privacy and security remain leading concerns around the use of AI

Customer Challenges

Paid for models are available but for general access they can be expensive

Employees want to **use AI inside** the products they use day to day

Need AI that understands their data

Public GenAI Queries

Where does your data go? Is it stored?

No clarity on processing of info

Your information could be used to train other systems

Uncontrolled Business IT Tool

OneAdvanced AI Queries

Private, UK Hosted – guaranteed your data doesn't leave the UK

Your data is not used to train AI or other LLMs

Safe & Secure environment with private spaces for you to use – controlled by your organisation

Introducing OneAdvanced AI

Private Spaces

Securely upload and manage files with confidence.

Retrieval-Augmented Generation

Get precise, AI-driven answers informed by your sector and role-specific data.

AI Agents for Automaton

Streamline routine tasks, saving time and driving efficiency.

Agentic AI for Complex Workflows

Unlock next-gen AI capabilities for independent, adaptive problem-solving.

OneAdvanced AI

**UK Hosted Private
LLM for Business**

No other organisation can
offer this at launch

**Business-grade AI
controls at a user,
department and
organisation level**

Control visibility
of data

**User identity
management and
usage**

Integration with
OneAdvanced products

**AI embedded into
the OneAdvanced
portfolio**

One AI interface for all the
OneAdvanced software an
organisation uses

Customer Support Update

Customer Support

The customer portal is your place to raise queries related to the Purchasing solution, plus any finance/billing queries

Purchasing Support service desk is open **Monday to Friday 09:00 – 17:00 (excluding UK Bank Holidays)**

- **New telephone line** now live with enhanced governance and technology to route you directly to a support agent.

You will need your Account Number and unique User Pin to help us verify your identity.

If calling from UK: 0330 343 5000

If calling from Ireland: +353 1 270 9448

New Customer Portal available 24/7. To login or register, please use the following link:

<https://services.oneadvanced.com/hub>

- **Who should you contact if you have questions**
 - Contact your Customer Admin in the first instance
 - If you are not sure who your customer admin is or need help accessing the portal, please contact portal.support@oneadvanced.com
- **Support Handbook:** <https://www.oneadvanced.com/siteassets/resources/customer-support-handbook.pdf>
- **Help Documents:** [The OneAdvanced Customer Support Portal - Purchasing](#)
