

Click on **Facilities screen**.

Move the **blue pin** under Number of columns to edit this.

Move the **blue pin** under Items big font size to edit this.

The image shows a mobile application settings screen titled "Facilities screen". It features four settings: "Number of columns" (slider at 4), "Items big font size" (slider at 18, highlighted with a pink border), "Items small font size" (slider at 14), and "Always show table selection" (toggle switch). The "Items big font size" setting is highlighted with a pink border, and a blue pin is visible on its slider.

Setting	Value
Number of columns	4
Items big font size	18
Items small font size	14
Always show table selection	Off

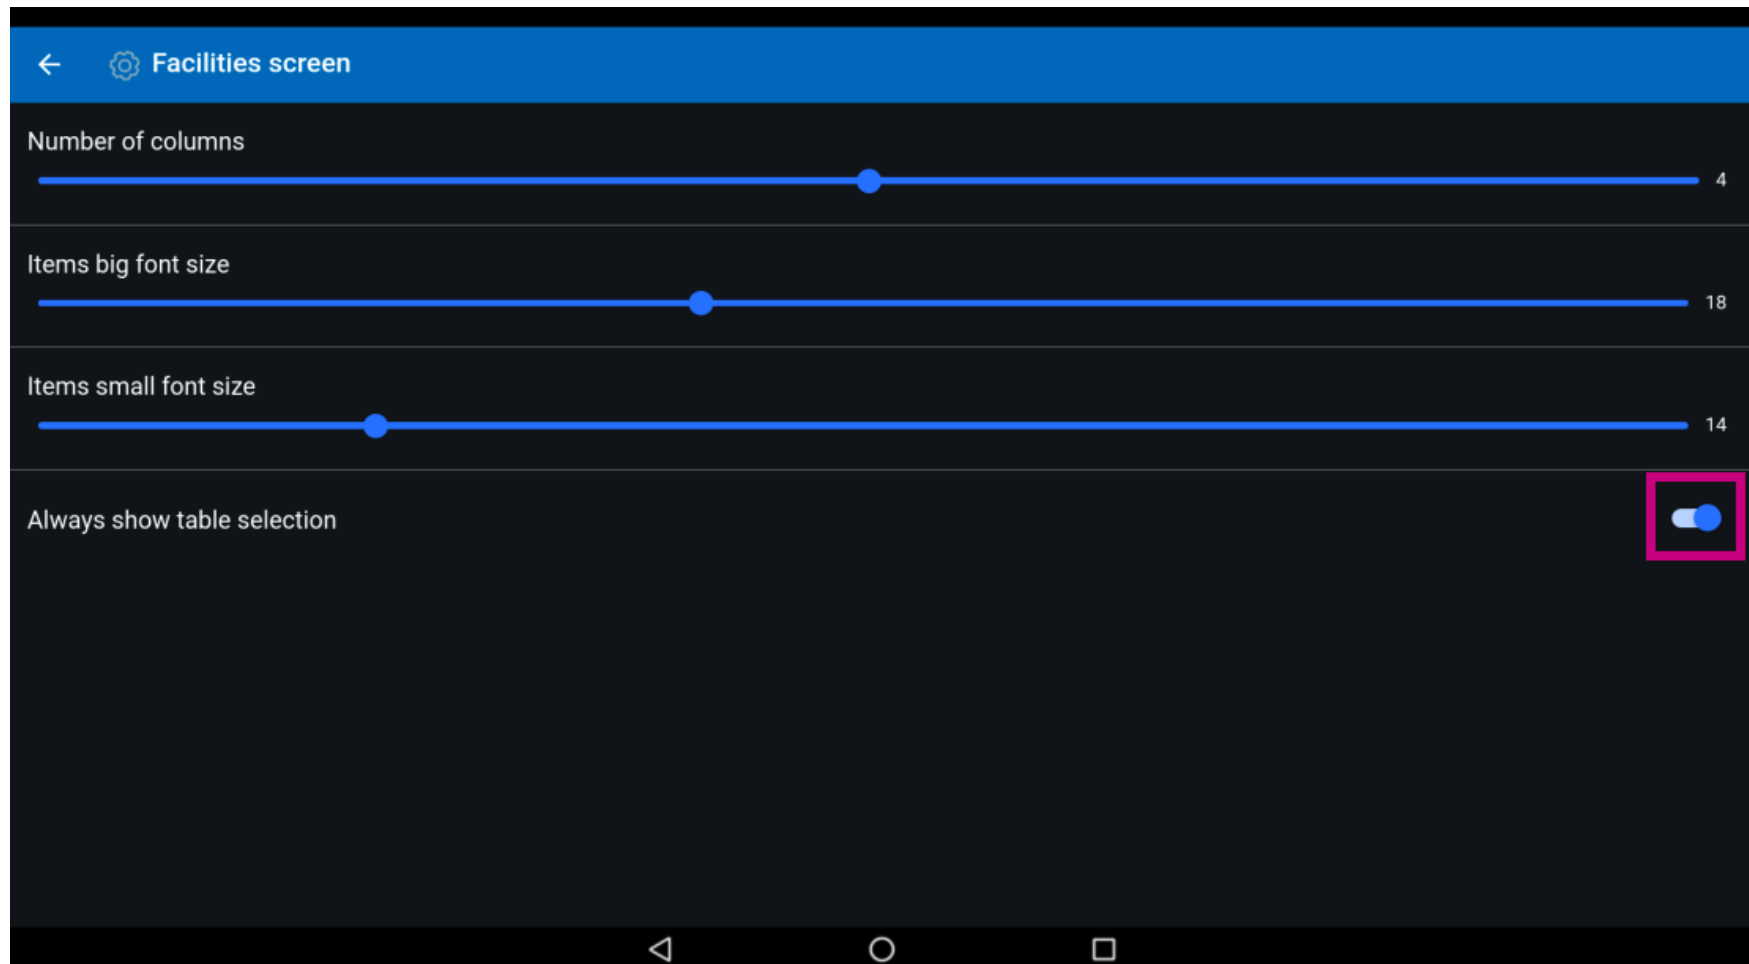

Move the **blue pin** under Items small font size to edit this.

The image shows a mobile application settings screen titled "Facilities screen". It features four settings: "Number of columns" (slider at 4), "Items big font size" (slider at 18), "Items small font size" (slider at 14), and "Always show table selection" (toggle switch). The "Items small font size" setting is highlighted with a red border. A red pin is placed on the slider for "Items small font size".

Setting	Value
Number of columns	4
Items big font size	18
