FY26 Q2 Roadmap Update

**Presented by Abigail Briggs**

Monthly Stats
+25%
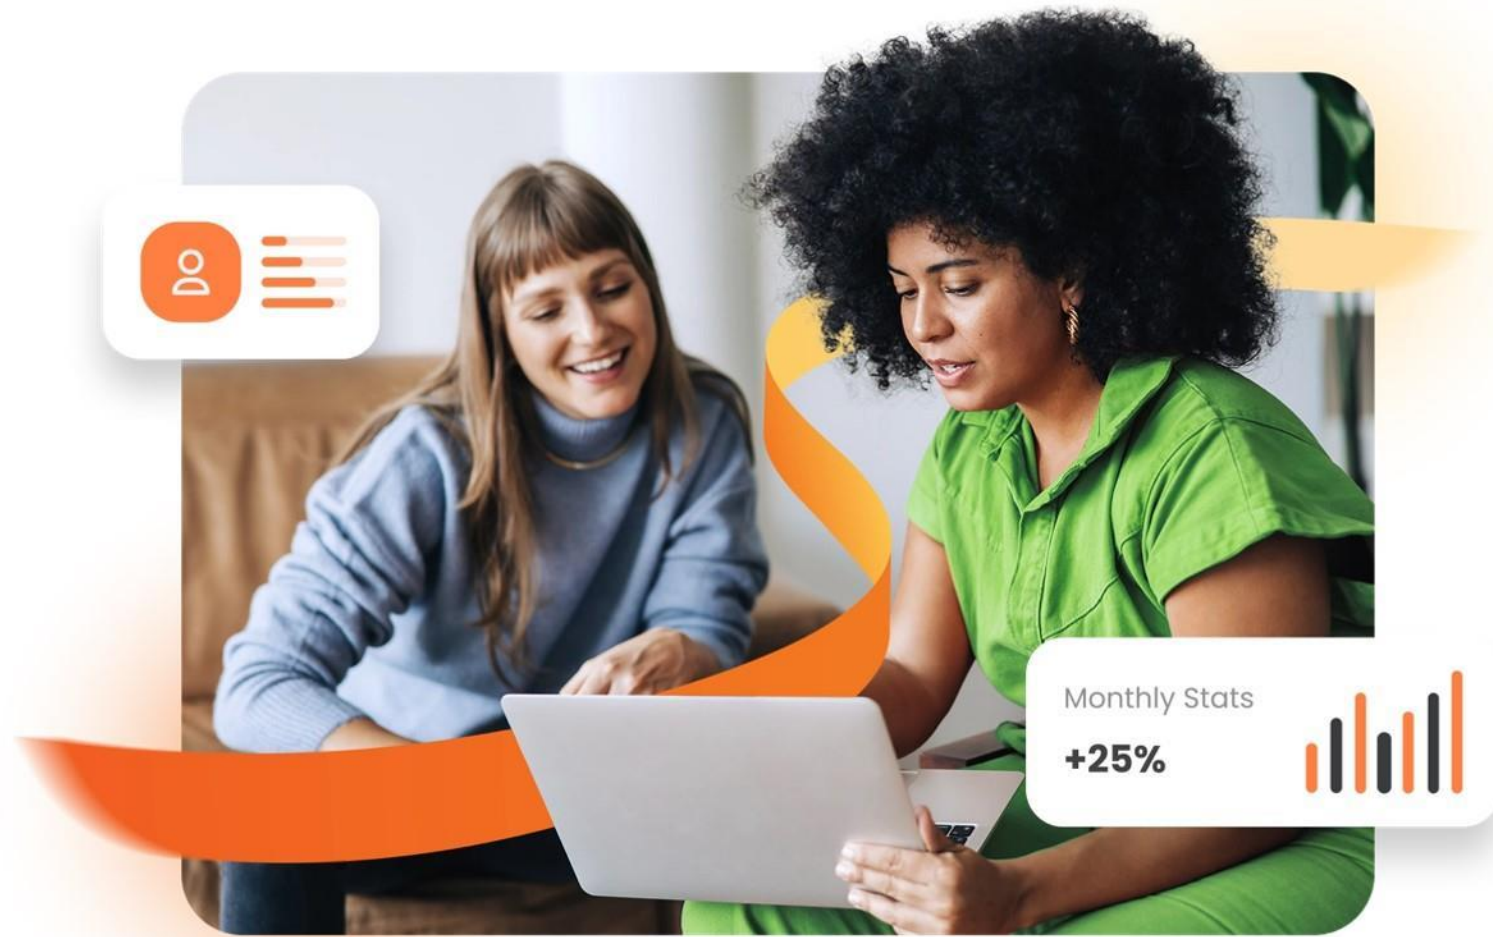

Product Priorities

We focus on building important and unique features, but still spend time maintaining performance and quality
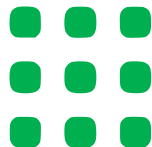

Quantum leaps

Based on thought leadership that is driven by market trends and customer feedback, we plan and prioritise big feature releases

Bitesize enhancements

Small, but powerful, innovations that push the envelope and solve decades-old work problems with new age solutions
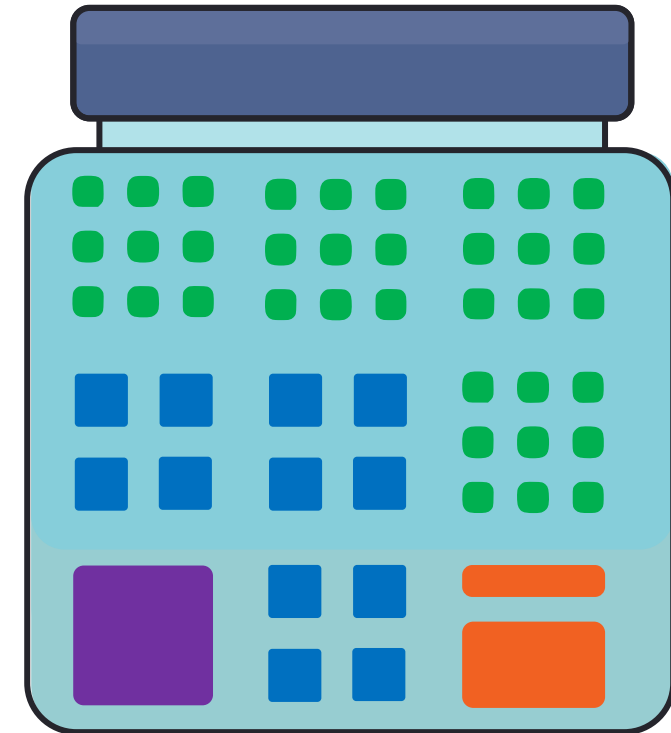

Fixes and performance improvements

We constantly make optimisations to the software to make it run faster and more smoothly, and maintain high quality with small improvements and bug fixes

Platform Components

Shared capabilities built from the OneAdvanced Platform and deployed across multiple products

Illustrative Example

The "Cookie Jar"

As capability is complete it is added to the cookie jar, ready to be used and consumed by products and users as required.

Timeframe Definitions

Any development cycle for a product is constantly evolving – we use three key phrases to help timebox our developments

DELIVERED

Capability already released and available for customers and users to adopt

NEXT

Capability being worked on as we speak. This will be any feature, enhancement or improvement that is currently in development

FUTURE

Items in the queue to be developed. Likely to be 3-6 months from being worked on but could be longer depending on the product and size of the capability

Product Priorities – FY26 Q1 - Q2 *Q1 March to May, Q2 June to August

DELIVERED	NEXT	FUTURE

Now Live

Amazon Business eInvoicing
Enables a seamless, automated process for handling purchase order invoices from Amazon.

Buyer eInvoicing Authentication

Early Adopter

Further enhancing user authentication and security by improving the authentication mechanisms used some of our buyer organisations who eInvoice (This is a pre-requisite to OneAdvanced Identity Adoption)
